From:	General Secretariat of the Council
To:	Delegations
Subject:	ANNEX to the COUNCIL IMPLEMENTING DECISION amending Implementing Decision of 13 July 2021 on the approval of the assessment of the recovery and resilience plan for Italy

ANNEX

1. DESCRIPTION OF REFORMS AND INVESTMENTS

A. MISSION 1 COMPONENT 1

Axis 1 - Digitalization of the Public Administration: Axis 1 of component M1C1 of the Italian recovery and resilience plan contains measures that aim to foster the digitalisation of the Italian public administration and includes seven investments and three reforms. Investments aim in particular at: (i) rationalising and consolidating existing digital infrastructures of the public administration; (ii) fostering the uptake of cloud computing, (iii) with particular attention to the harmonisation and interoperability of platforms and data services, the implementation of the ‘once-only principle’ and the accessibility of data through a catalogue of Application Programming Interfaces (APIs); (iv) improving the availability, efficiency and accessibility of all digital public services with the aim of increasing the level of adoption and users’ satisfaction, (v) strengthening Italy’s defences against the risks posed by cybercrime, (vi) fostering the digital transformation of large central administrations; (vii) tackling the digital divide by strengthening citizens’ digital skills. Reforms under this axis aim in particular at (i) streamlining and accelerating the procurement process for Information and Communication Technologies (ICT) solutions by the public administration; (ii) supporting the digital transformation of the public administration, and (iii) removing obstacles to the adoption of cloud by public administrations and streamlining data exchange processes between public administrations.

The investments and reforms under this component shall contribute to addressing the Country-Specific Recommendations addressed to Italy in 2020 and 2019 on the need to “improve the effectiveness of public administration, including by investing in the skills of public employees, by accelerating digitalisation, and by increasing the efficiency and quality of local public services” (Country-Specific Recommendation 3, 2019), and to “focus investment on the green and digital transition, in particular on [...] reinforced digital infrastructure to ensure the provision of essential services” (Country-Specific Recommendation 3, 2020).

Axis 2 - Justice: The performance of the Italian justice system remains far from that of other Member States in terms of duration of proceedings, as outlined in the latest report of the European Commission on the efficiency of justice (CEPEJ). Axis 2 of component M1C1 of the recovery and resilience plan contains measures that aim to make the judicial system more efficient by reducing the length of proceedings and bringing Italy closer to the EU median. This component addresses the Country-specific recommendations addressed to Italy in 2020 and 2019 on reducing the length of civil trials and on improving the effectiveness of the fight against corruption (Country-specific recommendations 4, 2019 and 4, 2020). Furthermore, the digitisation of the justice system is also relevant for the digital transition.

Axis 3 – Public administration: Axis 3 of component M1C1 of the recovery and resilience plan contains measures that aim to reform the Italian public administration and improve administrative capacity. Italy ranks below EU-27 average both for government effectiveness and for trust in government. Italian public administration reforms were affected by a serious implementation gap of top-down reforms and the scarce recognition and diffusion of valuable bottom-up innovations. Administrative capacity is very low. Efforts to strengthen the strategic planning capacity, monitoring and evaluation mechanisms, and evidence-based policymaking instruments should continue. The main objective of this component is to enhance the administrative capacity of the Italian public administrations at central and local levels, both in terms of human capital (selection, competences, and careers) and in terms of simplification of administrative procedures. This section presents the overarching structural human resources strategy, ranging from the selection processes to career paths. The reform includes also actions to simplify procedures. Investments in new digital toolkits and strengthened actions on lifelong learning are included in Component 1 of Mission 1. This component addresses the Country-specific recommendations addressed to Italy in 2020 and 2019 on improving the effectiveness of public administration (Country-specific recommendation 3, 2019 and Country-specific recommendation 4, 2020).

Axis 4 – Public procurement and payments by the administration: Axis 4 of component M1C1 of the recovery and resilience plan contains measures that aim to reform certain key aspects of the Italian public procurement legislative framework and to reduce late payments by public administrations at central, regional and local, as well as regional health authorities. The main objective of the reform is to simplify public procurement rules, increase legal certainty for businesses and accelerate the award of public contracts while maintaining procedural guarantees in terms of transparency and equal treatment. These reforms support therefore the timely realization of the infrastructures and projects financed by the Plan.

Axis 5 – Fiscal-structural reforms (Taxation and public expenditure): Axis 5 of component M1C1 of the recovery and resilience includes several reforms aimed at supporting the sustainability of Italy's public finances (country-specific recommendation 1, 2019). On the revenue side, the reforms aim at improving the tax collection process, encouraging tax compliance and fight tax evasion, in order to reduce compliance costs for taxpayers and increase revenues for the general government, contributing to improving the sustainability of public finances. On the expenditure side, the reforms aim at improving the efficiency of public expenditure, both at the central level, by strengthening the existing framework for yearly spending reviews, and at the subnational level, by completing the reform of fiscal relations across different levels of government.

A.1. Description of the reforms and investments for non-repayable financial support

Axis 1- Digitalization of the Public Administration

Investment 1.1 - Digital infrastructure

The objective of this investment is to ensure that the systems, datasets and applications of the public administration are hosted in data centres with high quality standards for security, performance, scalability, European interoperability and energy efficiency. The investment consists in the migration of the datasets and applications of the public administration towards the PSN or towards secure certified public cloud providers.

Investment 1.2 - Cloud enablement for local PA

The objective of this investment is to migrate the datasets and applications of a substantial part of the local public administration to a secure cloud infrastructure, allowing each administration the freedom to choose within a set of certified public cloud environments.

The measure also envisages a “migration as a service” support package to administrations encompassing: (i) the initial assessment, (ii) the procedural/administrative support needed to launch the effort, (iii) the negotiation of the necessary external support and (iv) the overall project management over the course of execution. A team supervised by the Ministry for Technological Innovation and Digital Transition (MITD) is expected to identify and certify a broad list of qualified providers and to negotiate a set of standard support packages tailored to the size of the administration and the services involved in the migration.

Investment 1.3 - Data and interoperability

The objective of this investment is to ensure the full interoperability of key datasets and services across central and local public administrations. The measure consists in the set up of a National Digital Data Platform (“Piattaforma Digitale Nazionale Dati”) enabling the interoperability of datasets through a catalogue of Application Programming Interfaces (APIs) shared across central and local administrations.

Investment 1.4 - Digital services and citizen experience

The objective of this investment is to develop an integrated and citizen-oriented ecosystem of digital public services, ensure their widespread adoption across central and local administrations and enhance overall user experience.

The measure :

- (i) defines reusable service delivery models ensuring full accessibility requirements (Investment 1.4.1 - Citizen experience - Improvement of the quality and the usability of digital public services);
- (ii) increases the accessibility of digital public services (Investment 1.4.2 - Citizen inclusion: Accessibility improvement of digital public services);
- (iii) entails the adoption of the digital application for payments between citizens and public administrations (PagoPa) and the adoption of the “IO” app (Investment 1.4.3 - Adoption scale up of PagoPA platform services and the “IO” app);
- (iv) fosters the adoption of National Digital Identity platforms (Sistema Pubblico di Identità Digitale, SPID and Carta d’Identità Elettronica, CIE) and of the national registry (Anagrafe nazionale della popolazione residente, ANPR) (Investment 1.4.4 - Adoption scale up of the National Digital Identity platforms (SPID, CIE) and the national registry (ANPR));
- (v) sets up a single platform for notifications (Investment 1.4.5 - Digitization of public notices);
- (vi) entails the adoption of Mobility as a Service (MaaS) (Investment 1.4.6 - Mobility as a Service for Italy, with this last measure being financed on the basis of non-repayable financial support).

Investment 1.5 - Cybersecurity

The objective of this investment is to strengthen Italy’s defences against the risks posed by cybercrime, notably through the implementation of a ‘National Perimeter for Cyber Security’ (PSNC), in line with the security requirements set out in the Directive (EU) 2016/1148 on security of network and information systems (NIS Directive), and by strengthening national cyber-defence capabilities of technical inspection and risk monitoring.

The measure envisages the development of a state-of-the-art, integrated system, tightly interconnecting different entities across the country and connecting internationally with partners and trusted technology providers. This is articulated on four pillars: (i) Strengthen front line capabilities towards the public and companies/entities to manage alerts and actual publicly recognized events; (ii) Build/strengthen the country’s inspection and audit capabilities of hardware and software used by subjects with essential functions to certify trustworthiness/pre-empt threats; (iii) Power up units of law enforcement and cyber units within the Police forces in charge of investigations of criminal activities; (iv) Strengthen significantly cyber asset and human resources in charge of national security and response to cyber threats.

Investment 1.6 - Digital transformation of large central administrations

The objective of this investment is to increase the efficiency and simplify the procedures of the main central administrations – including (i) the Ministry of Interior, (ii) the Ministry of Justice, (iii) the National Social Security Institute (INPS) and National Institute for Insurance against Accidents at work (INAIL), (iv) the Ministry of Defence, (v) the Council of State, and (vi) the Finance Police. The investment consists of the re-engineering and the digitisation of a set of priority processes, activities, and services within their remit.

Investment 1.7 - Basic digital skills

The objective of this investment is to reduce the share of population at risk of digital exclusion via the provision of digital education. The measure consists of training volunteers to deliver digital education to people at risk of digital exclusion and of reinforcing the network of digital facilitation centres.

Reform 1.1 - ICT Procurement

The objective of this reform is to ensure that the public administration may procure Information and Communication Technologies (ICT) solutions in a more timely and more efficient way by streamlining and accelerating the procurement process for ICT services and assets.

The implementation of the reform shall consist in three lines of actions. First, a single database containing a white list of economic operators authorized to provide goods and services to public administrations shall be set-up and a dedicated technological infrastructure shall be introduced to allow the certification of suppliers. Second, a simplified approach (“fast track”) to streamline ICT purchases for PNRR projects shall be adopted. Third, a digital procurement service shall be set up, with the aim to (i) include only certified suppliers (economic operators may request at any time to be certified in line with art. 64 of Directive 2014/24/EU); (ii) allow to quickly identify suppliers meeting a specified need (e.g. through a configurator); (iii) provide an intuitive user experience for administrations (e.g. clear description of the services offered, comparative evaluation of suppliers). This overall setup shall build on the existing capabilities of CONSIP, the Italian state entity for procurement.

Reform 1.2 - Transformation Support

The objective of this reform is to support the digital transformation of all central and local public administrations through the set-up of a dedicated “Digital PA transformation office”. The transformation office shall consist in a temporary technology competent resource pool that shall orchestrate and support the migration effort and the centralized negotiation of “packages” of certified external support.

In addition, the measure envisages the set up a company focused on software development & operations management to support the digital step-up of central administrations. The transformation office shall in particular support public administration in the implementation of Investments 1.1 to 1.7 included under this component and shall also support the implementation of investments and reforms in digitalization of healthcare included in Mission 6.

Reform 1.3 - Cloud First and interoperability

The aim of this reform is to remove the obstacles to cloud adoption and streamline the bureaucracy that slows down the data exchange processes between public administrations by introducing a set of incentives and obligations aimed at facilitating the migration to cloud and removing procedural constraints to the broad adoption of digital services.

The reform shall entail three lines of action. First, as cloud solutions shall drive cost efficiency in spending in Information and communication technology (ICT), after a predefined “grace period” (e.g. three-years after the launch of the transformation), administrations that did not adhere to the cloud transformation shall see a restriction in their ICT spending budget.

Second, as part of the incentives for cloud migration, the current public accounting rules for expenses related to cloud services shall be revised. Given that the migration to the cloud currently involves a transfer of budgets from capital expenditures to operational expenditures, public accounting rules for expenses related to cloud services shall be revised in order to not disincentivize cloud migration for public administrations.

Third, norms related to data interoperability rules shall be revised, in compliance with the provisions on open data and processing of personal data and current procedures for data exchange between public administrations shall be simplified to streamline procedural aspects and speed up the implementation of interoperability between public administration databases. Furthermore, digital domicile shall be reviewed and integrated with the national resident registry (ANPR) to allow certain and secure digital correspondence between citizens and public administrations.

Axis 2 - Justice

Reform 1.4 - Civil justice

The objective of this reform is to shorten the length of civil proceedings and address civil courts' backlog. The reform consists of the adoption of legislative measures to reduce the number of incoming cases in courts, simplify existing procedures, and increase courts' productivity.

Reform 1.5 - Criminal justice

The objective of this reform is to shorten the length of criminal proceedings. The reform consists in the adoption of actions that simplify existing procedures and increase courts' productivity.

Reform 1.6 - Insolvency

The reform is aimed at digitalising and enhance insolvency proceedings introducing early warning mechanisms prior to insolvency, the specialisation of courts and pre-courts institutions to manage all phases of insolvency proceedings more effectively including through training and specialisation for members of the judicial and administrative authorities.

Reform 1.7 - Tax courts

The aim of the reform is to make the enforcement of tax law more effective and to decrease the high amount of appeals at the Court of Cassation.

Reform 1.8 - Digitalisation of the justice system

The objective of this reform is to digitise civil and criminal proceedings. This reform consists of the introduction of a mandatory electronic filing of documents, the establishment of an electronic workflow for civil proceedings, the digitalisation of the first instance criminal proceedings, and the creation of a database of civil law decisions.

Investment 1.8 - Recruitment procedures for civil, criminal and administrative courts

The objective of this measure is to increase the quality of justice by supporting the activities of the administrative, civil, and criminal Courts, as well as of the territorial and central services of the Ministry of Justice responsible for the enforcement of the RRP and the digital transition in the justice system. The investment consists of the temporary hiring of staff for the office of the trial and of technical and administrative personnel supporting the implementation of RRP objectives.

Axis 3 – Public administration

Reform 1.9 - Public employment reform and simplification reform

The objective of this reform is to reinforce the public employment framework and simplify administrative procedures to the benefit of businesses and citizens. The reform consists of the adoption of a number of measures removing unnecessary obligations, introducing silent-consent mechanisms, simplifying communication, uniforming regimes shared with Regions and municipalities, ensuring the interoperability of Business and Construction procedures (SUAP & SUE), and defining a set of Key Performance Indicators (KPIs) to steer organizational change in administrations.

Reform 1.9bis - Reform for accelerating the implementation of cohesion policy

The reform aims to accelerating the implementation and efficiency of cohesion policy in complementarity with the NRRP. It shall foresee the date of the approval of the strategic plan of the single special economic zone. The national legislation requires the opinion of the Unified Conference before its conversion into Law as provided for in the Legislative Decree n°281/1997. In accordance with Article 9 of Regulation (EU) 2021/241, the reform may receive support from other Union Programmes and instruments provided that such support does not cover the same cost. The RRF does not cover any costs of the reform.

Investment 1.9 - Provide technical assistance and strengthen capacity building for the implementation of the Italian recovery and resilience plan

The objective of this investment is to reinforce administrative capacity for the implementation of the Italian Recovery and Resilience Plan (RRP). The investment consists of the temporary recruitment of a pool of experts that will provide technical assistance to administrations and reinforce their capacity to implement specific initiatives envisaged under the RRP and includes training programmes of public employees to reinforce capacity building.

Axis 4 – Public procurement and payments by public administrations

Reform 1.10 - Reform of the public procurement legislative framework

The objective of this reform is to enhance the qualification and professionalisation of contracting authorities, increase competition, simplify and digitalize the procedures of central purchasing bodies, and operationalise the national e-Procurement System. To this end, the reform includes the adoption of legal acts, including amendments to the Public Procurement Code.

Reform 1.11 - Reduction of late payments by public administrations and health authorities

The objective of the reform is to address bottlenecks causing delays in the execution of payments from central, regional, local, and health Italian public administrations and authorities towards businesses, notably through the adoption of structural actions and targeted legislative measures.

Axis 5 – Fiscal-structural reforms (Taxation and public expenditure)

Reform 1.12 - Reform of the tax administration

The objective of this reform of the tax administration is to encourage tax compliance, increase the efficacy of audits and controls, and reduce compliance costs for taxpayers, through the adoption and enforcement of targeted legislative and regulatory measures.

Reform 1.13 - Reform of the spending review framework

The objective of this reform is to increase the efficacy of the national spending review framework. The reform consists in the commitment to undertake yearly spending reviews over the 2023-2025 period and to improve the practice of green and gender budgeting.

Reform 1.14 - Reform of the subnational fiscal framework

The objective of this reform is to increase the transparency of fiscal relations across the different levels of government. The reform consists in the definition of the parameters for the “fiscal federalism” for regions with ordinary status and the adoption of legal acts for the “fiscal federalism” for provinces and metropolitan cities.

Reform 1.15 - Reform of public accounting rules

The objective of this reform is to implement a single accrual accounting system for the public sector, net of State-owned companies. The reform consists in the adoption of the conceptual framework, the set of accrual accounting standards and the multidimensional chart of accounts, as well as in the delivery of trainings for the transition to the new accrual accounting system.

Investment 1.10 - Support to qualification and eProcurement

This investment shall, within the framework of the Public Buyers Professionalization Strategy, set up a procurement support function dedicated to contracting authorities to fulfil the requirements of Annex II.4 of the Public Procurement Code and to support them in the eProcurement process, backing up the acquisition of digital skills and providing technical support in the adoption of the digitalization of public procurement, including the use of dynamic purchasing systems.

A.2. Milestones, targets, indicators, and timetable for monitoring and implementation for non-repayable financial support

Sequential Number	Related Measure (Reform or Investment)	Milestone/ Target	Name	Qualitative indicators (for milestones)	Quantitative indicators (for targets)			Indicative timeline for completion		Description of each milestone and target
					Unit of measure	Baseline	Goal	Quarter	Year	
M1C1-1	Reform 1.1: ICT Procurement	Milestone	Entry into force of law decrees for reform 1.1 'ICT Procurement'	Provision in the law indicating the entry into force of law decree for ICT procurement reform	N/A	N/A	N/A	Q4	2021	<p>The necessary legal acts shall include legislative interventions in the simplifications law decree ('Decreto Legge Semplificazioni'). These shall stipulate:</p> <p>(i) The possibility of using procedure referred to in Article 48, paragraph 3, of the Public Contracts Code also for contracts above the thresholds referred to in Article 35 of the Public Contracts Code for purchases relating to the purchase of computer goods and services, in particular based on cloud technology, as well as connectivity services, financed in whole or in part with the resources provided for the implementation of PNRR projects;</p> <p>(ii) Interoperability between the various databases managed by the certifying bodies involved in the process of verifying the requirements referred to in Article 80 of the Public Contracts Code;</p> <p>(iii) The establishment of a virtual file of economic operators in which are present the data for the verification of the absence of reasons for exclusion referred to in Article 80, enabling the definition of a white list of economic operators for whom the verification has already been carried</p>

A.3. Description of the reforms and investments for the loan

Investment 1.2 - Cloud enablement for local PA

The objective of this investment is to migrate the datasets and applications of a substantial part of the local public administration to a secure cloud infrastructure, allowing each administration the freedom to choose within a set of certified public cloud environments.

The measure also envisages a “migration as a service” support package to administrations encompassing: (i) the initial assessment, (ii) the procedural/administrative support needed to launch the effort, (iii) the negotiation of the necessary external support and (iv) the overall project management over the course of execution. A team supervised by the Ministry for Technological Innovation and Digital Transition (MITD) is expected to identify and certify a broad list of qualified providers and to negotiate a set of standard support packages tailored to the size of the administration and the services involved in the migration.

Investment 1.4 - Digital services and citizen experience

The objective of this investment is to develop an integrated and citizen-oriented ecosystem of digital public services, ensure their widespread adoption across central and local administrations and enhance overall user experience.

The measure:

- (vii) defines reusable service delivery models ensuring full accessibility requirements (Investment 1.4.1 - Citizen experience - Improvement of the quality and the usability of digital public services);
- (viii) increases the accessibility of digital public services (Investment 1.4.2 - Citizen inclusion: Accessibility improvement of digital public services);
- (ix) entails the adoption of the digital application for payments between citizens and public administrations (PagoPa) and the adoption of the “IO” app (Investment 1.4.3 - Adoption scale up of PagoPA platform services and the “IO” app);
- (x) fosters the adoption of National Digital Identity platforms (Sistema Pubblico di Identità Digitale, SPID and Carta d’Identità Elettronica, CIE) and of the national registry (Anagrafe nazionale della popolazione residente, ANPR) (Investment 1.4.4 - Adoption scale up of the National Digital Identity platforms (SPID, CIE) and the national registry (ANPR));
- (xi) sets up a single platform for notifications (Investment 1.4.5 - Digitization of public notices);
- (xii) entails the adoption of Mobility as a Service (MaaS) (Investment 1.4.6 - Mobility as a Service for Italy, with this last measure being financed on the basis of non-repayable financial support).

Investment 1.6 - Digital transformation of large central administrations

The objective of this investment is to increase the efficiency and simplify the procedures of the main central administrations – including (i) the National Social Security Institute (INPS) and National Institute for Insurance against Accidents at work (INAIL), (ii) the Judicial system, (iii) the Ministry of Defence, (iv) the Ministry of Interior, (v) the Finance Police. The investment consists of the re-engineering and the digitisation of a set of priority processes, activities, and services within their remit.

A.4. Milestones, targets, indicators, and timetable for monitoring and implementation for the loan Sequential

B. MISSION 1 COMPONENT 2:

Axis 1 - Digitalization, Innovation and Competitiveness of the Production System

Axis 1 of Mission 1 Component 2 of the Italian recovery and resilience plan concerns investments and reforms mainly aimed at (i) supporting the digital transition and the innovation of the production system through incentives to investments in technologies, research, development and innovation; (ii) deploying ultra-fast broadband and 5G networks to reduce the digital divide as well as satellite constellations and services; (iii) promoting the development of strategic value chains and supporting the competitiveness of companies, with a focus on SMEs.

Measures under this component aim to address gaps emerging from the Digital Economy and Society Index (DESI) 2020 as regards the digital transformation of businesses and the shortcomings in connectivity, with a view to strengthen the social and economic resilience of the country.

The investments and reforms under this component shall contribute to addressing the Country-Specific Recommendations addressed to Italy in 2020 and 2019 on the need to “strengthen distance learning and skills, including digital ones” (Country-Specific Recommendation 2, 2020), to “promote private investment to foster the economic recovery” (Country-Specific Recommendation 3, 2020), to “focus investment on the green and digital transition, in particular on [...] reinforced digital infrastructure to ensure the provision of essential services” (Country-Specific Recommendation 3, 2020), to “foster upskilling, including by strengthening digital skills (Country-Specific Recommendation 2, 2019), to “focus investment-related economic policy on research and innovation, and the quality of infrastructure, considering also regional disparities” (Country-Specific Recommendation 3, 2019) and, to some extent, to “support non-bank access to finance for innovative and smaller firms” (Country-Specific Recommendation 5, 2019).

It is expected that no measure in this component does significant harm to environmental objectives within the meaning of Article 17 of Regulation (EU) 2020/852, taking into account the description of the measures and the mitigating steps set out in the recovery and resilience plan in accordance with the ‘Do no significant harm’ Technical Guidance (2021/C58/01).

Axis 2 – Improving business environment and competition

The main objective of the axis 2 of Mission 1 Component 2 is to improve the business environment to facilitate entrepreneurship, and the framework conditions for competition to favour a more efficient allocation of resources and productivity gains. The main tool to reach these goals is the Annual Competition Law, to be adopted each year.

The investments and reforms under this component shall contribute to addressing the Country-Specific Recommendations addressed to Italy in 2019 on the need to “address restrictions to competition [...], also through a new annual competition law” (Country-Specific Recommendation 3, 2019).

B.1. Description of the reforms and investments for non-repayable financial support

Axis 1 - Digitalization, Innovation and Competitiveness of the Production System

Investment 1: Transition 4.0

The objective of the measure is to support the digital transformation of businesses by incentivising private investment in assets and activities supporting digitalisation. The measure consists of a tax credit scheme.

Reform 1: Reform of the Industrial Property System

The main objective of the reform is to adapt the industrial property system to modern challenges and ensure that the innovation potential contributes to the country's recovery and resilience. Specifically, it aims to pursue the following objectives: enhancing the industrial property protection system; encouraging industrial property use and dissemination, especially by SMEs; facilitating access to and sharing of intangible assets, while ensuring a fair return on investments; guaranteeing a more rigorous respect for industrial property; and strengthening Italy's role in European and international fora on industrial property.

The measure concerns the reform of the Italian industrial property code, covering at least the following areas: (i) review the regulatory framework to strengthen the protection of industrial property rights and simplify procedures, (ii) strengthen the support to companies and research institutions, (iii) enhance skills and competences development, (iv) facilitate knowledge transfer, and (v) strengthen innovative services promotion.

Investment 6: Investment in the Industrial Property System

The objective of the investment is to support the industrial property system and accompany its reform, as envisaged under Reform 1 of this component. The measure includes financial support for industrial property-related projects of companies and research bodies, such as patent-related measures (Brevetti+), Proof of Concept (POC) programs and the strengthening of technology transfer offices (TTOs).

Axis 2 – Improving business environment and competition

Reform 2: Annual Competition Laws for 2022, 2023, 2024 and 2025

The Competition Law shall be adopted each year, increasing competitive procedures to award public service contracts for local public services (including water, waste and local public transport), avoiding the unjustified prolongation of concessions to incumbent operators in many sectors, including ports, highways, hydropower and regional transport, providing for the proper regulation of public services contracts revising the rules on aggregation and applying the general principle of proportionality in the length and proper compensation of public service contracts. The Competition Laws shall support competition and the improvement of the efficiency of the management and of quality of services in regional transport, as well as increase incentives for Regions to tender their public services contracts for regional rail services.

The annual Competition Laws shall include pro-competitive sector-specific measures in several areas including energy (electricity, gas and water), waste management, transport (ports, rail and highways) and health, which shall complement the investments and reforms under Missions 2, 3 and 6. Flanking measures to ensure the uptake of competition in electricity retail markets shall enter into force at the latest on 31st December 2022. The Annual Competition Law 2022 shall notably adopt the Electricity Network Development Plan and promote the deployment of 2nd generation smart electricity meters, which shall reach 33 million units throughout Italy by 31st December 2025. Pro-competitive measures shall also be introduced for electric charging stations.

Moreover, the Laws shall contribute to the improvement of the business environment at least through: (i) the alignment of merger control rules with EU law, (ii) the consolidation, digitalisation and professionalisation of market surveillance authorities; (iii) a reform to simplify and facilitate the set up of start-ups and venture capital activities, as well as to promote a national strategy for technology transfer (iv) the reduction of the

time of accreditation for providing information about employees from seven to four days to reduce the number of days to set up a business.

Reform 3: Rationalization and simplification of firms' incentives.

The reform aims to review, simplify, and streamline the system of national incentives for firms. The reform consists in the entry into force of legal acts as well as in restructuring and streamlining (a) the RNA (National registry of State aids) and (b) the *incentivi.gov.it* Platform.

B.2. Milestones, targets, indicators, and timetable for monitoring and implementation for non-repayable financial support

Sequential Number	Measure	Milestone / Target	Name	Qualitative indicators (for milestones)	Quantitative indicators (for targets)			Indicative timeline for completion		Description of each milestone and target
					Unit of measure	Baseline	Goal	Quarter	Year

B.3. Description of the reforms and investments for the loan

Investment 2: Innovation and technology of microelectronics

The objective of the investment is to support the development of the strategic value chain of microelectronics by investing in Silicon Carbide substrates. The investment consists of the realisation of additional production capacity of 8-inch Silicon Carbide substrates.

Investment 3: Fast internet connections (Ultra Broadband and 5G)

The objective of the investment is to complete the national ultra-fast and 5G telecommunications network throughout the national territory. This investment is expected to significantly contribute to the objectives of the digital transition and to reduce the digital divide in Italy.

The investment includes the award of concessions and encompasses five faster connection projects:

1. “Italia a 1 Giga, providing 1 Gigabit/s in download and 200 Mbit/s in upload connectivity in grey and black next generation access (NGA) market failure areas. These areas shall be defined after the completion of a mapping exercise;
2. “Italia 5G, providing 5G connections in market failure areas, that are areas where mobile networks have not been deployed; or only 3G networks are available and no 4G and/or 5G mobile networks are planned in the near future; or there is a demonstrated market failure;
3. “Connected schools” , providing school buildings with 1 Gigabit/s broadband connectivity;
4. “Connected health care facilities” , which shall provide 1 Gigabit/s broadband connectivity to public health care facilities;
5. “Connected smaller islands” , providing ultra-broadband connectivity to selected smaller islands lacking fiber links to the continent.

Investment 4: Satellite technology and space economy

The objective of the investment is to develop satellite connections in view of the digital and green transition and to contribute to the development of the space sector. The investment consists in four projects:

1. Satcom,
2. Earth Observation (EO),
3. Space Factory,
4. In-Orbit Economy.

It is envisaged that the investment does not have military or defence objectives and implications.

Investment 5: Industrial supply chain policies and internationalization

The objective of the investment is to strengthen industrial supply chains, in particular by facilitating access to funding, and to promote the competitiveness of enterprises (notably SMEs), in particular by supporting their internationalisation and strengthening their resilience after the COVID-19 crisis.

The investment consists of two lines of intervention:

1. Refinancing of Fund 394/81 managed by SIMEST. It consists of the re-financing of an existing Fund currently managed by public agency SIMEST, providing for financial support to enterprises, notably SMEs, to support their internationalisation through various tools such as programs to access foreign markets and development of e-commerce.
2. Competitiveness and resilience of supply chains. It consists of financial support to enterprises, through the instrument of the Development Contract, for projects related to key strategic value chains, such as industrial development programs, environmental protection development programs, sustainable mobility and tourism activities.

The above interventions shall be conducted according to investment policies in line with the objectives of Regulation (EU) 2021/241, including in relation to the application of the principle of ‘Do no significant harm’, as further specified in the ‘Do no significant harm’ Technical Guidance (2021/C58/01).

In order to ensure that the measure complies with the ‘Do no significant harm’ Technical Guidance (2021/C58/01), the legal agreement between Italy and the entrusted entity or the financial intermediary in charge of the financial instrument and the subsequent investment policy of the financial instrument shall:

- i. require the application of the Commission’s technical guidance on sustainability proofing for the InvestEU Fund; and
- ii. exclude the following list of activities and assets from eligibility: (i) activities and assets related to fossil fuels, including downstream use¹; (ii) activities and assets under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks²; (iii) activities and assets related to waste landfills, incinerators³ and mechanical biological treatment plants⁴; and (iv) activities and assets where the long-term disposal of waste may cause harm to the environment; and
- iii. require the verification of legal compliance with the relevant EU and national environmental legislation of the projects by the entrusted entity or financial intermediary for all transactions, including those exempted from sustainability proofing.

Investment 7: National Connectivity Fund

This measure shall consist of a public investment in a Grant Scheme “National Connectivity Fund”, in order to incentivise private investment and improve access to finance in Italy’s ultra-broadband network infrastructure sector. The Scheme shall operate by providing grants directly to the private sector.

The Scheme shall be managed by Invitalia S.p.A. as the implementing partner. The Scheme shall include the following product line:

- A viability gap grant requiring at least 30% of private co-financing on the overall cost of the project.

In order to implement the investment into the Scheme, Italy and Invitalia S.p.A. shall sign an Implementing Agreement that shall include the following content:

1. Description of the decision-making process of the Scheme: The final award decision of the Scheme shall be taken by an investment committee or other relevant equivalent governing body and approved by a majority of votes from members who are independent from the government.
2. Key requirements of the associated grant policy, which shall include:
 - a) The description of the grants provided and eligible final beneficiaries.

¹ Except projects under this measure in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the ‘Do no significant harm’ Technical Guidance (2021/C58/01).

² Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks an explanation of the reasons why this is not possible should be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447.

³ This exclusion does not apply to actions under this measure in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

⁴ This exclusion does not apply to actions under this measure in existing mechanical biological treatment plants, where the actions under this measure are for the purpose of increasing energy efficiency or retrofitting to recycling operations of separated waste to compost bio-waste and anaerobic digestion of bio-waste, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

- b) The requirement that all investments supported are economically viable.
 - c) The requirement to comply with the ‘Do no significant harm’ (DNSH) principle as set out in the DNSH Technical Guidance (2021/C58/01): In particular, the grant policy shall exclude the following list of activities and assets from eligibility: (i) activities and assets related to fossil fuels, including downstream use⁵, (ii) activities and assets under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks⁶, (iii) activities and assets related to waste landfills, incinerators⁷ and mechanical biological treatment plants⁸.
 - d) The requirement that final beneficiaries of the Scheme shall not receive support from other Union instruments to cover the same cost.
3. The amount covered by the Implementing Agreement, the fee structure for the Implementing Partner and the requirement to use any unused proceeds of the scheme, including beyond 2026, for the same policy purposes.
 4. Monitoring, audit, and control requirements, including:
 1. The description of the implementing partner’s monitoring system to report on the grants mobilized.
 2. The description of the implementing partner’s procedures that will ensure the prevention, detection and correction of fraud, corruption, and conflicts of interests.
 3. The obligation to verify the eligibility of every operation in accordance with the requirements laid out in the Implementing Agreement before awarding a grant to an operation.
 4. The obligation of carrying out risk-based ex-post audits in accordance with an audit plan of Invitalia S.p.A. These audits shall verify i) that the control systems are effective, including the detection of fraud, corruption, and conflict of interests; ii) compliance with the DNSH principle, the State Aid rules; and iii) that the requirement that final beneficiaries of the Scheme have not received support from other Union instruments to cover the same cost is respected. The audits shall also verify the legality of the transactions and that the conditions of the applicable Implementing Agreement and Grant Agreements are being respected.

⁵ Except for (a) assets and activities in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the ‘Do no significant harm’ Technical Guidance (2021/C58/01) and (b) activities and assets under point (ii) for which the use of fossil fuels is temporary and technically unavoidable for the timely transition towards a fossil fuel free operation.

⁶ Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks, an explanation of the reasons why this is not possible shall be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447.

⁷ This exclusion does not apply to actions under this measure in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

⁸ This exclusion does not apply to actions under this measure in existing mechanical biological treatment plants, where the actions under this measure are for the purpose of increasing energy efficiency or retrofitting to recycling operations of separated waste to compost bio-waste and anaerobic digestion of bio-waste, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

Investment 8: InvestEU Member State Compartment

This measure shall consist of a public investment in the InvestEU Member State compartment in order to incentivise private investment and improve access to finance in sectors that may include but are not limited to manufacturing and construction. The contribution to the InvestEU Member State Compartment shall be used to enhance the competitiveness of SMEs, other companies and the Italian economy at large, supporting for example social and sustainable infrastructure projects, as well as initiatives in research, innovation and digitalisation. This financial product shall operate by providing, for example, guarantees, loans and equity directly or through intermediaries to the private sector, as well as to public sector entities engaged in similar activities.

A guarantee agreement between the Commission and one (or several) implementing partner(s), selected in accordance with the relevant provisions of Regulation (EU) 2021/523 of the European Parliament and of the Council of 24 March 2021 establishing the InvestEU Programme and amending Regulation (EU) 2015/1017, shall enter into force.

Italy shall sign a contribution agreement with the European Commission that shall include:

- The proposed Implementing Partner(s).
- The requirement of compliance with the DNSH Technical Guidance (2023/C111). If necessary, the amended Guarantee Agreements shall exclude the following list of activities and assets from eligibility: (i) activities and assets related to fossil fuels, including downstream use⁹; (ii) activities and assets under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks¹⁰; (iii) activities and assets related to waste landfills, incinerators¹¹ and mechanical biological treatment plants¹².
- The description of the monitoring system to be used to report on the funds being mobilized.

Investment 9: Scale-up measure: Transition 4.0

The objective of the measure is to support the digital transformation of businesses by incentivising private investment in assets and activities supporting digitalisation. The measure consists of a tax credit scheme.

⁹Except for (a) projects in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the ‘Do no significant harm’ Technical Guidance (2021/C58/01) and (b) activities and assets under point (ii) for which the use of fossil fuels is temporary and technically unavoidable for the timely transition towards a fossil fuel free operation.

¹⁰ Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks, an explanation of the reasons why this is not possible shall be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447

¹¹ This exclusion does not apply to actions in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level

¹² This exclusion does not apply to actions in existing mechanical biological treatment plants, where the actions are for the purpose of increasing energy efficiency or retrofitting to recycling operations of separated waste to compost bio-waste and anaerobic digestion of bio-waste, provided such actions do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level

B.4. Milestones, targets, indicators, and timetable for monitoring and implementation for the loan

Sequential Number	Measure	Milestone / Target	Name	Qualitative indicators (for milestones)	Quantitative indicators (for targets)			Indicative timeline for completion		Description of each milestone and target

In addition, concerning investments in 4.0 tangible capital goods as well as in development and innovation activities, no firms operating in sectors of activity identified by ATECO codes 30. 22, 29, 38, 41, 42, 43, 17, 01, 50, 19, 20, 51, 24, 49, 23 and 35 shall be considered for the target.</p>

C. MISSION 1 COMPONENT 3: Tourism and Culture 4.0.

This component of the Italian recovery and resilience plan focuses on relaunching two sectors heavily hit by the Covid crisis: culture and tourism. The measures related to the culture sector aim at making cultural sites more accessible both digitally and physically, more energy efficient and safer with respect to natural disasters, at supporting the recovery of the cultural and creative sectors, including by supporting the attractiveness of small cultural sites and rural architecture as also to enhance territorial cohesion. Three sets of measures are envisaged: i) interventions to develop the cultural heritage for the next generation, including investment for the digital transition and to improve the energy efficiency of cultural sites, ii) culture-led regeneration of small historical sites, religious and rural heritage; iii) interventions for cultural and creative industries 4.0. Measures related to tourism aim at enhancing the competitiveness of the sector, including by reducing the fragmentation of the sector and enhancing the economies of scale, improving and upgrading the standards of the hospitality sector, encouraging digital innovation and the use of new technologies by operators, and support the green transition of the sector. In this respect, measures are envisaged to support firms, including SMEs, working in the tourism sector and tourist operators, including through investment in digital tools.

The investments and reforms under this component shall contribute addressing the Country- Specific Recommendations addressed to Italy, in particular on the need to “promote private investment to foster the economic recovery and focus investment on the green and digital transition” (Country Specific Recommendation 3, 2020). They also support social and territorial cohesion and the competitiveness of the Italian economy, while promoting the digitalisation and sustainability of the tourism sector.

C.1. Description of the reforms and investments for non-repayable financial support

Investment 1.1 Digital Strategy and Platforms of Culture Heritage

The objective of this measure is to digitise the Italian cultural heritage and provide access to cultural resources and digital services. The measure consists in creating a digital infrastructure to collect, integrate and retain digital resources, making them available for public use through dedicated platforms.

Investment 1.2: Removal of physical and cognitive barriers in museums, libraries and archives to enable wider access and participation in culture

The objective of this measure is to enable physical and cognitive access to a number of Italian cultural institutions. The measure consists in removing architectural and cognitive barriers in Italian cultural institutions.

Investment 1.3: Improve energy efficiency, in cinema, theatres and museums

The objective of this measure is to increase the energy efficiency of cultural and creative premises, such as public and private museums, cinemas, and theatres. The measure consists of energy efficiency interventions in cultural and creative premises.

Reform 3.1: Adoption of minimum environmental criteria for cultural events

The aim of the reform is to improve the ecological footprint of cultural events (such as exhibitions, festivals, cultural events and musical events) by including social and environmental criteria in public procurement for cultural events funded, promoted or organised by the public authority.

Investment 3.3: Capacity building for culture operators to manage the digital and green transition

The overall objective of the investment is to support the recovery of the cultural and creative sectors. This consists of two interventions.

The first intervention (Supporting the recovery of cultural activities by encouraging innovation and the use of digital technology throughout the value chain) aims to support cultural and creative operators to implement digital strategies and to increase their management capacities.

The second intervention (Promoting a green approach throughout the cultural and creative chain) aims to encourage an environmentally sustainable approach throughout the chain, reducing the ecological footprint, promoting innovative and inclusive eco-design, including in the context of the circular economy, in order to steer the public towards more responsible environmental behaviour.

In order to ensure that the measure complies with the ‘Do no significant harm’ Technical Guidance (2021/C58/01), the eligibility criteria contained in terms of reference for upcoming calls for projects shall exclude the following list of activities: (i) activities related to fossil fuels, including downstream use¹³; (ii) activities under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks¹⁴; (iii) activities related to waste landfills, incinerators¹⁵ and mechanical biological treatment plants¹⁶; and (iv) activities where the long-term disposal of waste may cause harm to the environment. The terms of reference shall additionally require that only activities that comply with relevant EU and national environmental legislation may be selected.

¹³ Except for (a) projects under this measure in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the ‘Do no significant harm’ Technical Guidance (2021/C58/01) and (b) activities and assets under point (ii) for which the use of fossil fuels is temporary and technically unavoidable for the timely transition towards a fossil fuel free operation.

¹⁴ Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks an explanation of the reasons why this is not possible should be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447.

¹⁵ This exclusion does not apply to actions under this measure in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

¹⁶ This exclusion does not apply to actions under this measure in existing mechanical biological treatment plants, where the actions under this measure are for the purpose of increasing energy efficiency or retrofitting to recycling operations of separated waste to compost bio-waste and anaerobic digestion of bio-waste, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

Investment 4.1: Digital Tourism Hub

The objective of this measure is to enable the entire tourism ecosystem to increase, integrate, and disseminate its own offer. The measure consists of the creation of a Digital Tourism Hub, accessible via a dedicated web platform.

Reform 4.1: Regulation ordering of the professions of tourist guides

The investment in the Digital Tourism Hub is complemented by a reform to streamline the touristic guides regulations. The measure provides, with due regard for local regulation, a professional organisation for tourist guides and their area of origin. The systematic and uniform application of the reform would make it possible to regulate the fundamental principles of the profession and to standardize the levels of service provision throughout the national territory, with a positive effect on the market. The reform shall include training and further training in order to best support the offer.

C.2. Milestones, targets, indicators, and timetable for monitoring and implementation for non-repayable financial support

Sequential Number	Measure	Milestone / Target	Name	Qualitative indicators (for milestones)	Quantitative indicators (for targets)			Indicative timeline for completion		Description of each milestone and target
					Unit of measure	Baseline	Goal	Quarter	Year	
M1C3-2	Investment - 1.1 Digital Strategy and Platforms for Cultural Heritage	Target	Published digital media resources	N/A	Number	0	65 000 000	Q4	2025	At least 65 000 000 digital media resources shall be published.
M1C3-3	Investment - 1.2 Removal of physical and cognitive barriers in museums, libraries and archives to enable wider access to and participation in culture	Target	Interventions for the removal of physical and cognitive barriers in museums, monuments, archaeological areas and parks, archives and libraries	N/A	Number	0	617	Q2	2026	The certificates of completion of works shall be issued for at least 617 museums, monuments, archaeological areas and parks, archives and libraries.

C3. Description of the reforms and investments for the loan

Investment 4.1: Digital Tourism Hub

The objective of this measure is to enable the entire tourism ecosystem to increase, integrate, and disseminate its own offer. The measure consists of the creation of a Digital Tourism Hub, accessible via a dedicated web platform.

Investment 2.1: Attractiveness of Small Historic Towns

The objective of this measure is to support the economic and social development of disadvantaged areas based on the cultural regeneration of small towns and the growth of local economies and tourism in particular. The investment consists in supporting cultural, social and tourism-related infrastructure, services and activities.

Investment 2.2: Protection and enhancement of rural architecture and landscape

The objective of this measure is to improve rural and countryside surroundings. The measure consists in supporting the restoration of private rural buildings.

Investment 2.3: Programmes to enhance the identity of places, parks and historic gardens

The objective of this measure is to preserve and enhance historic parks and gardens, safeguarding their cultural and historical heritage while enhancing accessibility, safety, and public enjoyment. The measure consists in refurbishing historical parks and gardens, supporting restoration, sustainable management, and professional training, ensuring long-term preservation and strengthening their cultural, educational, and environmental role.

Investment 2.4: Seismic safety of places of worship, restoration of FEC heritage and shelters for art works (Recovery Art)

The objective of this measure is to reduce seismic risk on worship places. The investment consists in putting in place an anti-seismic preventive action plan, in the execution of seismic retrofitting of worship buildings, in the restoration of FEC (*Fondo Edifici di Culto*) heritage assets, and the construction of shelters for art works.

Investment 4.2: Funds for the competitiveness of tourism enterprises

The measure aims at supporting firms operating in the tourism sector. It includes a tax credit for works aimed at improving accommodation facilities, a guarantee fund to facilitate access to credit for firms in the sector (through a dedicated section of the SMEs Guarantee Fund), the activation of the EIB Thematic Fund for Tourism to support innovative investment in the sector, an equity fund (National Tourism Fund) for the redevelopment of properties with high tourist potential. An additional financial instrument (FRI - Fondo Rotativo), shall complement the abovementioned measures to support firms operating in the tourism sector. The above interventions shall be conducted according to investment policies in line with the objectives of Regulation (EU) 2021/241, including in relation to the application of the principle of ‘do no significant harm’, as further specified in the Technical guidance on the application of ‘do no significant harm’ under the Recovery and Resilience Facility Regulation (2021/C58/01).

In order to ensure that the measure complies with the ‘Do no significant harm’ Technical Guidance (2021/C58/01), the legal agreement and the subsequent investment policy of the financial instruments shall

- i. require the application of the Commission’s technical guidance on sustainability proofing for the InvestEU Fund; and

- ii. exclude the following list of activities: (i) activities related to fossil fuels, including downstream use¹⁷; (ii) activities under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks¹⁸; (iii) activities related to waste landfills, incinerators¹⁹ and mechanical biological treatment plants²⁰; and (iv) activities where the long-term disposal of waste may cause harm to the environment; and
- iii. require the verification of legal compliance with the relevant EU and national environmental legislation of the projects by the entrusted entity or financial intermediary for all transactions, including those exempted from sustainability proofing.

Investment 3.2: Development of the film industry (Cinecittà project)

The objective of this measure is to enhance the competitiveness of the Italian film and audiovisual sector. The investment consists in renovating studios and building new ones, improving production activities. This may include but it is not limited to the use of new technologies, conservation and digitalisation of the audiovisual heritage at the Experimental Centre for Cinematography, as well as strengthening professional profiles and skills in the sector through training activities carried out by Cinecittà and the Experimental Centre for Cinematography.

Investment 4.3: Caput Mundi Next Generation EU for touristic great events.

The objective of this measure is to improve the experience of tourist great events and the sustainability of tourism through the renovation of monuments, the creation of tourist and cultural alternatives with respect to crowded areas, the digitisation of cultural and tourism services, and the enhancement of green areas. The investment consists in the adoption and implementation of the “Caput Mundi” programme, entailing the restoration of cultural and historical assets, the renovation of green areas and historical facilities, and the creation of digital services for tourism.

¹⁷ Except for (a) projects under this measure in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the ‘Do no significant harm’ Technical Guidance (2021/C58/01) and (b) activities and assets under point (ii) for which the use of fossil fuels is temporary and technically unavoidable for the timely transition towards a fossil fuel free operation.

¹⁸ Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks an explanation of the reasons why this is not possible should be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447.

¹⁹ This exclusion does not apply to actions under this measure in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

²⁰ This exclusion does not apply to actions under this measure in existing mechanical biological treatment plants, where the actions under this measure are for the purpose of increasing energy efficiency or retrofitting to recycling operations of separated waste to compost bio-waste and anaerobic digestion of bio-waste, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

C.4. Milestones, targets, indicators, and timetable for monitoring and implementation for the loan

D. MISSION 2 COMPONENT 1: Circular economy, agri-food and green transition

This component of the Italian recovery and resilience plan covers investments and reforms in waste management, circular economy, support for agri-food value chains and green transition. These reforms and investments are complemented by reforms to increase competition in waste management and local public services in the “business environment” reform component and improve water consumption for agriculture. This component responds to the country-specific recommendations to focus investment in the green transition, including in the circular economy.

The investments and reforms under this component shall contribute addressing the country- specific recommendations addressed to Italy in 2020 and 2019 on the need to “focus investment on the green and digital transition, in particular on [...] waste and water management” (CSR 3, 2020) and to “focus investment-related economic policy on [...], and the quality of infrastructure, considering also regional disparities” (country- specific recommendation 3, 2019).

It is expected that no measure in this component does significant harm to environmental objectives within the meaning of Article 17 of Regulation (EU) 2020/852, taking into account the description of the measures and the mitigating steps set out in the recovery and resilience plan in accordance with the DNSH Technical Guidance (2021/C58/01).

D.1. Description of the reforms and investments for non-repayable financial support

Circular Economy

Reform 1.1 – National Strategy for Circular Economy

This reform consists in the adoption of a broad National Strategy for the Circular Economy covering a new digital waste traceability system, tax incentives to support recycling activities and the use of secondary raw materials, a revision of environmental taxation, the right to reuse and repair, the reform of the EPR (Extended Producer Responsibility) and Consortia system, support for existing regulatory tools (such as End of Waste legislation and Minimum Environmental Criteria under Green public procurement) and support to industrial symbiosis project. The reform of the EPR and Consortia system shall also address the need for a more efficient use of the environmental contribution to assure the application of transparent and non-discriminatory criteria. A specific supervisory body with the aim of monitoring the functioning and the effectiveness of the Consortia systems, under the presidency of Ministry of Ecological Transition (MITE) shall be created. The measure shall address all the Consortia (not only CONAI packaging system).

Reform 1.3 – Technical support for local authorities

This reform consists in technical support to local authorities by the government for the implementation of environmental EU and national regulation, the development of plans and projects regarding waste management and on tendering procedures. The support on tendering procedures shall ensure that concessions in waste management are granted in a transparent and non-discriminatory way increasing competitive processes to achieve better standards for public services. This reform supports therefore the implementation of the waste management reforms proposed in the business environment reform component. Technical support shall also cover green public procurement.

Investment 2.1 – Logistics plan for the agri-food, fishing and aquaculture, forestry, floriculture and plant nursery sectors

The objective of this investment is to encourage the reduction of emissions in the transportation and logistics phases in the agri-food sector, boosting the digitalization of the sector and the utilisation of renewable energy. This measure consists in the granting of support to tangible and intangible investments.

Investment 2.2 – Agri-solar Park

The objective of this investment is to increase the sustainability and competitiveness of the agricultural sector. This measure consists in the granting of support to investments on structures of the agricultural, livestock and agro-industrial sector to install solar panels, as well as complementary interventions.

Investment 2.3 – Innovation and mechanization in the agricultural and food sectors

The objective of this investment is to drive innovation within the agricultural and food sectors. This measure consists in the granting of support to investments in tangible and intangible assets.

Investment 3.3 - Culture and awareness on environmental topics and challenges

This objective of this investment is the design and production of digital content to raise awareness of environmental and climate challenges. The investment consists in the creation of an online subscription-free platform to create a repository of educational and recreational materials on environment-related topics.

D.2. Milestones, targets, indicators, and timetable for monitoring and implementation for non-repayable financial support

D.3. Description of the reforms and investments for the loan

Reform 1.2 – National Programme for Waste Management

This reform consists in the adoption of a broad National Programme for Waste Management aiming the highest levels of preparation for reuse, recycling and recovery of waste, adapting the network of installations necessary for integrated waste management, minimizing final disposal as the ultimate and residual option, establishing monitoring systems, preventing the opening of new infringement procedures against Italy, tackling low collection of waste, discouraging landfilling and ensuring complementarity with regional waste programmes, enabling the achievement of European and national waste legislation objectives and tackling illegal waste dumping and open-air burning.

Investment 1.1 – Implementation of new waste management plants and modernization of existing plants and circular economy “flagship projects”

This objective of this investment is to improve waste management and support the circular economy. The investment consists of financing projects to build new treatment/recycling plants or modernize existing ones as well as to support and digitalize separate collection for different waste streams.

Investment 2.1 – Logistics plan for the agri-food, fishing and aquaculture, forestry, floriculture and plant nursery sectors

The objective of this investment is to encourage the reduction of emissions in the transportation and logistics phases in the agri-food sector, boosting the digitalization of the sector and the utilisation of renewable energy. This measure consists in the granting of support to tangible and intangible investments.

Investment 3.1 - Green islands

The objective of this measure is to support the green transition in 19 non-interconnected Small Islands in Italy. This investment consists in financing and implementing projects in energy (which may include, but is not limited to renewables, grid or energy efficiency), water (which may include, but is not limited to desalination), transport (which may include, but is not limited to cycling paths, zero-emission buses or boats) and waste (which may include, but is not limited to separation of waste) in the 19 non-interconnected Small Islands.

Investment 3.2 - Green communities

The objective of this investment is to support the green transition in rural and mountain territories (so-called “Green Communities”). This investment consists in supporting projects in the “Green Communities”.

Investment 3.4 – Fondo Rotativo Contratti di Filiera (FCF) to support supply-chains contracts for the agri-food, fishing and aquaculture, forestry, floriculture and plant nursery sectors

This measure shall consist of a public investment in a Facility, the Fondo Rotativo Contratti di Filiera (FCF), in order to incentivise private investment and improve access to finance in Italy’s the agri-food, fishing and aquaculture, forestry, floriculture and plant nursery sectors. The Facility shall operate by providing grants and subsidised loans directly through ISMEA (Istituto di Servizi per il Mercato Agricolo Alimentare).

The Facility shall be managed by ISMEA as the implementing partner. The Facility shall include the following product lines:

- Support enterprises, groups of enterprises or agricultural producer associations as well as research and knowledge-dissemination organisations, in the agri-food, fishing and aquaculture, forestry, floriculture and plant nursery sectors by improving production processes by including a mix of activities amongst the following:
 - Improve the environmental sustainability of production processes with investments in tangible and intangible assets to substantially increase the efficiency in energy, water and resources consumption of the targeted production processes;
 - Investments in knowledge, training, research and innovation, technology transfer and development projects, which may also support the reorganisation of relations

between the various actors in the supply chain, to enhance the sustainability of production processes;

- Investments in the digitalisation of enterprises, including e-commerce and emerging technologies;
- Installation of photovoltaic and solar panels

The objective of the measure is to reduce greenhouse gas emissions, food waste and the use of pesticides and antimicrobials, improving energy efficiency and increasing the production and use of renewable energy.

In order to implement the investment into the Facility, the Ministry and ISMEA shall sign an Implementing Agreement that shall include the following content:

1. Description of the decision-making process of the Facility: The final investment decision of the Facility shall be taken by an investment committee or other relevant equivalent governing body and approved by a majority of votes from members who are independent from the government.
2. Key requirements of the associated investment policy, which shall include:
 - a. The description of the financial product(s) and eligible final beneficiaries.
 - b. The requirement that all investments supported are economically viable.
 - c. The requirement to comply with the ‘Do no significant harm’ (DNSH) principle as set out in the DNSH Technical Guidance (2021/C58/01). In particular, the investment policy shall exclude the following list of activities and assets from eligibility: (i) activities and assets related to fossil fuels, including downstream use²¹, (ii) activities and assets under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks²², (iii) activities and assets related to waste landfills, incinerators²³ and mechanical biological treatment plants²⁴.
 - d. The requirement that final beneficiaries of the Facility shall not receive support from other Union instruments to cover the same cost.
3. The amount covered by the Implementing Agreement, the fee structure for the Implementing Partner and the requirement to reinvest any reflows according to the investment policy of the Facility.
4. Monitoring, audit, and control requirements, including:
 - a. The description of the implementing partner’s monitoring system to report on the investment mobilized.
 - b. The description of the implementing partner’s procedures that shall ensure the prevention, detection and correction of fraud, corruption, and conflicts of interests.
 - c. The obligation to verify the eligibility of every operation in accordance with the requirements laid out in the Implementing Agreement before committing to finance an operation.

²¹ Except for (a) assets and activities in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the ‘Do no significant harm’ Technical Guidance (2021/C58/01) and (b) activities and assets under point (ii) for which the use of fossil fuels is temporary and technically unavoidable for the timely transition towards a fossil fuel free operation.

²² Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks, an explanation of the reasons why this is not possible shall be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447

²³ This exclusion does not apply to actions under this measure in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

²⁴ This exclusion does not apply to actions under this measure in existing mechanical biological treatment plants, where the actions under this measure are for the purpose of increasing energy efficiency or retrofitting to recycling operations of separated waste to compost bio-waste and anaerobic digestion of bio-waste, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

d. The obligation of carrying out risk-based ex-post audits in accordance with an audit plan of ISMEA. These audits shall verify i) that the control systems are effective, including the detection of fraud, corruption, and conflict of interests; ii) compliance with the DNSH principle, the State Aid rules, the climate and digital target requirements in accordance with Annex VI to the RRF Regulation and with Annex VII to the RRF Regulation; and iii) that the requirement that final beneficiaries of the Facility have not received support from other Union instruments to cover the same cost is respected. The audits shall also verify the legality of the transactions and that the conditions of the applicable Implementing Agreement and Funding Agreements are being respected.

5. Requirements for climate investments carried out by the implementing partner: at least EUR 1 848 000 000.00 of the RRF investment into the Facility shall contribute to the climate change objectives in accordance with Annex VI to the RRF Regulation.²⁵

Investment 4 - Agri-Solar Park Facility

This measure shall consist of a public investment in a Grant Scheme, the Agri-Solar Park Facility, in order to incentivise private investment and improve access to finance in Italy's agro-industrial sector. The Scheme shall operate by providing grants directly to the private sector.

The Scheme shall be managed by Gestore Servizi Energetici S.p.A. (GSE) as the implementing partner. The Scheme shall provide a grant covering a portion of the projects' cost. The scheme shall support investments in structures of the agricultural, livestock and agro-industrial sector, to install solar panels, as well as complementary interventions. Membership of the "rete del lavoro agricolo di qualità" network will be positively considered in the assessment of project proposals.

In order to implement the investment into the Scheme, Italy and GSE shall sign an Implementing Agreement that shall include the following content:

1. Description of the decision-making process of the Scheme: The final award decision of the Scheme shall be taken by an investment committee or other relevant equivalent governing body and approved by a majority of votes from members who are independent from the government.

²⁵ Final beneficiaries associated to specific projects shall be required to provide a justification of the selected intervention field for each project supported, together with a description of the project, for the purpose of the computation of the climate contribution. For the purpose of the computation of the climate contribution, final beneficiaries from equity, quasi-equity, corporate bonds or equivalent instruments not targeted to specific projects shall provide a justification for the selected intervention field(s). The implementing partner shall also be required to provide to the Member State a semi-annual report on the implementation of each project/activity.

2. Key requirements of the associated grant policy, which shall include:
 - a. The description of the grants provided and eligible final beneficiaries.
 - b. The requirement that all investments supported are economically viable.
 - c. The requirement to comply with the ‘Do no significant harm’ (DNSH) principle as set out in the DNSH Technical Guidance (2021/C58/01). In particular, the grant policy shall exclude the following list of activities and assets from eligibility: (i) activities and assets related to fossil fuels, including downstream use²⁶, (ii) activities and assets under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks²⁷, (iii) activities and assets related to waste landfills, incinerators²⁸ and mechanical biological treatment plants²⁹.
 - d. The requirement that final beneficiaries of the Scheme shall not receive support from other Union instruments to cover the same cost.
3. The amount covered by the Implementing Agreement, the fee structure for the Implementing Partner and the requirement to use any unused proceeds of the scheme, including beyond 2026, for the same policy purposes.
4. Monitoring, audit, and control requirements, including:
 1. The description of the implementing partner’s monitoring system to report on the grants mobilized.
 2. The description of the implementing partner’s procedures that will ensure the prevention, detection and correction of fraud, corruption, and conflicts of interests.
 3. The obligation to verify the eligibility of every operation in accordance with the requirements laid out in the Implementing Agreement before awarding a grant to an operation.

²⁶ Except for (a) assets and activities in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the ‘Do no significant harm’ Technical Guidance (2021/C58/01) and (b) activities and assets under point (ii) for which the use of fossil fuels is temporary and technically unavoidable for the timely transition towards a fossil fuel free operation.

²⁷ Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks, an explanation of the reasons why this is not possible shall be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447

²⁸ This exclusion does not apply to actions under this measure in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

²⁹ This exclusion does not apply to actions under this measure in existing mechanical biological treatment plants, where the actions under this measure are for the purpose of increasing energy efficiency or retrofitting to recycling operations of separated waste to compost bio-waste and anaerobic digestion of bio-waste, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

4. The obligation of carrying out risk-based ex-post audits in accordance with an audit plan of the GSE. These audits shall verify i) that the control systems are effective, including the detection of fraud, corruption, and conflict of interests; ii) compliance with the DNSH principle, the State Aid rules, the climate target requirements; and iii) that the requirement that final beneficiaries of the Scheme have not received support from other Union instruments to cover the same cost is respected. The audits shall also verify the legality of the transactions and that the conditions of the applicable Implementing Agreement Grant Agreements are being respected.

5. Requirements for climate investments carried out by the implementing partner: at least EUR 633 000 000 of the RRF investment into the Scheme shall contribute to the climate change objectives in accordance with Annex VI to the RRF Regulation³⁰.

³⁰ Final beneficiaries associated to specific projects shall be required to provide a justification of the selected intervention field for each project supported, together with a description of the project, for the purpose of the computation of the climate contribution. For the purpose of the computation of the climate contribution, final beneficiaries from equity, quasi-equity, corporate bonds or equivalent instruments not targeted to specific projects shall provide a justification for the selected intervention field(s). The implementing partner shall also be required to provide to the Member State a semi-annual report on the implementation of each project/activity.

D.4. Milestones, targets, indicators, and timetable for monitoring and implementation for the loan

E. MISSION 2 COMPONENT 2: Energy transition and sustainable mobility

This component of the Italian recovery and resilience plan covers investments and reforms in energy transition. It includes reforms to facilitate the permitting of projects of renewable energy sources. The component contains investments in renewables supply chain, hydrogen power, bio-methane facilities and smart grids. These reforms and investments are complemented by reforms to increase competition in the electricity market in the “business environment” reform component.

This component also covers investments and reforms in sustainable mobility. It includes reforms to facilitate the permitting of projects of sustainable mobility. The component contains investments to build cycling paths and metro/tram/bus rapid transit infrastructures and to procure zero-emission buses, rolling stock, firefighting and airport vehicles. These reforms and investments are complemented by reforms to remove regulated prices for electric charging and increase competition in charging point concessions, regional railways and local public transport in the “business environment” reform component.

The investments and reforms under this component shall contribute addressing the country- specific recommendations addressed to Italy in 2020 and 2019 on the need to “focus investment on the green and digital transition, in particular on [...] clean and efficient production and use of energy [...] sustainable public transport” (CSR 3, 2020) and to “focus investment-related economic policy on [...], and the quality of infrastructure, considering also regional disparities” (country- specific recommendation 3, 2019).

The component supports the guidelines issued to Italy on the implementation of its National Energy and Climate Plan (SWD(2020) 911 final), that were inviting Italy to promoting, revamping and repowering existing renewable installations, in particular existing wind power plants and to explore innovative offshore energy across the Mediterranean.

It is expected that no measure in this component does significant harm to environmental objectives within the meaning of Article 17 of Regulation (EU) 2020/852, taking into account the description of the measures and the mitigating steps set out in the recovery and resilience plan in accordance with the DNSH Technical Guidance (2021/C58/01).

E.1. Description of the reforms and investments for non-repayable financial support

Reform 1 - Simplification of authorization procedures for renewable onshore and offshore plants and new legal framework to sustain the production from renewable sources and time and eligibility extension of the current support schemes

This reform consists in:

- the entry into force of simplification measures for renewable energy source installations and the repowering and revamping of existing plants, in coherence with the provisions of Decree law No. 76 of 17 July 2020 “the Simplifications Decree”;
- the enactment of a decree, agreed with the Regions and the other State Administrations concerned, aimed at defining criteria for the identification of the areas suitable and not suitable for the installation of renewable energy plants for an additional renewable energy production capacity of at least 73 GW, in coherence with the updated version of the PNIEC, for the achievement of the objectives of development of renewable sources;
- the completion of the RES support mechanism also for additional non-mature or with high operating cost technologies and the extension of the auction run period for the so called RES1 mechanism, while maintaining the principle of competitive access;

- provisions to promote investment in storage systems, in the legislative decree transposing Directive (EU) 2019/944 on common rules for the internal market in electricity.

Reform 2- New legislation to promote renewable gas production and consumption

This reform consists in reinforcing support for clean bio-methane by adopting legislation to increase the scope of bio-methane projects eligible for support and extend the period of time for the availability of grants. The biomethane shall comply with criteria set out in Renewable Energy Directive 2018/2001/EU (REDII) in order to allow the measure to comply with Do-No-Significant-Harm principle and with the relevant requirements of footnote 8 of Annex VI of the Regulation (EU) 2021/241.

Reform 3 - Administrative simplification and reduction of regulatory barriers to hydrogen deployment

This reform consists in the entry into force of a legislative framework to promote hydrogen as a renewable source of energy. This legislative framework shall contain:

- Technical safety regulations on production, transport, (technical and regulatory criteria for the introduction of hydrogen into the natural gas network), storage and use of hydrogen;
- A fast-track authorization procedure with a one stop shop procedure to obtain the authorisation to build and operate a small scale hydrogen production plant (for electrolyser facilities of less than 1-5 MW; the storage threshold shall be defined in the aforementioned technical safety regulations of hydrogen).
- Regulation of the participation of hydrogen production plants in network services. The Energy Regulator (ARERA) shall be tasked to issue a specific regulatory measure upon consultation of the stakeholders.
- A system of guarantees of origin for renewable hydrogen in order to give price signals to consumers.
- Procedures and/or criteria to define the selected refuelling areas along the motorways for the optimisation of the location of the refuelling stations to create H2 corridors for trucks, starting from the Northern Italian Regions as far as the Po Valley and logistic hubs and the main highways along the peninsula.
- The coordination of the 10-year Development plan of the national Transmission System Operator (TSO) with the plans of other European TSOs aimed at the development of common standards for hydrogen transport by means of existing gas pipelines or dedicated pipelines.

Reform 4 - Measures to promote hydrogen competitiveness

This reform consists in adopting tax measures to incentivise the production and/or utilisation of hydrogen, in line with EU rules about taxation, and transposing RED II Directive. This measure shall support hydrogen production based on electrolysis using renewable energy sources as defined in the Directive (EU) 2018/2001 (renewable Directive) or grid electricity.

Reform 5 - Smarter procedures for project evaluation in the local public transport systems sector with fixed installations and in the rapid mass transport sector

This reform consists in adopting a legislation assigning clearly responsibilities in the approval of local public transport projects and a simplification of the payment procedure.

Investment 2.1 - Strengthening smart grids

The objective of this investment is the infrastructural upgrade and digitalisation of the electricity distribution grid. The investment consists in providing grants to distribution network operators to finance interventions that increase the hosting capacity of the distribution network as well as the capacity available to households to electrify their energy consumption.

Investment 2.2 - Interventions to increase the resilience of the power grid

The objective of this investment is to make the electricity grid resilient to extreme weather events, hence reducing the probability of prolonged interruptions of electricity supply. The investment consists in providing grants to transmission and distribution system operators for works on the electricity infrastructure.

Investment 4.1 - Investment in soft mobility (National Plan of Cycle Path)

The objective of this investment is to build cycle paths to facilitate commuting between locations in metropolitan areas or cities hosting universities. This investment consists in building at least 1 261 km of cycling lanes in metropolitan areas and of tourist cycle paths.

Investment 4.3 – Installation of charging infrastructures

The objective of this investment is to support the decarbonisation of the transport sector. This investment consists in financing the installation of fast public charging infrastructure points on freeways and urban areas.

Investment 4.4.1 - Strengthening of the regional public transport zero- emission bus fleet

The objective of the investment is to reduce greenhouse gases emissions and modernise the public buses fleet. This investment consists in the procurement of zero-emission buses and the installation of charging stations.

Investment 4.4.3 – Renewal fleet for the National fire brigade command

The objective of the investment is to reduce greenhouse gases emissions and modernise the fire-brigade fleet. This investment consists in the procurement of at least 3 800 vehicles for the National Fire Brigade.

Investment 4.5 - Private and light commercial vehicle fleet renewal program with electric vehicles

This investment aims at reducing greenhouse gases and air pollution caused by road transport in urban areas. This investment consists in a car-scrapping scheme whereby a thermal vehicle is surrendered and replaced by a newly purchased zero-emission vehicle.

Investment 5.4 – Equity injection into the Green Transition Fund (“GTF”) managed by CDP Venture Capital SGR

This measure aims at supporting the growth potential of the Italian economy by incentivizing private investments, improving access to finance for start-ups involved in the green transition, and developing the venture capital market in this sector. The measure shall consist of an equity injection of EUR 250 000 000 into the Green Transition Fund (“GTF”) managed by CDP Venture Capital SGR.

CDP Venture Capital SGR shall adopt an investment policy for the use of the equity. The investment policy shall include the description of the financial product(s) with the expected type of eligible final beneficiaries that the equity is expected to support, including the expected timeline for the implementation of 15 years and the management fee of maximum 13%.³¹ The GTF shall operate by providing equity, quasi equity, debt or quasi debt support, directly or indirectly.³² CDP Venture Capital SGR shall adopt the audit and control

³¹ In particular, the 13% maximum cap does not include carried interest, performance fees related to GTF and all costs and management fees related to third party funds.

³² In particular, in case of direct investments, the GTF shall operate by providing equity or quasi equity support; in case of indirect investments, the GTF shall operate by financing third party funds which shall operate by providing at least one of the following: equity, or quasi-equity, or debt, or quasi-debt instruments.

system described in the guidelines “Linee Guida per le attività di rendicontazione e controllo dei Fondi DTF e GTF” for the use of the equity. The Investment Policy shall require that financial product(s) that the equity supports comply with the ‘Do no significant harm’ (DNSH) principle as set out in the DNSH Technical Guidance (2021/C58/01). In particular, in the case of general support to start ups, the investment policy shall exclude companies with a substantial focus³³ in the following sectors: (i) fossil fuel-based energy production and related activities³⁴; (ii) energy-intensive and/or high CO₂-emitting industries³⁵; (iii) production, rental, or sale of polluting vehicles³⁶; (iv) waste collection, waste treatment and disposal³⁷, (v) processing of nuclear fuel, production of nuclear energy. Moreover, the investment policy shall require compliance with the relevant EU and national environmental legislation.

³³ It is considered that a Final Beneficiary has a “substantial focus” on a sector or business activity if such sector or activity is identified as being an essential part of the business activity of the Final Beneficiary respectively in relation to the gross revenue, profit, or client base of the Final Beneficiary. The gross revenue generated from the restricted sector or activity shall, in any case, not exceed 50% of the gross revenue.

³⁴ Except for (a) assets and activities in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the ‘Do no significant harm’ Technical Guidance (2021/C58/01) and (b) activities and assets under point (ii) for which the use of fossil fuels is temporary and technically unavoidable for the timely transition towards a fossil fuel free operation.

³⁵ Including activities and assets under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks. Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks, an explanation of the reasons why this is not possible shall be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447.

³⁶ Polluting vehicles are defined as non-zero-emission vehicles.

³⁷ This exclusion does not apply to actions in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

E.2. Milestones, targets, indicators, and timetable for monitoring and implementation for non-repayable financial support

E.3. Description of the reforms and investments for the loan

Investment 1.1 - Development of agri-voltaic systems

This measure shall consist of a public investment in a grant Scheme in order to incentivise private investment and improve access to finance in Italy's agricultural and renewable energy sector. The scheme shall operate by providing grants directly to the private sector.

The Scheme shall be managed by Gestore Servizi Energetici S.p.A. (GSE) as the implementing partner. The Scheme shall provide a grant covering a portion of the projects' cost. The scheme shall support the construction of agri-voltaic systems, consisting of the installation of photovoltaic plants on agricultural land along with measuring instruments to monitor the underlying agricultural activity³⁹.

In order to implement the investment into the Scheme, Italy and GSE shall sign an Implementing Agreement that shall include the following content:

1. Description of the decision-making process of the Scheme: The final award decision of the Scheme shall be taken by an investment committee or other relevant equivalent governing body and approved by a majority of votes from members who are independent from the government.
1. Key requirements of the associated grant policy, which shall include:
 - a. The description of the grants provided and eligible final beneficiaries.
 - b. The requirement that all investments supported are economically viable.
 - c. The requirement to comply with the 'Do no significant harm' (DNSH) principle as set out in the DNSH Technical Guidance (2021/C58/01). In particular, the grant policy shall exclude the following list of activities and assets from eligibility: (i) activities and assets related to fossil fuels, including downstream use⁴⁰, (ii) activities and assets under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks⁴¹, (iii) activities and assets related to waste landfills, incinerators⁴² and mechanical biological treatment plants⁴³.

³⁹ Final beneficiaries associated to specific projects shall be required to provide a justification of the selected intervention field for each project supported, together with a description of the project, for the purpose of the computation of the climate contribution. For the purpose of the computation of the climate contribution, final beneficiaries from equity, quasi-equity, corporate bonds or equivalent instruments not targeted to specific projects shall provide a justification for the selected intervention field(s). The implementing partner shall also be required to provide to the Member State a semi-annual report on the implementation of each project/activity.

⁴⁰ Except for (a) assets and activities in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the 'Do no significant harm' Technical Guidance (2021/C58/01) and (b) activities and assets under point (ii) for which the use of fossil fuels is temporary and technically unavoidable for the timely transition towards a fossil fuel free operation.

⁴¹ Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks, an explanation of the reasons why this is not possible shall be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447.

⁴² This exclusion does not apply to actions under this measure in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants' waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

⁴³ This exclusion does not apply to actions under this measure in existing mechanical biological treatment plants, where the actions under this measure are for the purpose of increasing energy efficiency or retrofitting to recycling operations of separated waste to compost bio-waste and anaerobic digestion of bio-waste, provided such actions under this measure

- d. The requirement that final beneficiaries of the Scheme shall not receive support from other Union instruments to cover the same cost.
2. The amount covered by the Implementing Agreement, the fee structure for the Implementing Partner and the requirement to use any unused proceeds of the scheme, including beyond 2026, for the same policy purposes.
3. Monitoring, audit, and control requirements, including:
 5. The description of the implementing partner's monitoring system to report on the subsidies mobilized.
 6. The description of the implementing partner's procedures that will ensure the prevention, detection and correction of fraud, corruption, and conflicts of interests.
 7. The obligation to verify the eligibility of every operation in accordance with the requirements laid out in the Implementing Agreement before awarding a subsidy to an operation.
 8. The obligation of carrying out risk-based ex-post audits in accordance with an audit plan of the GSE. These audits shall verify:
 - i) that the control systems are effective, including the detection of fraud, corruption, and conflict of interests;
 - ii) compliance with the DNSH principle, the State Aid rules, the climate target requirements; and
 - iii) that the requirement that final beneficiaries of the Scheme have not received support from other Union instruments to cover the same cost is respected. The audits shall also verify the legality of the transactions and that the conditions of the applicable Implementing Agreement grant agreements are being respected.

Investment 1.2 - Promotion of RES for energy communities and jointly acting renewables self-consumers

This measure shall consist of a public investment in a Grant Scheme in order to incentivise private investment and improve access to finance in Italy to support the installation of new power generation capacity for collective configurations and renewable energy communities located in municipalities with population below 50 000 inhabitants⁴⁴. The Scheme shall operate by providing grants directly to the private sector as well as to public sector entities engaged in similar activities.

The Scheme shall be managed by Gestore dei Servizi Energetiche S.p.A. [hereafter referred to as GSE] as the implementing partner. The Scheme shall include the following product line:

- Grant covering maximum 40% of the project costs for the construction of renewable energy sources and production plants, possibly coupled to energy storage.

do not result in an increase of the plants' waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

⁴⁴ Final beneficiaries associated to specific projects shall be required to provide a justification of the selected intervention field for each project supported, together with a description of the project, for the purpose of the computation of the climate contribution. For the purpose of the computation of the climate contribution, final beneficiaries from equity, quasi-equity, corporate bonds or equivalent instruments not targeted to specific projects shall provide a justification for the selected intervention field(s). The implementing partner shall also be required to provide to the Member State a semi-annual report on the implementation of each project/activity.

In order to implement the investment into the Scheme, Italy and the GSE shall sign an Implementing Agreement that shall include the following content:

1. Description of the decision-making process of the Scheme: The final award decision of the Scheme shall be taken by an investment committee or other relevant equivalent governing body and approved by a majority of votes from members who are independent from the government.
2. Key requirements of the associated grant policy, which shall include:
 - a. The description of the grants provided and eligible final beneficiaries.
 - b. The requirement that all investments supported are economically viable.
 - c. The requirement to comply with the ‘Do no significant harm’ (DNSH) principle as set out in the DNSH Technical Guidance (2021/C58/01). In particular, the grant policy shall exclude the following list of activities and assets from eligibility: (i) activities and assets related to fossil fuels, including downstream use⁴⁵; (ii) activities and assets under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks⁴⁶; (iii) activities and assets related to waste landfills, incinerators⁴⁷ and mechanical biological treatment plants⁴⁸.
 - d. The requirement that final beneficiaries of the Scheme shall not receive support from other Union instruments to cover the same cost.
3. The amount covered by the Implementing Agreement, the fee structure for the Implementing Partner and the requirement to use any unused proceeds of the scheme, including beyond 2026, for the same policy purposes.
4. Monitoring, audit, and control requirements, including:
 1. The description of the implementing partner’s monitoring system to report on the grants mobilized.
 2. The description of the implementing partner’s procedures that will ensure the prevention, detection and correction of fraud, corruption, and conflicts of interests.
 3. The obligation to verify the eligibility of every operation in accordance with the requirements laid out in the Implementing Agreement before awarding a grant to an operation.
 4. The obligation of carrying out risk-based ex-post audits in accordance with an audit plan of the GSE. These audits shall verify i) that the control systems are effective, including the

⁴⁵ Except for (a) assets and activities in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the ‘Do no significant harm’ Technical Guidance (2021/C58/01) and (b) activities and assets under point (ii) for which the use of fossil fuels is temporary and technically unavoidable for the timely transition towards a fossil fuel free operation

⁴⁶ Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks, an explanation of the reasons why this is not possible shall be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447

⁴⁷ This exclusion does not apply to actions under this measure in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

⁴⁸ This exclusion does not apply to actions under this measure in existing mechanical biological treatment plants, where the actions under this measure are for the purpose of increasing energy efficiency or retrofitting to recycling operations of separated waste to compost bio-waste and anaerobic digestion of bio-waste, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

detection of fraud, corruption, and conflict of interests; ii) compliance with the DNSH principle, the State Aid rules; and iii) that the requirement that final beneficiaries of the Scheme have not received support from other Union instruments to cover the same cost is respected. The audits shall also verify the legality of the transactions and that the conditions of the applicable Implementing Agreement and Grant Agreements are being respected.

Investment 1.4 - Development of bio-methane, according to criteria for promoting the circular economy

This measure shall consist of a public investment in a grant Scheme in order to incentivise private investment and improve access to finance in Italy's biomethane production. The Scheme shall operate by providing grants directly to the private sector⁴⁹.

The Scheme shall be managed by Gestore dei Servizi Energetici (GSE) as the implementing partner. The Scheme shall include the following product lines:

- Support for the construction of new plants for the production of bio-methane. The biomethane shall comply with the criteria set out in Directive 2018/2001 (RED II Directive) in order to allow the measure to comply with Do-No-Significant-Harm principle and with the relevant requirements of footnote 8 of Annex VI of the Regulation (EU) 2021/241
- Reconverting and improving the efficiency of existing agricultural biogas plants (including Organic Fraction of Urban Solid Waste - OFUSW) towards the production of biomethane for transport, industry and heating. The biomethane shall comply with the criteria set out in Directive 2018/2001 (RED II Directive) in order to allow the measure to comply with Do-No-Significant-Harm principle and with the relevant requirements of footnote 8 of Annex VI of the Regulation (EU) 2021/241

In order to implement the investment into the Scheme, Italy and GSE shall sign an Implementing Agreement that shall include the following content:

1. Description of the decision-making process of the Scheme: The final award decision of the Scheme shall be taken by an investment committee or other relevant equivalent governing body and approved by a majority of votes from members who are independent from the government.
2. Key requirements of the associated grant policy, which shall include:
 - a. The description of the grants provided and eligible final beneficiaries.
 - b. The requirement that all investments supported are economically viable.
 - c. The requirement to comply with the 'Do no significant harm' (DNSH) principle as set out in the DNSH Technical Guidance (2021/C58/01). In particular, the grant policy shall exclude the following list of activities and assets from eligibility: (i) activities and assets related to fossil fuels, including downstream use⁵⁰, (ii) activities and assets under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant

⁴⁹ Final beneficiaries associated to specific projects shall be required to provide a justification of the selected intervention field for each project supported, together with a description of the project, for the purpose of the computation of the climate contribution. For the purpose of the computation of the climate contribution, final beneficiaries from equity, quasi-equity, corporate bonds or equivalent instruments not targeted to specific projects shall provide a justification for the selected intervention field(s). The implementing partner shall also be required to provide to the Member State a semi-annual report on the implementation of each project/activity.

⁵⁰ Except for (a) assets and activities in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the 'Do no significant harm' Technical Guidance (2021/C58/01) and (b) activities and assets under point (ii) for which the use of fossil fuels is temporary and technically unavoidable for the timely transition towards a fossil fuel free operation.

benchmarks⁵¹, (iii) activities and assets related to waste landfills, incinerators⁵² and mechanical biological treatment plants⁵³.

- d. The requirement that final beneficiaries of the Scheme shall not receive support from other Union instruments to cover the same cost.
3. The amount covered by the Implementing Agreement, the fee structure for the Implementing Partner and the requirement to use any unused proceeds of the scheme, including beyond 2026, for the same policy purposes..
4. Monitoring, audit, and control requirements, including:
 1. The description of the implementing partner's monitoring system to report on the subsidies mobilized.
 2. The description of the implementing partner's procedures that will ensure the prevention, detection and correction of fraud, corruption, and conflicts of interests.
 3. The obligation to verify the eligibility of every operation in accordance with the requirements laid out in the Implementing Agreement before awarding a subsidy to an operation.
 4. The obligation of carrying out risk-based ex-post audits in accordance with an audit plan of the GSE. These audits shall verify i) that the control systems are effective, including the detection of fraud, corruption, and conflict of interests; ii) compliance with the DNSH principle, the State Aid rules, the climate target requirements; and iii) that the requirement that final beneficiaries of the Scheme have not received support from other Union instruments to cover the same cost is respected. The audits shall also verify the legality of the transactions and that the conditions of the applicable Implementing Agreement grant agreements are being respected.

Investment 2.1 - Strengthening smart grids

The objective of this investment is the infrastructural upgrade and digitalisation of the electricity distribution grid. The investment consists in providing grants to distribution network operators to finance interventions that increase the hosting capacity of the distribution network as well as the capacity available to households to electrify their energy consumption.

Investment 2.2 - Interventions to increase the resilience of the power grid

The objective of this investment is to ameliorate the resilience of the electricity grid to extreme weather events, hence reducing the probability of prolonged interruptions of electricity supply. The investment consists in providing grants to transmission and distribution system operators for works on the electricity infrastructure.

Investment 3.1 - Production of Hydrogen in brownfield sites (Hydrogen Valleys)

⁵¹ Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks, an explanation of the reasons why this is not possible shall be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447

⁵² This exclusion does not apply to actions under this measure in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants' waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

⁵³ This exclusion does not apply to actions under this measure in existing mechanical biological treatment plants, where the actions under this measure are for the purpose of increasing energy efficiency or retrofitting to recycling operations of separated waste to compost bio-waste and anaerobic digestion of bio-waste, provided such actions under this measure do not result in an increase of the plants' waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

The objective of this investment is to create new hydrogen valleys, that is local production and use of renewable hydrogen in industry, SMEs, and local transport. The investment consists in providing grants to carry out projects to produce hydrogen in abandoned industrial areas.

Investment 3.2 - Hydrogen Use in hard-to-abate industry

This investment consists in supporting R&D&I on industrial processes to develop initiatives to use hydrogen in industrial sectors that use methane as an energy source for thermal energy (cement, paper mills, ceramic, glass industries, etc.). The fossil fuel sector such as oil refineries shall not be eligible. This measure shall support hydrogen production based on electrolysis using renewable energy sources as defined in the Directive (EU) 2018/2001 (renewable Directive) or grid electricity.

In order to ensure that the measure complies with the ‘Do no significant harm’ principle under the Recovery and Resilience Facility as set out in the DNSH Technical Guidance (2021/C58/01), the eligibility criteria in upcoming calls shall exclude activities under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks. Where the activity achieves projected greenhouse gas emissions that are not significantly lower, but still lower than the relevant benchmarks, an explanation of the reasons why this is not possible shall be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447.

Investment 3.4 - Hydrogen testing for railway mobility and road transport

The objective of this investment is to contribute to the use of hydrogen for refuelling purposes.

This investment consists in building refuelling stations for railway based on hydrogen to be preferably located near local renewable hydrogen production sites and/or motorway hydrogen refuelling stations, and hydrogen-based refuelling stations for road transport.

Investment 3.5 - Hydrogen Research and Development

The objective of this investment is to support research and development across the hydrogen value chain. The investment consists in supporting hydrogen R&D projects concerning green hydrogen production, hydrogen storage, transport and transformation into derivatives and e-fuels, fuel cells, and integrated smart management systems for hydrogen-based infrastructure.

Investment 4.2 - Development of Rapid Mass Transport systems

The objective of the measure is to increase rapid mass transport system ridership, favouring a modal shift from car transport to public transport. This investment consists in the construction of new and the extension of existing lines of rapid mass transport systems, the upgrade of the infrastructure of rapid mass transport systems, and the purchase of zero-emission rolling stock for rapid mass transport systems.

Investment 4.4.1 - Strengthening of the regional public transport zero- emission bus fleet

The objective of the investment is to reduce greenhouse gases emissions and modernise the public buses fleet. This investment consists in the procurement of zero-emission buses and the installation of charging stations.

Investment 4.4.2 – Strengthening of the regional public transport railway fleet with zero emission trains and universal service

The objective of the investment is to reduce greenhouse gases emissions of railway transport and modernise the railway fleet. This investment consists in the registration of at least 97 zero emission passengers’ trains.

Investment 4.4.3 – Renewal fleet for the National fire brigade command

The objective of the investment is to reduce greenhouse gases emissions and modernise the fire-brigade fleet. This investment consists in the procurement of at least 3 800 vehicles for the National Fire Brigade.

Investment 5.1 – Support to the production system for the Ecological Transition, Net Zero Technologies, and competitiveness and resilience of strategic supply chains

This measure shall consist of two sub-investments.

Sub-investment 1:

This sub-investment shall consist of a public investment in a Facility, “Net Zero Technologies”, in order to incentivise private investment and improve access to finance in the fields of energy efficiency, renewable generation for auto-consumption, and sustainable transformation of the production process.

The investment shall support:

- i) the ecological transition of the national production system at various levels by supporting investments about the strengthening of production chains for devices and their direct and indirect components relevant to the ecological transition (for example battery and energy storage, solar and wind technologies, heat pumps and geothermal energy technologies, hydrogen technologies, and devices for carbon capture and storage),
- ii) the energy efficiency of production processes (also through the production for self-consumption of electricity from renewable sources, with the exclusion of biomass),
- iii) the sustainability of production processes, also with a view to the circular economy and more efficient use of resources.

The investment i) shall include the following product lines:

- The first one focuses on the manufacturing of photovoltaic or wind technologies and shall increase the manufacturing production capacity of photovoltaic or wind technologies by at least 4 GW/year.
- The second one focuses on the manufacturing of batteries and shall increase the manufacturing production capacity of batteries by at least 28 GW/year.

The Facility shall operate by providing non-repayable grants, subsidised loans, and interest subsidies directly to the private sector.

The Facility shall be managed by Invitalia S.p.A. as the implementing partner. The Facility shall include the following financial instruments:

- Development Contract which shall support Net Zero Technologies projects larger than EUR 20 000 000 by providing grants, interest rate subsidies, and subsidised loans.
- Fund for the Industrial Transformation which shall support projects between EUR 3 000 000 and EUR 20 000 000, by providing grants.

In order to implement the investment into the Facility, Italy and Invitalia S.p.A. shall sign an Implementing Agreement that shall include the following content:

1. Description of the decision-making process of the Facility: The final investment and award decisions of the Facility shall be taken by an investment committee or other relevant equivalent governing body and approved by a majority of votes from members who are independent from the government.
2. Key requirements of the associated investment policy, which shall include:
 - a. The description of the financial products and eligible final beneficiaries.
 - b. The requirement that all investments supported are economically viable.
 - c. The requirement to comply with the ‘Do no significant harm’ (DNSH) principle as set out in the DNSH Technical Guidance (2021/C58/01). In particular, the investment policy shall

exclude the following list of activities and assets from eligibility: (i) activities and assets related to fossil fuels, including downstream use⁵⁴, (ii) activities and assets under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks⁵⁵, (iii) activities and assets related to waste landfills, incinerators⁵⁶ and mechanical biological treatment plants⁵⁷.

- d. The requirement that final beneficiaries of the Facility shall not receive support from other Union instruments to cover the same cost.
3. The amount covered by the Implementing Agreement, the fee structure for the Implementing Partner and the requirement to reinvest any reflows according to the investment policy of the Facility.
4. Monitoring, audit, and control requirements, including:
 - a. The description of the implementing partner's monitoring system to report on the investment mobilized.
 - b. The description of the implementing partner's procedures that shall ensure the prevention, detection and correction of fraud, corruption, and conflicts of interests.
 - c. The obligation to verify the eligibility of every operation in accordance with the requirements laid out in the Implementing Agreement before committing to finance an operation.
 - d. The obligation of carrying out risk-based ex-post audits in accordance with an audit plan of the Invitalia S.p.A. These audits shall verify:
 - i. that the control systems are effective, including the detection of fraud, corruption, and conflict of interests;
 - ii. compliance with the DNSH principle, the State Aid rules, the climate target requirements; and
 - iii. that the requirement that final beneficiaries of the Facility have not received support from other Union instruments to cover the same cost is respected. The audits shall also verify the legality of the transactions and that the conditions of the applicable Implementing Agreement are being respected.

5. Requirements for climate investments carried out by the implementing partner: at least EUR 460 000 000 of the RRF investment into the Facility shall contribute to the climate change objectives in accordance with Annex VI to the RRF Regulation⁵⁸.

⁵⁴ Except for (a) assets and activities in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the 'Do no significant harm' Technical Guidance (2021/C58/01) and (b) activities and assets under point (ii) for which the use of fossil fuels is temporary and technically unavoidable for the timely transition towards a fossil fuel free operation.

⁵⁵ Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks, an explanation of the reasons why this is not possible shall be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447.

⁵⁶ This exclusion does not apply to actions under this measure in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants' waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

⁵⁷ This exclusion does not apply to actions under this measure in existing mechanical biological treatment plants, where the actions under this measure are for the purpose of increasing energy efficiency or retrofitting to recycling operations of separated waste to compost bio-waste and anaerobic digestion of bio-waste, provided such actions under this measure do not result in an increase of the plants' waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

⁵⁸ Final beneficiaries associated to specific projects shall be required to provide a justification of the selected intervention field for each project supported, together with a description of the project, for the purpose of the computation of the climate contribution. For the purpose of the computation of the climate contribution, final beneficiaries from equity, quasi-equity, corporate bonds or equivalent instruments not targeted to specific projects shall provide a justification for the selected intervention field(s). The implementing partner shall also be required to provide to the Member State a semi-annual report on the implementation of each project/activity.

Sub-investment 2:

This sub-investment shall consist of a public investment in a Facility, “Competitiveness and resilience of strategic supply chains”, in order to incentivise private investment and improve access to finance to strengthen industrial supply chains.

The investment shall support projects related to key strategic value chains, such as industrial development programs and environmental protection development programs.

The Facility shall operate by providing non-repayable grants, subsidised loans, and interest subsidies directly to the private sector.

The Facility shall be managed by Invitalia S.p.A. as the implementing partner.

In order to implement the investment into the Facility, Italy and Invitalia shall sign an Implementing Agreement that shall include the following content:

1. Description of the decision-making process of the Facility: The final investment and award decisions of the Facility shall be taken by an investment committee or other relevant equivalent governing body and approved by a majority of votes from members who are independent from the government.
2. Key requirements of the associated investment policy, which shall include:
 - i) The description of the financial product(s) and eligible final beneficiaries.
 - ii) The requirement that all investments supported are economically viable.
 - iii) The requirement to comply with the ‘Do no significant harm’ (DNSH) principle as set out in the DNSH Technical Guidance (2021/C58/01). In particular, the investment policy shall exclude the following list of activities and assets from eligibility: (i) activities and assets related to fossil fuels, including downstream use⁵⁹, (ii) activities and assets under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks⁶⁰, (iii) activities and assets related to waste landfills, incinerators⁶¹ and mechanical biological treatment plants⁶².
 - iv) The requirement that final beneficiaries of the Facility shall not receive support from other Union instruments to cover the same cost.
3. The amount covered by the Implementing Agreement, the fee structure for the Implementing Partner and the requirement to reinvest any reflows according to the investment policy of the Facility.
4. Monitoring, audit, and control requirements, including:
 - a. The description of the implementing partner’s monitoring system to report on the investment mobilized.

⁵⁹ Except for (a) assets and activities in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the ‘Do no significant harm’ Technical Guidance (2021/C58/01) and (b) activities and assets under point (ii) for which the use of fossil fuels is temporary and technically unavoidable for the timely transition towards a fossil fuel free operation.

⁶⁰ Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks, an explanation of the reasons why this is not possible shall be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447.

⁶¹ This exclusion does not apply to actions under this measure in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

⁶² This exclusion does not apply to actions under this measure in existing mechanical biological treatment plants, where the actions under this measure are for the purpose of increasing energy efficiency or retrofitting to recycling operations of separated waste to compost bio-waste and anaerobic digestion of bio-waste, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

- b. The description of the implementing partner's procedures that shall ensure the prevention, detection and correction of fraud, corruption, and conflicts of interests.
- c. The obligation to verify the eligibility of every operation in accordance with the requirements laid out in the Implementing Agreement before committing to finance an operation.
- d. The obligation of carrying out risk-based ex-post audits in accordance with an audit plan of the Invitalia SPA. These audits shall verify:
 - i. that the control systems are effective, including the detection of fraud, corruption, and conflict of interests;
 - ii. compliance with the DNSH principle, the State Aid rules, the climate target requirements; and
 - iii. that the requirement that final beneficiaries of the Facility have not received support from other Union instruments to cover the same cost is respected. The audits shall also verify the legality of the transactions and that the conditions of the applicable Implementing Agreement are being respected.

Investment 5.2 - Development of an international, industrial and R&D leadership in hydrogen

The objective of this investment is to support the hydrogen value chain in Italy. This investment consists in financing: 1) Important Projects of Common European Interest (IPCEIs) increasing electrolyser manufacturing capacity, 2) additional projects for the manufacturing of electrolysers, 3) industrial investments supporting the hydrogen value chain, including R&D and training.

Investment 5.3 – Development of an international, industrial and R&D leadership in electric buses

This investment consists in supporting about 45 projects that can promote the digital and green transformation of bus industry to product electric and connected buses. This investment is also expected to support investments on the renewal of the electric bus fleet (without covering hybrid buses).

Investment 5.4 – Equity injection into the Green Transition Fund (“GTF”) managed by CDP Venture Capital SGR

This measure aims at supporting the growth potential of the Italian economy by incentivizing private investments, improving access to finance for start-ups involved in the green transition, and developing the venture capital market in this sector. The measure shall consist of an equity injection of EUR 250 000 000 into the Green Transition Fund (“GTF”) managed by CDP Venture Capital SGR.

CDP Venture Capital SGR shall adopt an investment policy for the use of the equity. The investment policy shall include the description of the financial product(s) with the expected type of eligible final beneficiaries that the equity is expected to support, including the expected timeline for the implementation of 15 years and the management fee of maximum 13%.⁶³ The GTF shall operate by providing equity, quasi equity, debt or quasi debt support, directly or indirectly.⁶⁴ CDP Venture Capital SGR shall adopt the audit and control system described in the guidelines “Linee Guida per le attività di rendicontazione e controllo dei Fondi DTF e GTF” for the use of the equity. The Investment Policy shall require that financial product(s) that the equity supports comply with the ‘Do no significant harm’ (DNSH) principle as set out in the DNSH Technical Guidance (2021/C58/01). In particular, in the case of general support to start ups, the investment policy shall

⁶³ In particular, the 13% maximum cap does not include carried interest, performance fees related to GTF and all costs and management fees related to third party funds.

⁶⁴ In particular, in case of direct investments, the GTF shall operate by providing equity or quasi equity support; in case of indirect investments, the GTF shall operate by financing third party funds which shall operate by providing at least one of the following: equity, or quasi-equity, or debt, or quasi-debt instruments.

exclude companies with a substantial focus⁶⁵ in the following sectors: (i) fossil fuel-based energy production and related activities⁶⁶; (ii) energy-intensive and/or high CO₂-emitting industries⁶⁷; (iii) production, rental, or sale of polluting vehicles⁶⁸; (iv) waste collection, waste treatment and disposal⁶⁹, (v) processing of nuclear fuel, production of nuclear energy. Moreover, the investment policy shall require compliance with the relevant EU and national environmental legislation.

⁶⁵ It is considered that a Final Beneficiary has a “substantial focus” on a sector or business activity if such sector or activity is identified as being an essential part of the business activity of the Final Beneficiary respectively in relation to the gross revenue, profit, or client base of the Final Beneficiary. The gross revenue generated from the restricted sector or activity shall, in any case, not exceed 50% of the gross revenue.

⁶⁶ Except for (a) assets and activities in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the ‘Do no significant harm’ Technical Guidance (2021/C58/01) and (b) activities and assets under point (ii) for which the use of fossil fuels is temporary and technically unavoidable for the timely transition towards a fossil fuel free operation.

⁶⁷ Including activities and assets under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks. Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks, an explanation of the reasons why this is not possible shall be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447.

⁶⁸ Polluting vehicles are defined as non-zero-emission vehicles.

⁶⁹ This exclusion does not apply to actions in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

E.4. Milestones, targets, indicators, and timetable for monitoring and implementation for the loan

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name	Qualitative indicators (for milestones)	Quantitative indicators (for targets)			Indicative timeline for completion		Description of each milestone and target

										capacity of the plant(s) shall reach at least 890 MW/year.

F. MISSION 2 COMPONENT 3- Energy efficiency and requalification of buildings

Energy efficiency is the cornerstone of this component, which is organised across three main pillars.

- The first pillar is the introduction of a temporary incentive for energy and anti-seismic renovation of private real estate, through a tax deduction of the costs incurred for the interventions. The eligible interventions are those which increase the energy performance of the dwelling by at least by two categories of the Energy Certificate, achieving on average an improvement in energy consumption above 30%.
- The second pillar of this component is the improvement of the efficiency and safety of public schools and judicial citadels.
- The third pillar is aimed at stimulating construction and expansion of efficient district heating networks in urban areas.

In addition, there are a number of reforms to simplify and accelerate the implementation of projects aimed at improving the energy efficiency of buildings.

This component is expected to strongly contribute to the achievement of Italy's climate and energy targets for 2030 as the civil sector is responsible for almost a half of total energy consumption in Italy. Most buildings were built before the adoption of the criteria for energy saving and the entry into force of the corresponding legislation, and so the needs in terms of energy efficiency and adaptation to seismic risks are significant.

This component addresses part of the 2020 country-specific recommendation 3 by which the Council recommended Italy to take action to 'Focus investment on the green and digital transition, in particular on [...] water management as well as reinforced digital infrastructure to ensure the provision of essential services'. It also addresses parts the 2019 country-specific recommendations 3 ('Focus investment-related economic policy on the quality of infrastructure, taking into account regional disparities. [...] and improve the effectiveness of public administration [...] by accelerating digitalisation, and by increasing the efficiency and quality of local public services').

It is expected that no measure in this component does significant harm to environmental objectives within the meaning of Article 17 of Regulation (EU) 2020/852, taking into account the description of the measures and the mitigating steps set out in the recovery and resilience plan in accordance with the DNSH Technical Guidance (2021/C58/01).

F.1. Description of the reforms and investments for non-repayable financial support

Investment 2.1: Strengthening of the Ecobonus for energy efficiency

The objective of this measure is to support the energy renovation of residential buildings. The measure consists in providing support in the form of a tax deduction or, as an alternative to the instrument of tax deduction, in the form of financial instruments (so-called "credit transfer" and "invoice discount"), to specific categories of organisations and households.

Reform 1.1- Simplification and acceleration of procedures for energy efficiency interventions

This reform aims to simplify and accelerate the procedures for the implementation of interventions related to energy efficiency. It consists of four major actions:

- **Launching of the national portal for the energy efficiency of buildings:** The Portal shall support citizens and operators in managing energy efficiency projects and shall be an easy source for accessing information for decision-makers. It shall contain information on the energy performance of the national building stock, which is expected to help firms and citizens in their decisions of improving the energy

performance of their property. A one-stop shop shall be set-up to provide assistance and all useful information to citizens and businesses relating to energy mapping of buildings, compliance with sector regulations, evaluation of the potential for efficiency and selection of priorities for action, including redevelopment plans in stages, the selection of the most appropriate promotional tools for the purpose, and the training of professional skills.

- **Strengthening of the activities of the information and training plan aimed at the civil sector** - The Information and Training Plan shall take into account the need to develop both specific initiatives aimed at filling the information gap of end users in the residential sector, and appropriate training activities on incentives and on the most effective interventions for companies that offer energy services, that carry out interventions and for condominium administrators. The Plan shall be developed taking into account the needs resulting from the Superbonus measure, in order to maximize its effectiveness and lay the foundations for a lasting culture of efficiency in construction.
- **Updating and strengthening of the National Fund for energy efficiency:** With the revision of the regulations for the establishment and management of the National Energy Efficiency Fund (Article 15 of Legislative Decree 102/2014, and Interministerial Decree of December 22, 2017) amendments shall enter into force to foster the enhancement and greater use of available resources.
- **Accelerating the implementation phase of projects financed by the Central Public Redevelopment Programme EPAC program:** A regulatory review shall be carried out aimed at promoting a more efficient management of resources specifically allocated to the Building Requalification Programme of the Central Public Administration (PREPAC).

F.2. Milestones, targets, indicators, and timetable for monitoring and implementation for non-repayable financial support

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name	Qualitative indicators (for milestones)	Quantitative indicators (for targets)			Indicative timeline for completion		Description of each milestone and target
					Unit of measure	Baseline	Goal	Quarter	Year	
M2C3-1	Investment 2.1- Strengthening of the Ecobonus for energy efficiency	Milestone	Entry into force of the extension of the Superbonus	Provision in the legal act(s) indicating the entry into force	N/A	N/A	N/A	Q4	2021	The legal act(s) shall extend the Ecobonus and ismabonus benefits until 31 December 2022 for condominiums and 30 June 2023 for social housing (IACP).
M2C3-2	Investment 2.1- Strengthening of the Ecobonus for energy efficiency	Target	Building renovation Superbonus T1	N/A	Number	0	17 000 000	Q2	2023	Complete building renovation for, (at least 17 000 000 square meters which result in primary energy savings of at least 40% and increasing at least two categories in the energy efficiency certificate.
M2C3-3	Investment 2.1- Strengthening of the Ecobonus for energy efficiency	Target	Building renovation Superbonus T2	N/A	Number	17 000 000	35 800 000	Q4	2025	<p>Certifications ("asseverazioni") attesting building renovation for at least 35 800 000 square meters which result in primary energy savings of at least 40% increasing at least two categories in the energy efficiency certificate (Energy Performance Certification as defined by Decree 63/2013) shall be issued.</p> <p>In cases where gas-condensing boilers are installed as the chosen replacement of existing inefficient gas, coal and oil-based boilers, they shall have an A performance. The cost of installing gas-condensing boilers shall represent at most 20% of the overall renovation programme cost.</p> <p>The overall estimated energy saving generated by interventions amount to at least 191 Ktoe.</p>

F.3. Description of the reforms and investments for the loan

Investment 1.1: Construction of new schools through building replacement

The objective of the measure is to create modern and sustainable school structures, in particular by reducing energy consumption and increasing seismic safety. This measure consists in the replacement of part of the building stock of public schools.

Investment 1.2- Requalification of public real estate assets partly or wholly used by the administration of justice

The objective of the measure is to requalify and modernise buildings partly or wholly used by the administration of justice. The measure consists in the execution of renovation and requalification works in real estate assets located in several Italian municipalities, including but not limited to energy efficiency interventions.

Investment 3.1: Promotion of efficient district heating

The objective of the measure is to expand the use of efficient district heating, based on the distribution of heat generated from renewable sources, from waste heat or cogenerated in high-performance plants. The measure consists in financing projects relating to the construction of new, or the extension of existing, district heating networks, with priority to projects that guarantee the greatest savings in non-renewable primary energy.

F.4. Milestones, targets, indicators, and timetable for monitoring and implementation for the loan

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name	Qualitative indicators (for milestones)	Quantitative indicators (for targets)			Indicative timeline for completion		Description of each milestone and target
					Unit of measure	Baseline	Goal	Quarter	Year	
M2C3-5	Investment 1.1: Construction of new schools through building replacement	Milestone	Award of all public contracts for the construction of new schools through building replacement to upgrade energy in school buildings, following a public tendering procedure	Notification of the award of all public contracts following a public tendering procedure	N/A	N/A	N/A	Q3	2023	Notification of the award of all public contracts on new schools building replacement eligible for funding formalised by local authorities equivalent to a total surface of at least 400 000 square meters
M2C3-6	Investment 1.1: Construction of new schools through building replacement	Target	At least 166 new schools are built through building replacement.	N/A	Number	0	166	Q1	2026	Certificates of completion of works issued for the construction of at least 166 new schools through building replacement. The primary energy consumption of the 166 new schools shall be at least 20% lower than the Nearly Zero Energy Buildings requirement, as evidenced by the issuance of Energy Performance Certificates.
M2C3-7	Investment 1.2- Construction of buildings, requalification and strengthening of real estate assets of the administration of justice	Milestone	Award of all public contracts to construct new buildings, requalify and strengthen real estate assets of the administration of justice are signed by the contracting authority following a public tendering procedure	Notification of the award of all public contracts following a public tendering procedure	N/A	N/A	N/A	Q4	2023	Notification of the award of all public contracts on the construction of buildings, requalification and strengthening of real estate assets of the administration of justice.

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name	Qualitative indicators (for milestones)	Quantitative indicators (for targets)			Indicative timeline for completion		Description of each milestone and target
					Unit of measure	Baseline	Goal	Quarter	Year	
M2C3-8	Investment 1.2- Requalification of public real estate assets partly or wholly used by the administration of justice	Target	Works for at least 289 000 square meters of public real estate assets carried out	N/A	Number	0	289 000	Q1	2026	Certificates of completion of works for at least 289 000 square meters of public real estate assets partly or wholly used by the administration of justice are issued.
M2C3-9	Investment 3.1: Promotion of efficient district heating	Milestone	Contracts to improve the heating networks are awarded by the Ministry of Ecological Transition following a public tendering procedure	Notification of award of all public contracts following a public tendering procedure	N/A	N/A	N/A	Q4	2022	Award of all public contracts for the construction of new district heating networks or the extension of existing district heating networks, which should include the requirement of reducing energy consumption. Award of the contracts to the projects selected under the competitive calls for proposals in compliance with the 'Do no significant harm' Technical Guidance (2021/C58/01) through the use of an exclusion list and the requirement of compliance with the relevant EU and national environmental legislation.
M2C3-10	Investment 3.1: Promotion of efficient district heating	Target	Build or extension of networks for district heating to reduce energy consumption	N/A	KTOE	0	30	Q1	2026	Certificates of completion of works for the construction of new networks for district heating, or the extension of existing ones are issued allowing for an energy consumption reduction of at least 30 KTOE per year, as certified by a report of an independent engineer. The investment shall comply with the conditions set out in footnote (9) of the Annex VI of Regulation 241/2021/EU on the Recovery and Resilience Facility To be eligible, district heating systems shall use heat generated from renewable sources, from waste heat or cogenerated in high performance plants as the main heat source. Fossil fuels shall solely be used as a back up.

G. MISSION 2 COMPONENT 4- Territorial planning and water resources

The aim of this component of the Italian recovery and resilience plan is to address a number of long-lasting weaknesses related to the management of water resources and hydrogeological risks in Italy and to adopt a number of measures aimed at preserving biodiversity. This is to be achieved through a significant and balanced combination of reforms and investments in those various dimensions.

On the reforms side, the component proposes a set of measures aimed principally at improving the efficiency in the management of water resources by reducing the fragmentation of the sector, by establishing an adequate pricing policy and by setting a number of incentives to tackle the existing problems related to wastewater management. Reforms in this component also include a set of measures to simplify the design and implementation of projects related to water infrastructure and to the management and reduction of hydrological risks.

The investments associated to this component shall contribute to mitigate and better manage the hydrogeological risk in Italy, both from a prevention and adaptation perspective and shall aim to make the infrastructure related to water more resilient. In addition, they aim to significantly improve the management of water resources through better wastewater management and a significant reduction of water leakages, including in the agricultural sector. The investments shall strengthen the digitalisation of those sectors and shall make them more energy efficient and better adapted to climate change. This component also incorporates a set of measures aimed at preserving biodiversity and green areas in line with the EU 2030 “Biodiversity Strategy”.

This component addresses part of the 2020 country-specific recommendation 3 by which the Council of the European Union recommended Italy to take action to ‘Focus investment on the green and digital transition, in particular on [...] water management as well as reinforced digital infrastructure to ensure the provision of essential services’. It also addresses parts of the 2019 country-specific recommendation 3 (‘Focus investment-related economic policy on the quality of infrastructure, taking into account regional disparities. [...] and improve the effectiveness of public administration [...] by accelerating digitalisation, and by increasing the efficiency and quality of local public services’).

It is expected that no measure in this component does significant harm to environmental objectives within the meaning of Article 17 of Regulation (EU) 2020/852, taking into account the description of the measures and the mitigating steps set out in the recovery and resilience plan in accordance with the DNSH Technical Guidance (2021/C58/01).

G.1. Description of the reforms and investments for non-repayable financial support

Reform 2.1- Simplification and acceleration of the procedures for implementing interventions against hydrogeological instability

The aim of this reform is to overcome the existing weaknesses in the governance of hydrogeological risks highlighted by the Italian Court of Auditors. It shall consist of simplifying and accelerating procedures for the implementation of projects in this area, including establishing maximum deadlines for each phase; prioritising interventions in line with the National Risk Assessment and with Article 6 of the Decision 1313/2013 EU and Risk Management Capability Assessment and the Do No Significant Harm principle; setting a plan to increase the administrative capacity of the entities responsible for the implementation of these projects and reinforcing the coordination between the various levels of government involved, including by streamlining the information flows.

Reform 2- Reform of the legal framework for a better management and a sustainable use of water

This reform shall aim to address the long-lasting problems of the water sector in Italy, reflected in many ongoing infringement procedures for non-compliance with the Council Directive 91/271/EEC, in an excessive fragmentation of the sector and in the absence of adequate incentives and pricing policies. The measures envisaged are expected to significantly reduce the fragmentation of the sector by reducing the number of operators and encouraging economies of scale, setting incentives to reduce water leakages and the excessive consumption of water by the agricultural sector and establishing adequate pricing policies for a more sustainable consumption of water.

A set of Memoranda of Understanding (MoU) shall be signed with the regions Campania, Calabria, Molise and Sicilia to reduce fragmentation in the number of operators providing water services. The MoU shall set objectives in terms of setting Local Government Bodies, reducing the number of operators and achieving economies of scale with a view to setting single operators for at least each 40 000 inhabitants within the two years following the signature of those MoU.

Reform 4.2 “Measures to ensure full managerial capacities for Integrated water services”

This reform aims to address major problems in the management of water resources and make the system more efficient.

The system is expected to reduce the existing fragmentation in the number of operators, which currently hinders an efficient use of water resources in some parts of the country. The reform is also expected to set the right incentives for a better use of water resources in the agricultural sector, to introduce a system of penalties for the illegal extraction of water and to introduce a system of prices which reflects better and is more in line with the polluter-pays principle while avoiding the expansion of existing irrigation systems. The measures shall be adopted in cooperation with the regions where the management of water resources is more problematic at present.

Investment 3.2- Digitization of national parks and marine protected areas

The objective of the measure is to modernize and digitize procedures related to the functioning of national parks and marine protected areas. The measure consists of digital services to visitors and interventions in nature conservation and monitoring of natural resources.

Investment 4.2. Reduction of losses in water distribution networks, including digitization and monitoring of networks

The objective of this investment is to reduce loss of drinking water. The measure consists in upgrading and modernising water distribution networks through advanced control systems that allow monitoring the main nodes and the most sensitive points of the network (water districting).

G.2. Milestones, targets, indicators, and timetable for monitoring and implementation for non-repayable financial support

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name	Qualitative indicators (for milestones)	Quantitative indicators (for targets)			Indicative timeline for completion		Description of each milestone and target

G.3. Description of the reforms and investments for the loan

Reform 3.1 Adoption of national programs on air pollution control

The reform aims to align national and regional legislation, and to introduce related measures for the reduction of emissions of air pollutants (in accordance with targets set by Directive 2016/2284 on national emission ceilings and altering climate gases).

Investment 1.1: Implementation of an advanced and integrated monitoring and forecast system

The objective of this investment is to identify and predict risks stemming from climate change impact and inadequate spatial planning, and to provide information for risk prevention plans. This investment consists in the set-up of a monitoring system enabling the remote control of large territorial areas and the identification of illegal disposal of waste.

Investment 2.1: Measures for flood and hydrogeological risk reduction

The objective of this measure is to tackle the hydrogeological instability in the Italian territory. The measure consists in two lines of action, with *Protezione Civile* and “Commissioner of Emergency for the reconstruction in the territories of Emilia Romagna, Tuscany, and Marche” affected by the May 2023 floods (*Commissario per la ricostruzione nel territorio della regione Emilia Romagna, Toscana e Marche*), as responsible Administration, respectively: the first line of action concerns a set of interventions to restore damaged public structures and infrastructures (type E interventions) and reduce residual risk strictly connected to the event and aimed primarily at protecting public and private safety (type D interventions); the second line of action concerns interventions to restore waterways and increase protection against floods and landslides and rehabilitation interventions of the transport network in the territories affected by the May 2023 floods.

Investment 3.1: Protection and enhancement of urban and peri-urban forests

The objective of this measure is to protect green areas and increase their number with the objective of both preserving and enhancing biodiversity and increasing the quality of life of the inhabitants of those areas. The measure consists in planting forest reproductive material (seeds or plants) for at least 4 500 000 trees and shrubs (in 4 500 hectares), of which at least 3.5 million trees transplanted in their final destination, in the 14 metropolitan cities of Italy.

Investment 3.2- Digitization of national parks and marine protected areas

The objective of this measure is to modernize and digitize procedures related to the functioning of national parks and marine protected areas. The measure consists of digital services to visitors and interventions in nature conservation and monitoring of natural resources.

Investment 3.3- Re-naturification of the Po area

The objective of this measure is to reactivate natural processes and encourage the recovery of biodiversity in the Po river area. The measure consists of the execution of interventions to reduce riverbed artificiality.

Investment 3.4: Remediation of orphan sites

The objective of this intervention is to reduce the environmental impact of ‘orphan sites’ thus indirectly promoting the circular economy. This investment consists in the adoption of an Action Plan for the identification and revitalisation of orphan sites across Italian regions and autonomous provinces, as well as the execution of specific interventions to restore them.

Investment 3.5: Restoration and protection of seabed and marine habitats

The objective of this measure is to contribute to reversing the degradation of seabed and marine habitats. The measure consists in supporting projects mapping seafloor habitats and environmental monitoring, planning and large-scale restoration and protection measures, and enhancing marine observation platforms.

Reform 4.1 Simplification of legislation and strengthening of governance for the implementation of investments in the water supply infrastructures

The current regulatory framework and the existing fragmentation in the management has a negative impact on the capacity for planning and implementing investments in water supply infrastructures.

The objective of this reform is to simplify and make more effective the legal framework and provide assistance when necessary to the implementing bodies with insufficient capacity to undertake and complete those investments within the timelines set originally.

The main measures planned to achieve those objectives are mainly through (i) the establishment of a central public financing instrument for investments in the water sector which unifies resources which are rather scattered at present; (ii) simplifying the procedures for reporting and monitoring of the investments financed, (iii) further involving of the Regulator in the planning of the investments to be undertaken and in possible revisions to the plan.

The Ministry of Infrastructure and Transport shall present the reform proposal relating to the water supply sector.

Investment 4.1 Primary water infrastructure for the security of water supply

The aim of this measure is to ensure the security of water supply for important urban areas and large irrigated areas, to increase safety and resilience of the network also with regard to transport capacity of water. The measure consists in works on primary water infrastructure throughout the entire national territory.

Investment 4.2. Reduction of losses in water distribution networks, including digitization and monitoring of networks

The objective of this investment is to reduce loss of drinking water. The measure consists in upgrading and modernising water distribution networks through advanced control systems that allow monitoring the main nodes and the most sensitive points of the network (water districting).

Investment 4.3. Investments in the resilience of the irrigation agrosystem for better management of water resources

The objective of this measure is to increase efficiency of irrigation systems through digitalisation and infrastructural interventions for a more sustainable and climate change resilient agricultural sector.

Investment 4.4. Sewerage and purification

The objective of this measure is to reduce the weakness of the Italian water systems on sewerage and purification of wastewater, as well as the number of agglomerations with weak sewerage and purification systems. The measure consists in interventions to make the purification of wastewater discharged into marine and inland waters more efficient.

Investment 4.5. Grant scheme for investments on water infrastructures

This measure shall consist of a public investment in a Grant Scheme, in order to incentivise private investment and improve access to finance in Italy's water management sector. The Scheme shall operate by providing viability gap grants directly to the private sector as well as to public sector entities engaged in similar activities.

The Scheme shall be managed by Invitalia S.p.A. as the implementing partner. The Scheme shall include the following product line:

- A viability gap grant designed to cover the projects' funding gap of the infrastructural projects in the water management sector. The grant shall subsidize a portion of the overall investment, in order to ensure the project's bankability. The design of grant structure shall incentivize the rationalization and aggregation of water service providers by putting in place a reward mechanism.

In order to implement the investment into the Scheme, Italy and Invitalia S.p.A. shall sign an Implementing Agreement that shall include the following content:

1. Description of the decision-making process of the Scheme: The final award decision of the Scheme shall be taken by an investment committee or other relevant equivalent governing body and approved by a majority of votes from members who are independent from the government.
2. Key requirements of the associated grant policy, which shall include:
 - a. The description of the grants provided and eligible final beneficiaries. Final beneficiaries shall be, in principle, companies with private participation. In line with the principle of non-discrimination, public entities that are engaged in similar activities as the private entities benefiting from the scheme could also be accepted as final beneficiaries.
 - b. The requirement that all investments supported are economically viable.
 - c. The requirement to comply with the 'Do no significant harm' (DNSH) principle as set out in the DNSH Technical Guidance (2021/C58/01). In particular, the grant policy shall exclude the following list of activities and assets from eligibility: activities and assets related to fossil fuels, including downstream use⁷⁰. Moreover, the associated grant policy shall include the requirement to exclude from the financing: investments involving the construction of new dams; investments in the scope of article 4(7) of Directive 2000/60 of the European Parliament and of the Council of 23 October 2000 establishing a framework for Community action in the field of water policy.
 - d. The requirement that final beneficiaries of the Scheme shall not receive support from other Union instruments to cover the same cost.
3. The amount covered by the Implementing Agreement, the fee structure for the Implementing Partner and the requirement to use any unused proceeds of the scheme, including beyond 2026, for the same policy purposes.

⁷⁰ Except for (a) assets and activities in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the 'Do no significant harm' Technical Guidance (2021/C58/01).

4. Monitoring, audit, and control requirements, including:

- a. The description of the implementing partner's monitoring system to report on the grants mobilized.
 - b. The description of the implementing partner's procedures that will ensure the prevention, detection and correction of fraud, corruption, and conflicts of interests.
 - c. The obligation to verify the eligibility of every operation in accordance with the requirements laid out in the Implementing Agreement before awarding a grant to an operation.
 - d. The obligation of carrying out risk-based ex-post audits in accordance with an audit plan of Invitalia S.p.A. These audits shall verify i) that the control systems are effective, including the detection of fraud, corruption, and conflict of interests; ii) compliance with the DNSH principle, the State Aid rules, the climate target requirements; and iii) that the requirement that final beneficiaries of the Scheme have not received support from other Union instruments to cover the same cost is respected. The audits shall also verify the legality of the transactions and that the conditions of the applicable Implementing Agreement and Grant Agreements are being respected.
4. Requirements for climate investments carried out by the implementing partner: at least EUR 400 000 000 of the RRF investment into the Scheme shall contribute to the climate change objectives in accordance with Annex VI to the RRF Regulation.⁷¹

⁷¹ Final beneficiaries associated to specific projects shall be required to provide a justification of the selected intervention field for each project supported, together with a description of the project, for the purpose of the computation of the climate contribution. For the purpose of the computation of the climate contribution, final beneficiaries from equity, quasi-equity, corporate bonds or equivalent instruments not targeted to specific projects shall provide a justification for the selected intervention field(s). The implementing partner shall also be required to provide to the Member State a semi-annual report on the implementation of each project/activity.

G.4. Milestones, targets, indicators, and timetable for monitoring and implementation for the loan

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name	Qualitative indicators (for milestones)	Quantitative indicators (for targets)			Indicative timeline for completion		Description of each milestone and target
					Unit of measure	Baseline	Goal	Quarter	Year	
M2C4-6	Investment 3.2: Digitization of national parks	Target	Development of digital services to visitors to national parks and marine protected areas	N/A	Percentage	0	70	Q2	2024	At least 70% of national parks and marine protected areas have developed digital services for visitors to national parks and marine protected areas (at least two among: the connection to the Naturitalia.IT portal; an application for administrative procedures or a sustainable mobility app).
M2C4-6bis	Investment 3.2: Digitization of national parks	Milestone	Interventions related on nature conservation and monitoring of natural resources delivered carried out	Certificates issued				Q2	2026	<ul style="list-style-type: none"> • Certificate(s) of conformity verification for at least 12 000 equipment items for nature conservation and monitoring activities; • Certificate(s) of regularly execution of services for the provision in natural parks and marine protected areas of at least 7 different types of technical services and training for scientific and on-field monitoring activities.
M2C4-7	Reform 3.1: Adoption of national programs on air pollution control	Milestone	Entry into force of a national air pollution control programme	Provision in the DPCM indicating the entry into force	N/A	N/A	N/A	Q4	2021	The Decree of the President of the Council of Minister (DPCM) shall set out a national air pollution control programme which introduces appropriate measures for the reduction of air pollution in line with the EU Directive 2016/2284 and the legislative decree 30 May

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name	Qualitative indicators (for milestones)	Quantitative indicators (for targets)			Indicative timeline for completion		Description of each milestone and target

			of the investment							objectives using the methodology in Annex VI of the RRF Regulation. Italy shall transfer EUR 1 000 000 000 to Invitalia S.p.A. for the Facility.

H. MISSION 3 COMPONENT 1: Sustainable transport infrastructure

H.1. Description of the reforms and investments for non-repayable financial support

N/A

H.2. Milestones, targets, indicators, and timetable for monitoring and implementation for non-repayable financial support

N/A

H.3. Description of the reforms and investments for the loan

The investments in this component support the deployment of railway infrastructure (high-speed, freight, regional railways, European Railways Traffic Management System). They are accompanied by reforms to accelerate railway infrastructure investments and to improve the quality of road infrastructure. The business environment reform component contains a measure creating additional incentives for Regions to tender out their regional railway public service contracts. This component contains measures to develop the use of hydrogen in railways.

This component support addressing the 2019 country-specific recommendation 3 urging Italy to ‘Focus investment-related economic policy on [...] the quality of infrastructure taking into account regional disparities’ and the 2020 country-specific recommendation 3 on ‘Front-load mature public investment projects’ and to ‘Focus investment on the green and digital transition, in particular on clean and efficient production and use of energy, research and innovation, sustainable public transport, waste and water management as well as reinforced digital infrastructure to ensure the provision of essential services’.

It is expected that no measure in this component does significant harm to environmental objectives within the meaning of Article 17 of Regulation (EU) 2020/852, taking into account the description of the measures and the mitigating steps set out in the recovery and resilience plan in accordance with the DNSH Technical Guidance (2021/C58/01).

Reform 1.1 - Acceleration of the approval process of the Contract between the Ministry of Infrastructure and Transport (MIT) and the railway infrastructure manager *Rete Ferroviaria Italiana*

This reform consists in removing the requirement that Parliamentary Commissions express an opinion on the list of investments of the *Contratti di Programma (CdP)* of the railway infrastructure manager *Rete Ferroviaria Italiana*. The Parliamentary Commissions shall express an opinion on the strategic programme of investments.

Reform 1.2 - Acceleration of the authorization process of projects

This reform consists in adopting legislation allowing to anticipate the indication of the place of works at the time of the “Economic Technical Feasibility Project” (PFTE), instead of waiting for the definitive project design phase. Additional authorizations, which cannot be acquired on the PFTE, would be obtained in subsequent project design phases, without convening the “Conferenza dei Servizi”, as an exception to Law no. 241/1990. These changes shall reduce the authorisation time of projects from 11 to 6 months.

Reform 1.3 - Boosting the efficiency of railway infrastructure in Italy

This reform aims at promoting an increase in competition in regional and intercity railway transport markets, to improve the infrastructural planning for railway lines and networks, and to introduce performance measurement of railway infrastructural management and investments. The reform consists in the adoption of primary and secondary legislation, as well as in the adoption of legal acts on the Rolling Stock Company (RoSCo).

Investment 1.1 - High-speed railway connections to the South for passengers and freight

The objective of this investment is to expand the Italian railway infrastructure. This investment consists in the construction of 114 km of high-speed railway infrastructure for passengers and freight in the lines Napoli-Bari, Salerno-Reggio Calabria and Palermo-Catania.

Investment 1.2 - High-speed lines in the North connecting to rest of Europe

The objective of this investment is to expand the Italian railway infrastructure. This investment consists in the construction of 158 km of high-speed railway infrastructure for passengers and freight in the lines Brescia-Verona-Vicenza-Padova, Liguria-Alpi.

Investment 1.3 - Diagonal connections

The objective of this investment is to expand the Italian railway infrastructure. This investment consists in the construction of 15 km of high-speed railways for passengers and freight in the lines Orte-Falconara and Taranto-Metaponto-Potenza-Battipaglia.

Investment 1.4 - European Rail Transport Management System (ERTMS)

The objective of this investment is to contribute to the adaptation of the Italian railway infrastructure to European interoperability standards. This investment consists in equipping 2 785 km of railway lines with the European Rail Transport Management System (ERTMS) at an infrastructural and technological level coherent with the ERTMS Italian Deployment Plan notified to the European Commission. .

Investment 1.8 - Upgrading railway stations (*Rete Ferroviaria Italiana (RFI)* management; in South)

The objective of this investment is to make railway stations accessible for persons with disabilities and persons with reduced mobility. This investment consists in upgrading 38 railway stations.

Investment 1.10 - Strengthening metropolitan nodes and regional railway lines

The objective of this investment is to ameliorate the quality of the Italian inter-regional, and regional railway lines. This investment consists in upgrading at least 3 309 km of railway lines, including 1 162 km in the South. Projects belonging to this measure may receive support from other European programmes.

Reform 2.1 - Adoption of “Guidelines for the classification and management of risks, the evaluation of security and the monitoring of existing bridges”

This reform consists in adopting guidelines for the classification and management of risks, the evaluation of security and the monitoring of existing bridges. The adoption of "Guidelines", which shall allow the application of common standards and methodologies on the entire national road network.

Reform 2.2 - Transfer the property of the bridges and viaducts from the lower level ranking roads to the higher ranking ones

This reform consists in the transfer of the ownership of the bridges, viaducts and overpasses from the lower type roads to the higher type roads (motorways and main suburban roads) allowing an increase in the overall safety of the road network, as the bridges, viaducts and overpasses shall be maintained by ANAS and/or the motorway concessionaires, who have better planning and maintenance capacities than the individual municipalities or provinces.

H.4. Milestones, targets, indicators, and timetable for monitoring and implementation for the loan

I. MISSION 3 COMPONENT 2- Intermodality and integrated logistics

The objective of this component of the Italian recovery and resilience plan is to make Italian ports more efficient and competitive, more energy efficient and better integrated to the logistic chain. It also aims to digitalise the air traffic management system.

For that purpose, it includes on one hand important reforms to simplify processes, to update the port planning and to make concessions in Italian ports more competitive. On the other some investments designed to ensure intermodality with the broad lines of European communication developing links with ocean and inter-Mediterranean trafficking, increasing dynamism and the competitiveness of the Italian port system, also with a view to reducing greenhouse emissions. The investments linked to this component are expected to substantially increase passenger and freight volumes in Italian ports with a positive effect on the stimulating economic activities in the respective areas and on the national economy as a whole.

On the other hand, this component relates to the digitalisation of logistics systems, including airport systems. It is expected to make these sectors more competitive by using innovative technological solutions to make the system more efficient and also to reduce their environmental impact.

This component addresses the 2019 country-specific recommendation 3 urging Italy to ‘Focus investment-related economic policy on the quality of infrastructure’ and the 2020 country-specific recommendation 3 recommending to ‘Focus investment on the green and digital transition, in particular on clean and efficient production and use of energy, research and innovation, sustainable public transport, waste and water management as well as reinforced digital infrastructure to ensure the provision of essential services’.

It is expected that no measure in this component does significant harm to environmental objectives within the meaning of Article 17 of Regulation (EU) 2020/852, taking into account the description of the measures and the mitigating steps set out in the recovery and resilience plan in accordance with the DNSH Technical Guidance (2021/C58/01).

I.1. Description of the reforms and investments for non-repayable financial support

Reform 1.1- Simplification of procedures for the strategic planning process

This measure envisages the update of port planning to ensure a strategic vision of the Italian ports system. The reform shall regulate as a minimum the (i) the development objectives of the port system authorities; (ii) the areas identified and outlined intended for strictly port and rear-port functions, (iii) the last-mile infrastructural connections of road and rail with ports, (iv) the criteria followed in identifying the contents of the planning and (v) it shall make an unambiguous identification of the guidelines, the rules and the procedures for the preparation of the port regulatory plans.

Reform 1.2- Competitive award of concessions in Italian ports

The aim of this measure is to define conditions relating to the duration of the concession, the supervisory and control powers of the granting authorities, the renewal procedures, the transfer of the facilities to the new concessionaire at the end of the concession and the identification of the minimum limits of the fees charged to the concessionaires.

Reform 1.3- Simplification of authorisations for procedures of authorisation of cold ironing in Italian ports

This measure is expected to simplify and reduce the authorization procedure concerning construction of the National Electricity Transmission Network plants to power the distribution systems for the supply of electricity to ships (*cold ironing*).

The Ministry of Infrastructure and Transport shall make a proposal to streamline the authorization process. In particular, it shall be proposed to have the cold ironing projects evaluated by the territorial offices that report to the Ministry of Economic Development, which could, in a shorter time, study the projects and consequently authorize them. Moreover, in terms a regulatory intervention shall be envisaged to identify a single authorization process for projects involving a voltage higher than 132 kV and the rest, in order to exploit the process synergies.

Reform 2.1: Implementation of a Single Customs Window (“Sportello Unico Doganale”)

The objective is to create a dedicated portal for the Single Control Desk, which shall enable interoperability with national databases and coordination of control activities by customs.

Investment 2.1: Digitalisation of the logistic chain

The objective of this investment is to increase the competitiveness of the national logistics by simplifying procedures, processes and controls and focusing on the de-materialisation of documents and the exchange of data and information. This investment consists in the creation of an interoperable digital system between public and private actors for freight and logistics.

Investment 2.2: Digitalization of air traffic management.

This investment aims at developing new tools for the digitisation of aeronautical information and implementing unmanned aircraft platforms and services. The investment consists in the development and connectivity of the Unmanned Traffic Management System (UTMS), the digitalisation of aeronautical information and the definition of a new maintenance model.

Investment 2.3: Cold ironing

The objective of this investment is to reduce greenhouse gas emissions of the maritime sector. This investment consists in building a network for the supply of electricity in port areas (docks) and the related connection infrastructure to the national transmission grid.

I.2. Milestones, targets, indicators, and timetable for monitoring and implementation for non-repayable financial support

I.3. Description of the reforms and investments for the loan

Investment 1.1: Green ports: renewable energy and energy efficiency interventions at ports

The objective of this measure is to reduce greenhouse gas emissions and improve air quality in ports and port cities. This investment consists in energy efficiency interventions, renewable energy development as well as the purchase of zero-emission vehicles and service boats or the transformation of fossil fuel vehicles and service boats into zero-emission ones.

Reform 2.2: Establishment of a National Digital Logistics Platform in order to introduce the digitalization of freight and/or passenger services

The aim of the reform is to make the Port Community Systems of individual Port System Authorities interoperable with the National Digital Logistics Platform.

I.4. Milestones, targets, indicators, and timetable for monitoring and implementation for the loan

J. MISSION 4 COMPONENT 1: Strengthening the provision of education services: from nurseries to universities

This component of the Italian recovery and resilience plan includes four intervention areas: i) Quality improvement and quantitative expansion of education and training services – from kindergartens to university; ii) Reform of the teaching profession, particularly concerning recruitment and training processes, with the scope of increasing teaching staff's skills and addressing territorial mismatching; iii) Upskilling and upgrading of infrastructure to enhance digital, science, technology, engineering and mathematics (STEM) and multilingualism teaching while improving school buildings' security and energy efficiency; iv) Reform of degree groups, enabling degrees and Ph.D programmes with the aim to boost applied research and extending the number of Ph.D scholarships. Measures under this component aim at addressing the weaknesses of the Italian education, training and research system with the goal of improving educational outcome and employability of Italian students. The investments and reforms under this component shall contribute addressing the country specific recommendations addressed to Italy in 2020 and 2019 on the need to “support women’s participation in the labour market through a comprehensive strategy, including through access to quality childcare” (country specific recommendation 2, 2019), to “improve educational outcomes, also through adequate and targeted investment, and foster upskilling, including by strengthening digital skills” (country specific recommendation 2, 2019), to “foster research and innovation” (country specific recommendation 3, 2019), to “strengthen distance learning and skills, including digital ones” (country specific recommendation 2, 2020) and to “focus investment on research and innovation” (country specific recommendation 3, 2020).

J.1. Description of the reforms and investments for non-repayable financial support

Investment 1.1: Plan for nurseries and preschools and early childhood education and care services

The objective of this investment is to increase and enhance educational facilities for children aged 0-6. The investment consists in building, converting, and renovating childcare places in nurseries and pre-schools

Investment 1.2: Plan for the extension of full-time

The objective of this measure is to enable school facilities to extend school hours by refurbishing or building apposite infrastructures. The investment consists in constructing or building canteen spaces in school facilities.

Investment 1.3: School Sports Infrastructure Enhancement Plan

The objective of this measure is to promote sport activities in schools. This measure consists in renovating and constructing sports facilities and gyms for school use.

Investment 1.4: Extraordinary intervention aimed at the reduction of territorial gaps in I and II cycles of secondary school and at tackling school drop-out

The measure aims to tackle existing gaps in students' basic skills. The investment consists in the enforcement of mentoring and training activities for students at risk of early school leaving and young people who have already dropped out, also with the support of a national digital portal.

Reform 1.1: Reform of Technical and Professional Institutes

The reform aims to align the curricula of technical and professional institutes with competences needed by the Italian production system, including at local level. In particular, the reform shall make technical and vocational education consistent with Industry 4.0 and embracing digital innovation.

Reform 1.2: Reform of the tertiary vocational training (ITS)

The reform aims at strengthening the tertiary vocational training system by simplifying ITS governance in order to increase the number of institutes and enrolments with a view to the local territory. The reform is expected to bridge the mismatch between labour supply and demand.

Investment 1.5: Development of the tertiary vocational training system (ITS)

The objective of this measure is to increase the role of vocational training institutes (ITS) in the Italian education system. The investment consists in expanding student enrolment in ITSs and boosting enterprise involvement in education through the launch of a national digital platform that better connects training with the labour market.

Reform 1.3: Reorganisation of the school system

The objective of the reform is twofold:

- 1) Adjustment of the number of pupils per class.

The number of teaching staff shall be set at the same level as in the 2020/2021 school year, in view of the population decline and in order to reduce the number of pupils per class and gradually improve the ratio between the number of pupils and the number of teachers on common positions. The implementation of the intervention shall not increment the number of buildings available. The initiative shall give personalised attention to individual pupils, particularly to the most vulnerable and certainly pupils with disabilities. The improvement of the pupil/teacher ratio is expected to benefit teaching quality and the availability of resources for school buildings. Reviewing the rules on the size of school buildings. The regional school population shall be adopted as the "effective parameter" for identifying the educational institutions with a headmaster and a headmistress, rather than the population of the individual school, as provided for by current legislation.

Reform 1.4: Reform of the "Orientation" system

The reform aims at introducing orientation modules (at least 30 hours per year) for the fourth and fifth classes of upper secondary school. The main objective is to support students in taking an informed choice between continuing their studies or further vocational training (ITS), prior to their integration into the labour market. The reform also envisages the creation of a digital orientation platform, related to the tertiary educational offer of Universities and Vocational Training Institutes (ITS).

Investment 1.6: Active orientation in school-university transition

The objective of this measure is to facilitate and encourage the transition from upper secondary school to university and to reduce the university dropout rates. This measure consists in providing orientation courses to all students in upper secondary school to support them in the choice of tertiary education.

Investment 1.7: Scholarships for University access

The objective of this measure is to enhance equality in tertiary education access, by supporting students in socio-economic difficulties. The measure consists in increasing the number of scholarships provided to university students.

Reform 1.5: University Degree groups reforms

The reform envisages the update of university curricula, reducing the existing rigid boundaries which severely limit the possibility of creating cross-disciplinary paths. The reform is also expected to expand the possibility to implement vocational training programs by introducing innovative job-oriented degree classes.

Reform 1.6: Enabling University Degree Reform

The reform envisages the simplification of the procedure for accessing professions which require the enrolment on professional orders through a dedicated professional exam. The measure shall contribute to harmonize each degree's final national examination with the corresponding professional order exam, thereby providing general and clear rules and substitution.

Reform 2.1: Teachers' recruitment

The objective of this reform is to boost educational outcomes by refining teachers' qualification, recruiting, career, training and evaluation systems. This measure consists in the recruitment of teachers within the reformed recruitment system.

Reform 2.2: Tertiary advanced school and compulsory training for school managers, teachers, administrative and technical staff

The reform aims at building a quality training system for school staff for the continuous professional and career development. It envisages the establishment of a qualified body in charge of releasing guidelines in line with European standards and of the selection and coordination of training initiatives, possibly linking them to career progressions, as provided for in the recruitment reform – the Reform 2.1: Teachers' recruitment, included in the plan.

Investment 2.1: Integrated digital teaching and training on the digital transformation for school staff

The objective of this measure is to establish a permanent system for fostering digital teaching skills among school staff. The investment consists in the training of school managers, teachers and administrative staff.

Investment 3.1: New skills and new languages

The objective of this measure is to enhance multilanguage, STEM, digital and innovation skills across all school levels. The measure consists in activating interdisciplinary STEM guidance projects in schools and widening Erasmus+ program.

Investment 3.2: School 4.0: innovative schools, wiring, new classrooms and workshops

The objective of this measure is to transform school facilities to allow digital learning. This measure consists in equipping at least 8000 primary and secondary schools with digital tools, covering at least 100 000 classrooms.

Investment 3.3: School building security and structural rehabilitation plan

The objective of the measure is to increase the safety and energy performance of school buildings. This measure consist in the renovation and reconstruction works of school buildings.

Investment 3.4: Teaching and advanced university skills

The objective of this measure is to qualify and innovate university programs, including Ph.D studies, to reinforce digital skills and enhance higher education's global engagement. The investment consists of awarding doctoral scholarships, creating networks of higher education institutions, establishing Digital Education Hubs, and boosting international cooperation and projects.

Reform 4.1: Ph.D. Programmes Reform

The reform aims at updating the regulation on Ph.D. programmes, simplifying the procedures for the involvement of companies, research centres, in Ph.D. programmes, and strengthening applied research. The proposed reform has integrations with all the investments related to Ph.D. programmes in the target domain "Education and research".

Investment 4.1: Extension in number and career opportunities of PhDs (Research-oriented, Public Administration and Cultural Heritage)

The measure aims at increasing the stock of human capital dedicated to research-oriented activities, to public administration and cultural heritage. The investment envisages the allocation to students, by Universities and AFAM Institutions, of at least 3 600 general doctoral scholarships, at least 3 000 doctoral scholarships in the field of public administration, and at least 600 new doctoral scholarships dedicated to cultural heritage.

J.3. Description of the reforms and investments for the loan

Reform 1.7: Reform of student housing regulation and investment in student housing

The reform aims to increase university students' accommodations by encouraging private and public investments in facilities, with the contribution of the Ministry of University and Research.

The investment consists in providing additional students accommodations.

Investment 1.1: Plan for nurseries and preschools and early childhood education and care services

The objective of this investment is to increase and enhance educational facilities for children aged 0-6. The investment consists in building, converting, and renovating childcare places in nurseries and pre-schools.

Investment 1.2: Plan for the extension of full-time

The objective of this measure is to enable school facilities to extend school hours by refurbishing or building apposite infrastructures. The investment consists in constructing or building canteen spaces in school facilities.

Investment 3.3: School building security and structural rehabilitation plan

The objective of the measure is to increase the safety and energy performance of school buildings. This measure consists in the renovation and reconstruction of school buildings.

Investment 5: Student housing fund

This measure shall consist of a public investment in a Grant Scheme, in order to incentivise private investment and improve access to finance in Italy in the student housing sector. The Scheme shall operate by providing grants directly to the private sector as well as to public sector entities engaged in similar activities.

The Scheme shall be managed by Cassa Depositi e Prestiti S.p.A. (CDP S.p.A.) as the implementing partner. The Scheme shall include the following product line:

- A lump sum grant of maximum EUR 20 000 for student bed created.

In order to implement the investment into the Scheme, Italy and CDP S.p.A. shall sign an Implementing Agreement that shall include the following content:

1. Description of the decision-making process of the Scheme: The final award decision of the Scheme shall be taken by an investment committee or other relevant equivalent governing body and approved by a majority of votes from members who are independent from the government.
2. Key requirements of the associated grant policy, which shall include:
 - a. The social requirements of the investment including:
 - i. The requirement that the rental fee for university students shall be set, at least, at a 15% below local market prices.
 - ii. The requirement that 30% of the new places shall be reserved for students facing socio-economic difficulties as defined by "Diritto allo Studio" organizations (right to study organizations).
 - i. The requirement that existing accommodations used for student housing purposes at the time of the launch of the relative call for projects cannot be financed.
 - b. The description of the grants provided and eligible final beneficiaries.

- c. The requirement that all investments supported are economically viable.
 - d. The requirement to comply with the ‘Do no significant harm’ (DNSH) principle as set out in the DNSH Technical Guidance (2021/C58/01). In particular, the grant policy shall exclude the following list of activities and assets from eligibility: (i) activities and assets related to fossil fuels, including downstream use⁷², (ii) activities and assets under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks⁷³, (iii) activities and assets related to waste landfills, incinerators⁷⁴ and mechanical biological treatment plants⁷⁵. For the avoidance of doubt, gas boilers shall not be eligible for support under this measure.
 - e. The requirement that final beneficiaries of the Scheme shall not receive support from other Union instruments to cover the same cost.
3. The amount covered by the Implementing Agreement, the fee structure for the Implementing Partner and the requirement to use any unused proceeds of the scheme, including beyond 2026, for the same policy purposes.
 4. Monitoring, audit, and control requirements, including:
 1. The description of the implementing partner’s monitoring system to report on the grants mobilized.
 2. The description of the implementing partner’s procedures that will ensure the prevention, detection and correction of fraud, corruption, and conflicts of interests.
 3. The obligation to verify the eligibility of every operation in accordance with the requirements laid out in the Implementing Agreement before awarding a grant to an operation.
 4. The obligation of carrying out risk-based ex-post audits in accordance with an audit plan of CDP S.p.A. These audits shall verify i) that the control systems are effective, including the detection of fraud, corruption, and conflict of interests; ii) compliance with the DNSH principle, the State Aid rules; and iii) that the requirement that final beneficiaries of the Scheme have not received support from other Union instruments to cover the same cost is respected. The audits shall also verify the legality of the transactions and that the conditions of the applicable Implementing Agreement Grant Agreements are being respected.

⁷² Except for (a) assets and activities in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the ‘Do no significant harm’ Technical Guidance (2021/C58/01) and (b) activities and assets under point (ii) for which the use of fossil fuels is temporary and technically unavoidable for the timely transition towards a fossil fuel free operation.

⁷³ Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks, an explanation of the reasons why this is not possible shall be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447.

⁷⁴ This exclusion does not apply to actions under this measure in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

⁷⁵ This exclusion does not apply to actions under this measure in existing mechanical biological treatment plants, where the actions under this measure are for the purpose of increasing energy efficiency or retrofitting to recycling operations of separated waste to compost bio-waste and anaerobic digestion of bio-waste, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

J.4. Milestones, targets, indicators, and timetable for monitoring and implementation for the loan

Italy shall transfer EUR 599 000 000 to the Cassa Depositi e Prestiti S.p.A. for the Facility.

K. MISSION 4 COMPONENT 2: From research to business

This component of the Italian recovery and resilience plan aims to support investment in research and innovation, to promote innovation and technology diffusion, to strengthen skills, and supporting the transition to a knowledge-based economy. It provides support to the public research system, researcher's skills and mobility as well as public-private cooperation at national and EU level. It is built on three main pillars: (i) Improved science base; (ii) Strong business-science links (knowledge and technology transfers; (iii) Support for business innovation (notably SMEs, start-ups).

The investments and reforms under this component shall contribute addressing the country- specific recommendations addressed to Italy in 2020 and 2019 on the need to “focus investment-related economic policy on research and innovation, and the quality of infrastructure” (country- specific recommendation 3, 2019), to “promote private investment to foster the economic recovery” (country- specific recommendation 3, 2020), to “focus investment on the green and digital transition, particularly on research and innovation” (country- specific recommendation 3, 2020).

K.1. Description of the reforms and investments for non-repayable financial support

Investment 1.2: Funding projects presented by young researchers

The objective of this investment is to retain young researchers in Italy. The measure consists in supporting the research activities of young researchers.

Investment 2.2bis: Innovation Agreements

The objective of this measure is to boost innovation. The measure consists in the definition of research, development and innovation projects (so-called “Innovation Agreements”) , in areas coherent with the II pillar of Horizon Europe programme, as per Regulation (EU) 2021/695.

Investment 3.3: Award of PhD scholarships in collaboration with enterprises

The objective of this measure is to enhance high-level skills, including in the areas of Key Enabling Technologies.

The measure consists in awarding PhD scholarships by Universities and AFAM institutions, with input and involvement of companies. Specifically, the measure, implemented by the MUR – Ministry of University and Research, provides for the award of a total of 6 000 doctoral grants in 3 years, with private co-financing

Reform 1.1: Implementation of R & I support measures to promote simplification and mobility

The reform shall be implemented by the Ministry of University and Research (MUR) and the Ministry of Economic Development (MiSE) through the creation of an inter-ministerial steering board and the issuing of two ministerial decrees: i) to increase and support mobility (through incentives) of high-profile individuals (such as: researchers and managers) between universities, research infrastructures and companies, and ii) to simplify the management of research funds, iii) reform career path of researchers to increase their focus on research activities.

The reform shall move to a more systemic approach to R&D activities, going beyond the current logic of reallocating resources by favouring a sharing approach and shall focus on simplifying red tape in the management of funds dedicated to public-private research activities, generating a significant impact through avoiding dispersion and fragmentation of priorities, also supported by the first component of the Mission.

Public research bodies (EPR) shall play a key role both as possible project leaders for Partnerships, National Campaigns and Territorial Ecosystems, and as potential participants in calls for proposals on the PNR Fund and the Infrastructure Fund.

Reform 1.2: Three-year plan for the financing of research activities

The reform aims at improving the planning and predictability of research funding. It consists in the entry into force of primary legislation setting out the legal framework for the adoption of a three-year plan for the financing of research activities.

										fossil fuels, including downstream use; ⁷⁶ (ii) activities under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks; ⁷⁷ (iii) activities and assets related to waste landfills, incinerators, ⁷⁸ and mechanical biological treatment plants. ⁷⁹
M4C2-3	Investment 3.3: Award of PhD scholarships	Target	Number of PhDs scholarships	N/A	Number	0	6 000	Q4	2024	Award of at least 6 000 Ph.D scholarships, by Universities

⁷⁶ Except for (a) assets and activities in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the ‘Do no significant harm’ Technical Guidance (2021/C58/01) and (b) activities and assets under point (ii) for which the use of fossil fuels is temporary and technically unavoidable for the timely transition towards a fossil fuel free operation.

⁷⁷ Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks, an explanation of the reasons why this is not possible shall be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447.

⁷⁸ This exclusion does not apply to actions under this measure in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

⁷⁹ This exclusion does not apply to actions under this measure in existing mechanical biological treatment plants, where the actions under this measure are for the purpose of increasing energy efficiency or retrofitting to recycling operations of separated waste to compost bio-waste and anaerobic digestion of bio-waste, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

										<p>research entities and AFAM institutions;</p> <p>3) Require the adoption of a timeline ("cronoprogramma") for the launch of calls for projects and for the conclusion of their selection procedures.</p> <p>4) Include a specific budget item for the financing of PRIN projects.</p>

K.3. Description of the reforms and investments for the loan

Investment 1.1: Research Projects of Significant National Interest (PRIN)

The objective of this measure is to support research activities. The measure consists in financing research projects of major national interest (PRIN) entailing the collaboration among university research units and research bodies and the hiring of fixed-term researchers.

Investment 1.3: Partnerships extended to universities, research centres, companies and funding of basic research projects

The measure aims to establish networks of universities, research organisations and other stakeholders, foster technology transfer and support research-based start-ups and spin-offs. The measure consists in financing at least 14 major basic research programmes carried out by networks of public and private subjects.

Investment 1.4: Creation of “national R&D leaders” on some Key Enabling Technologies

The objective of this measure is to create national R&D leaders. The measure consists in by finacing five national research centres able to achieve a critical threshold of research and innovation capacity through collaboration among universities, research centres and enterprises.

Investment 1.5: "Innovation ecosystems for sustainability", building "territorial leaders of R&D".

The objective ot this measure is to boost innovation. The measure consists in financing existing or new innovation ecosystems with a focus onsocial sustainability.

Investment 2.1: Important Project of Common European Interest (IPCEI)

The objective of this measure is to supplement the current IPCEI fund, referred to in Article 1 (232) of the 2020 Budget Law The measure consits in supporting the IPCEI fund with additional resources.

Investment 2.3: Technology transfer centres

The objective of this measure is to support a network of centres (Competence Centres, European Digital Innovation Hub, Seal of Excellence, National Digital Innovation Centres) responsible for project development, the provision of advanced technological services to companies and public administrations and technology transfer services. The European Digital Innovation Hubs may receive funding from other EU funds, including the Digital Europe programme, for carrying out their activities.

The investment consists of two lines of interventions. Under the first line, the RRF finances at least 32 centres exclusively, without any support from other EU sources. Under the second line, the RRF finances a part of 13 European Digital Innovation Hubs (EDIH) , with the other share of the cost coming from the Digital Europe Programme. In particular, the operation of 13 European Digital Innovation Hubs financed by RRF and the Digital Europe Programme shall be structured into work packages⁸⁰. The RRF support shall not concern work packages for which European Digital Innovation Hubs receive support under the Digital Europe Programme. I

⁸⁰ A work package is a component of the project work breakdown such as, for example: test before invest, skills and training, project management and coordination. It represents a group of project work described in activities and tasks. Work packages shall present a clear, logical link to the project objectives and to the other work packages. Each work package shall constitute a sub-part of the project, a step leading to the achievement of the project's overall goals.

Investment 3.1: Research and innovation infrastructures

The objective of the measure is to support the creation of research and innovation infrastructures linking industry and academia, or to support the exiting ones. The investment consists in financing existing or new infrastructure projects with a research manager for each infrastructure.

Investment 3.2: Equity injection into the Digital Transition Fund (“DTF”) managed by CDP Venture Capital SGR

This measure aims at supporting the growth potential of the Italian economy by incentivizing private investments, improving access to finance for start-ups, and developing the venture capital market in this sector. The measure shall consist of an equity injection of EUR 400 000 000 into the Digital Transition Fund (“DTF”) managed by CDP Venture Capital SGR.

CDP Venture Capital SGR shall adopt an investment policy for the use of the equity. The investment policy shall include the description of the financial product(s) with the expected type of eligible final beneficiaries that the equity is expected to support, including the expected timeline for the implementation of 15 years and the management fee of maximum 13%.⁸¹ The DTF shall operate by providing equity, quasi equity, debt or quasi debt support, directly or indirectly.⁸² CDP Venture Capital SGR shall adopt the audit and control system described in the guidelines “Linee Guida per le attività di rendicontazione e controllo dei Fondi DTF e GTF” for the use of the equity. The Investment Policy shall require that financial product(s) that the equity supports comply with the ‘Do no significant harm’ (DNSH) principle as set out in the DNSH Technical Guidance (2021/C58/01). In particular, in the case of general support to start ups, the investment policy shall exclude companies with a substantial focus⁸³ in the following sectors: (i) fossil fuel-based energy production and related activities⁸⁴; (ii) energy-intensive and/or high CO2-emitting industries⁸⁵; (iii) production, rental, or sale of polluting vehicles⁸⁶; (iv) waste collection, waste treatment and disposal⁸⁷, (v) processing of nuclear fuel, production of nuclear energy. Moreover, the investment policy shall require compliance with the relevant EU and national environmental legislation.

⁸¹ In particular, the 13% maximum cap does not include carried interest, performance fees related to DTF and all costs and management fees related to indirect investments / third party funds.

⁸² In particular, in case of direct investments, the DTF shall operate by providing equity or quasi equity support; in case of indirect investments, the DTF shall operate by financing third party funds which shall operate by providing at least one of the following: equity, or quasi-equity, or debt, or quasi-debt instruments.

⁸³ It is considered that a Final Beneficiary has a “substantial focus” on a sector or business activity if such sector or activity is identified as being an essential part of the business activity of the Final Beneficiary respectively in relation to the gross revenue, profit, or client base of the Final Beneficiary. The gross revenue generated from the restricted sector or activity shall, in any case, not exceed 50% of the gross revenue.

⁸⁴ Except for (a) assets and activities in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the ‘Do no significant harm’ Technical Guidance (2021/C58/01) and (b) activities and assets under point (ii) for which the use of fossil fuels is temporary and technically unavoidable for the timely transition towards a fossil fuel free operation.

⁸⁵ Including activities and assets under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks. Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks, an explanation of the reasons why this is not possible shall be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447.

⁸⁶ Polluting vehicles are defined as non-zero-emission vehicles.

⁸⁷ This exclusion does not apply to actions in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

L. MISSION 5 COMPONENT 1: Employment policy

The measures under this component of the Italian recovery and resilience plan introduce a comprehensive and integrated reform of active labour market policies (ALMPs) and vocational training. Strengthening ALMPs and improving the capacity building of public employment services (PES), including their integration with education and training providers and private operators, are expected to increase services' efficacy. In addition, the measures of this component aim at reducing social vulnerabilities to shocks, in particular by tackling undeclared work in all its forms and sectors by setting more effective sanctions along with stronger incentives to work legally. Furthermore, this component promotes gender equality (equal pay) through the gender equality certification system. It also invests in young people by increasing the quantity and quality of training programmes, for instance, through the participation to the Universal Civil Service programme.

The implementation of these measures is expected to contribute addressing the challenges covered by the 2020 country-specific recommendation 2 on labour market urging Italy to “Mitigate the employment impact of the crisis, including through [...] active support to employment”, the 2020 country-specific recommendation 2 to “support skills (...) including digital ones”, the 2019 country-specific recommendation 2 to “step up efforts to tackle undeclared work, ensure that active labour market and social policies (...) reach out notably to young people and vulnerable groups. Support women’s participation to the labour market”, and the 2019 country-specific recommendation 2 to “foster up-skilling, including by strengthening digital skills”.

L.1. Description of the reforms and investments for non-repayable financial support

Reform 1 - The Active Labour Market Policies (ALMPs) and Vocational Training

The objective of this reform is to support the active labour market system to provide personalised plans that include employment, training and social services. This measure consists in the creation of a National Programme for the Guaranteed Employability of Workers (GOL), supporting in particular the most vulnerable categories (women, long-term unemployed, young and older workers and people with disabilities), and in carrying out training programmes for adult learning.

Investment 1 - Strengthening Public Employment Services (PES)

The objective of this investment is to allow the efficient delivery of employment and training services. The measure consists in the Public Employment Services carrying out the following activities: infrastructural investments, establishment of regional observatories of local labour markets, upgrade of the IT system, professional training of staff, and institutional communication and outreach.

Reform 2 - National Plan tackling undeclared work

The objective of this measure is to support the job quality and working conditions by preventing and tackling undeclared work, labour exploitation (so called “caporalato”), and other forms of irregular work. This measure consists in legislative and non-legislative actions including: reinforcing labour inspections and sanctions, providing incentives to regular work, training job centre operators, delivering a national information campaign, improving the governance to combat undeclared work, as well as specific actions to address labour exploitation in agriculture.

Investment 2 - Gender Equality Certification System

The objective of this measure is to increase women's participation in the labour market and contribute to reducing the gender pay gap. This investment consists in the creation of the national gender equality certification system to foster transparency in the labour market and enhance women's working conditions in terms of quality, remuneration and empowerment.

Investment 3 - Strengthening the Dual System

The objective of this measure is to support young people and adults without secondary education in accessing employment opportunities. This investment consists in expanding participation in the “dual system” for students in formal and vocational education and training (VET), including through apprenticeships.

Investment 4 - Strengthening of the Universal Civil Service

The objective of this measure is to increase the number of young people involved in non-formal learning, and increase their knowledge and skills. This investment consists in ameliorating the Universal Civil Service programme and increase the number of participants.

L.2. Milestones, targets, indicators, and timetable for monitoring and implementation for non-repayable financial support

L.3. Description of the reforms and investments for the loan

Investment 5 - Creation of women's enterprises

This measure shall consist of a public investment in a Facility, in order to incentivise private investment and improve access to finance in Italy for the creation and growth of women's enterprises in Italy through project funding, mentoring, communication activities and entrepreneurial education services. The Facility shall operate by providing subsidies and loans directly to the private sector.

The Facility shall be managed by Invitalia as the implementing partner. The Facility shall include the following product lines:

- *Fondo a sostegno dell'impresa femminile*, which supports female-led business initiatives through grants and interest-free loans; it also finances communication and training initiatives targeted to female students and young women, as well as educational services aimed at disseminating women's entrepreneurial culture;
- *Nuove imprese a tasso zero (NITO-ON)*, which is dedicated to the creation and growth of micro and small businesses led mainly or entirely by young people or women financed through grants and interest-free loans;
- *Smart & Start Italia*, which aims to foster innovative, technology-driven start-ups, particularly those with strong digital or research-based elements, financed through loans; for start-ups located in central and southern Italy a percentage of the loan can be converted into a non-repayable grant.

In order to implement the investment into the Facility, Italy and Invitalia shall sign an Implementing Agreement that shall include the following content:

1. Description of the decision-making process of the Facility: The final investment decision of the Facility shall be taken by an investment committee or other relevant equivalent governing body and approved by a majority of votes from members who are independent from the government.
2. Key requirements of the associated investment policy, which shall include:
 - a) The description of the financial products and eligible final beneficiaries.
 - b) The requirement that all investments supported are economically viable.
 - c) The requirement to comply with the 'Do no significant harm' (DNSH) principle as set out in the DNSH Technical Guidance (2021/C58/01). In particular, the investment policy shall exclude the following list of activities and assets from eligibility: (i) activities and assets related to fossil fuels, including downstream use⁸⁸, (ii) activities and assets under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant

⁸⁸ Except for (a) assets and activities in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the 'Do no significant harm' Technical Guidance (2021/C58/01) and (b) activities and assets under point (ii) for which the use of fossil fuels is temporary and technically unavoidable for the timely transition towards a fossil fuel free operation.

benchmarks⁸⁹, (iii) activities and assets related to waste landfills, incinerators⁹⁰ and mechanical biological treatment plants⁹¹.

- d) The requirement that final beneficiaries of the Facility shall not receive support from other Union instruments to cover the same cost.
- 3. The amount covered by the Implementing Agreement, the fee structure for the Implementing Partner and the requirement to reinvest any reflows according to the investment policy of the Facility.
- 4. Monitoring, audit, and control requirements, including:
 - 1. The description of the implementing partner's monitoring system to report on the investment mobilised.
 - 2. The description of the implementing partner's procedures that will ensure the prevention, detection and correction of fraud, corruption, and conflicts of interests.
 - 3. The obligation to verify the eligibility of every operation in accordance with the requirements laid out in the Implementing Agreement before committing to finance an operation.
 - 4. The obligation of carrying out risk-based ex-post audits in accordance with an audit plan of Invitalia. These audits shall verify i) that the control systems are effective, including the detection of fraud, corruption, and conflict of interests; ii) compliance with the DNSH principle, the State Aid rules, the digital target requirement; and iii) that the requirement that final beneficiaries of the Facility have not received support from other Union instruments to cover the same cost is respected. The audits shall also verify the legality of the transactions and that the conditions of the applicable Implementing Agreement are being respected.

Requirements for digital investments carried out by the implementing partner: at least EUR 150 000 000 of the RRF investment into the Facility shall contribute to the digital transition in accordance with Annex VII to the RRF Regulation.

⁸⁹ Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks, an explanation of the reasons why this is not possible shall be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447.

⁹⁰ This exclusion does not apply to actions under this measure in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants' waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

⁹¹ This exclusion does not apply to actions under this measure in existing mechanical biological treatment plants, where the actions under this measure are for the purpose of increasing energy efficiency or retrofitting to recycling operations of separated waste to compost bio-waste and anaerobic digestion of bio-waste, provided such actions under this measure do not result in an increase of the plants' waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

M. MISSION 5 COMPONENT 2: Social infrastructures, families, communities and third sector

The planned reforms and investments included in this component aim at strengthening resilience by supporting the integration and inclusion of the most vulnerable, along individual, family and social dimensions. This component provides a national strategy for the active inclusion of vulnerable population groups. The objectives of this component are: (I) strengthening the role for integrated social services to support families, minors and adolescents, to support parenting skills and protect vulnerable families as well as persons with disabilities, including through the enhancement of social infrastructures involving the third sector; (II) improving the autonomy of people with disabilities, by providing community and home-based social and health services and removing barriers to accessing housing and job opportunities; (III) improving the inclusion of people in extreme marginalization and housing deprivation (e.g. homeless people) through a wider offer of temporary accommodation assistance facilities and services, personalized paths towards autonomy and personal resilience; (IV) strengthening the availability of more affordable public and private housing and urban and territorial regeneration; (V) developing the resilience capacity of the most vulnerable through the dissemination of the culture of sport and the setup of sports infrastructures through the creation of urban parks where sports activities may be combined with entertainment activities for the benefit of the communities.

The implementation of these measures is expected to contribute addressing the challenges covered by the 2019 country-specific recommendations 2 on social policy urging Italy to “ensure that [...] social policies are effectively integrated and reach out notably to young people and vulnerable groups” and by the 2020 country-specific recommendations 2 to “provide adequate (...) access to social protection”.

M.1. Description of the reforms and investments for non-repayable financial support

Reform 1 - Framework Law for Disability

The main objective of the reform is to modify the legislation on disabilities and promote the de-institutionalization (i.e., transfer from public or private institutions to their families or into community-based homes) and autonomy of people with disabilities. This shall entail (I) strengthening the offer of social services, (II) simplifying access to social and health services, (III) reforms of disability assessments, (IV) promoting independent living projects, (V) promoting the work of teams of experts that may support people with disabilities with multidimensional needs.

Reform 2 - Reform for non-self-sufficient elderly persons

The objective of this measure is to reform social services and improving the living conditions of non-self-sufficient elderly people. This reform shall include: (I) simplifying older people's access to services through the creation of single points of social and health access, (II) identifying ways of recognizing non-self-sufficiency based on the need for assistance, (III) providing a multidimensional assessment, (IV) defining individualized projects that promote de-institutionalization. This reform is anticipated by specific interventions envisaged by the Plan, included both in the health mission (M6), with reference to projects that strengthen local health services and home care, and in this component, with specific reference to the investment 1, intervention II aimed at the de-institutionalisation.

Investment 1 - Supporting vulnerable people and preventing institutionalization

The objective of this measure is to support vulnerable people and prevent institutionalisation. This measure consists of interventions for vulnerable families and children, elderly people and social workers in at least 85% of the Italian social districts.

Investment 2 - Autonomy patterns for people with disabilities

The objective of this measure is to increase the autonomy of people with disabilities, accelerating the process of de-institutionalisation. The measure consists in providing access to housing or home-based solutions, as well as digital technology and trainings.

Investment 3 - Housing First and Post Stations

The objective of this measure is to protect and support the inclusion of marginalised people. The measure consists in two types of arrangements: the ‘housing first’ solutions, which involve municipalities providing tailored projects and accommodation to individuals, small groups or families up to 24 months; and the ‘post stations’ solutions, which consist of service and inclusion centres for homeless people, offering essential services such as basic goods and mail distribution, meals and healthcare.

			Housing First and Post Stations, defining the requirements of projects that can be presented by local entities, and launch of call for proposal	Operational plan of interventions						<p>Projects on Housing First envisage that local entities make flats available for single individuals, small groups or families up to 24 months, preferably through buildings' refurbishment and renovation of State property. This shall be complemented by development and autonomy programmes.</p> <p>Projects on Post Stations envisage the development of service and inclusion centres for homeless people. This shall be complemented by job placement programmes, in collaboration with employment centres.</p>

M.3. Description of the reforms and investments for the loan

Investment 1 - Supporting vulnerable people and preventing institutionalization

The objective of this measure is to support vulnerable people and prevent institutionalisation. This measure consists of interventions for vulnerable families and children, elderly people and social workers in at least 498 of the Italian social districts.

Investment 2 - Autonomy patterns for people with disabilities

The objective of this measure is to increase the autonomy of people with disabilities, accelerating the process of de-institutionalisation. The measure consists in providing access to housing or home-based solutions, as well as digital technology and trainings.

Investment 3 - Housing First and Post Stations

The objective of this measure is to protect and support the inclusion of marginalised people. The measure consists in two types of arrangements: the 'housing first' solutions, which involve municipalities providing tailored projects and accommodation to individuals, small groups or families up to 24 months; and the 'post stations' solutions, which consist of service and inclusion centres for homeless people, offering essential services such as basic goods and mail distribution, meals and healthcare.

Investment 4 - Investments in projects of urban regeneration, aimed at reducing situations of marginalization and social degradation

The objective of this measure is to reduce marginalisation and social degradation by increasing the social and environmental quality of municipalities, as well as access to social and cultural services. The measure consists in the renovation, reuse and repurpose of public areas and public buildings.

Investment 5 - Urban Integration Plans (general projects and Overcoming illegal settlements to fight labour exploitation in agriculture)

The objective of this measure is to regenerate large degraded urban areas. This investment entails three types of interventions: (I) general projects in the urban integrated plans, focussing on maintenance and reuse of public areas and buildings and regeneration of under-used or unused urban areas; (II) housing solutions for agricultural workers to overcome illegal settlements; (III) a thematic fund (Fund of Funds), in collaboration with the EIB, to encourage private investment in urban regeneration initiatives that support the climate and digital transitions.

Investment 6 - Innovative Plan for Housing Quality

The objective of this measure is to increase the quality or the quantity of public housing and to renovate degraded areas. The investment consists in: (I) renovation (including energy efficiency interventions) and expansion of public housing; (II) regeneration of urban spaces and public and private properties; (III) furthering accessibility and safety of urban areas and the provision of services.

Investment 7 - Sport and Social Inclusion

The objective of this measure is to regenerate sport facilities and their surroundings in urban areas. The investment consists in supporting the construction, regeneration, and renovation of sports facilities.

M.4. Milestones, targets, indicators, and timetable for monitoring and implementation for the loan

Sequential Number	Related Measure (Reform or Investment)	Milestone /Target	Name	Qualitative indicators (for milestones)	Quantitative indicators (for targets)			Indicative timeline for completion		Description of each milestone and target
					Unit of measure	Baseline	Goal	Quarter	Year	
M5C2-6	Investment 1 - Supporting vulnerable people and preventing institutionalization	Target	Actions to support vulnerable people in social districts	N/A	Number	0	498	Q1	2026	At least 498 social districts shall finalise at least one of the following actions: (I) supporting vulnerable families and children; (II) supporting autonomous living of elderly people; (III) provision of home social services to guarantee early supported discharge and prevent hospitalisation; (IV) supporting social workers.
M5C2-8	Investment 2 - Autonomy patterns for people with disabilities	Target	Beneficiaries have received renovation of home space and/or ICT devices accompanied by training on digital skills	N/A	Number	0	3 120	Q1	2026	At least 3 120 beneficiaries have received renovation of home space and/or the provision of ICT devices. The beneficiaries receiving ICT devices shall also participate in training on digital skills.
M5C2-10	Investment 3 - Housing First and Post Stations	Target	Housing First and Post Stations projects	N/A	Number	0	12 364	Q1	2026	For housing first, 1 318 signed individualised projects (<i>‘progetto personalizzato’</i>) attesting that temporary accommodation was provided for a minimum of 6 and a maximum of 24 months. In addition, for each beneficiary, a certificate of completion of works for the infrastructure of the relative project shall also be provided. For post stations, 11 046 signed individualised projects (<i>‘progetto personalizzato’</i>) attesting that the service was provided. For each beneficiary, a certificate of completion of works for the infrastructure of the relative

N. MISSION 5 COMPONENT 3: Special interventions for territorial cohesion

This component of the recovery and resilience plan includes two intervention areas: i) Plan for the resilience of internal, peripheral and mountain areas; ii) Projects for the development of the South, including investments to tackle educational poverty, to consolidate rural pharmacies as local health services, the enhancement of assets confiscated from organised crime and infrastructural investment in Special Economic Zones. These measures aim at tackling the territorial divide in three domains: demographics and services; skill development; investment.

The investments and the reforms under this component shall contribute addressing the country specific recommendations addressed to Italy in 2019 and 2020 on the need to “Focus investment-related economic policy on research and innovation, and the quality of infrastructure, taking into account regional disparities” (country specific recommendation 2019.3); “improve educational outcomes” (country specific recommendation 2019.2); “Strengthen the resilience and capacity of the health system [...]” (country specific recommendation 2020.1); “ensure adequate [...] and access to social protection” (country specific recommendation 2020.2).

N.1. Description of the reforms and investments for non-repayable financial support

Investment 1.1. Inner Areas – 1: Enhancement of community social services and infrastructures

The intervention aims at tackling the issues of social exclusion and marginalisation, by intensifying the provision of services through the increase of funds for public services delivered by the local authorities (the delivery mechanism consists in providing grants to the municipalities). Financed projects may concern: home care services for the elderly; community nurses and midwives; strengthening of small hospitals (those without first aid) or some basic services (i.e. radiology, cardiology, gynaecology) and outpatient centres; infrastructures for helicopter rescue; strengthening centres for the disabled; counselling centres, cultural services, sports services and migrant reception. The intervention shall envisage either the creation of new services and infrastructures or the improvement of existing ones through an increase in the number of recipients or in the quality of supply.

In order to ensure that the measure complies with the ‘Do no significant harm’ Technical Guidance (2021/C58/01), the eligibility criteria contained in terms of reference for upcoming calls for projects shall exclude the following list of activities: (i) activities related to fossil fuels, including downstream use⁹²; (ii) activities under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks⁹³; (iii) activities related to waste landfills, incinerators⁹⁴ and

⁹² Except projects under this measure in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the ‘Do no significant harm’ Technical Guidance (2021/C58/01).

⁹³ Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks an explanation of the reasons why this is not possible should be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447.

⁹⁴ This exclusion does not apply to actions under this measure in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

mechanical biological treatment plants⁹⁵; and (iv) activities where the long-term disposal of waste may cause harm to the environment. The terms of reference shall additionally require that only activities that comply with relevant EU and national environmental legislation may be selected.

Investment 1.1.2: Territorial Proximity health facilities

The objective of the measure is to reinforce the role of rural pharmacies in the provision of health services to the local population, for example integrated home assistance and patient monitoring, in turn facilitating the interaction between the patient and the national healthcare system. The investment consists in the provision of financial support to rural pharmacies.

Investment 1.3: Structured socio-educational interventions to combat educational poverty in the South supporting the Third Sector

The objective of this measure is to supply socio-educational services to minors, increase access to childcare, educational opportunities, and prevent school dropout and early school leaving. The investment consists in educational support activities led by third sector organisations.

⁹⁵ This exclusion does not apply to actions under this measure in existing mechanical biological treatment plants, where the actions under this measure are for the purpose of increasing energy efficiency or retrofitting to recycling operations of separated waste to compost bio-waste and anaerobic digestion of bio-waste, provided such actions under this measure do not result in an increase of the plants' waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

N.3. Description of the reforms and investments for the loan

Reform 1: Simplification of the procedures and strengthening of the Commissioner in the Special Economic Zones

The reform shall contribute to the simplification of the governance system and streamline the implementation time of interventions in the Special Economic Zones. The reform shall establish the Digital One Stop Shop for the Special Economic Zones and strengthening of the Commissarial Role.

Investment 1.4: Infrastructural investments for the Special Economic Zones (SEZ)

The investment aims to ensure the impact of the reform introducing the Special Economic Zones (SEZ). The investment consists in supporting infrastructural interventions around port areas (“Last mile” links; digital logistics, urbanization or energy and environmental efficiency; ports’ infrastructures).

Investment 1.5: Tax Credit Scheme for Investments in Southern Italy and the Special Economic Zone (SEZ)

The objective of the measure is to support the competitiveness and sustainable growth of businesses in Southern regions and/or the Special Economic Zone (SEZ) for the South while incentivising private investment.

The measure consists of a tax credit scheme and the associated monitoring and control activities.

O. MISSION 6 COMPONENT 1: Proximity networks, facilities and telemedicine for territorial healthcare assistance

The objective of this component is to strengthen the Italian National Health Service (NHS) by inter alia enhancing the protection against environmental and climate-change related health risks and better responding to the communities' needs regarding local care and assistance. Local healthcare assistance is fragmented and subject to regional disparities that result in different levels of healthcare provisions and health outcomes across regions. The provision of integrated home care services is considered to be low, and the different healthcare and social service providers are considered to be only weakly integrated. Moreover, the capacity of the Italian National Health Service (NHS) to address health risks related to environmental exposure and climate change has been tested by several environmental crisis and emergencies that highlighted the challenges due to a lack of sufficient prevention actions. The objective of this component of the Italian recovery and resilience plan is to strengthen the Italian National Health Service (NHS) by inter alia enhancing the protection against environmental and climate-change related health risks and better responding to the communities' needs regarding local care and assistance.

The investments and reforms of this component shall contribute addressing the country-specific recommendations addressed to Italy in 2019 and 2020 on the need to “focus investment-related economic policy on research and innovation, and the quality of infrastructure, taking into account regional disparities (country-specific recommendation 3, 2019), “strengthen the resilience and capacity of the health system, in the areas of health workers, critical medical products and infrastructure” (country-specific recommendation 1, 2020) and to “focus investment on the green and digital transition, in particular on [...] reinforced digital infrastructure to ensure the provision of essential services” (country-specific recommendation 3, 2020).

O.1. Description of the reforms and investments for non-repayable financial support

N/A

O.2. Milestones, targets, indicators, and timetable for monitoring and implementation for non-repayable financial support

N/A

O.3. Description of the reforms and investments for the loan

Reform 1: Definition of a new organisational model for Territorial healthcare assistance network.

The reform constitutes a preparatory element for the investments of the component. It shall establish a new model of territorial healthcare assistance and create a new institutional structure of Health-Environment-Climate prevention. This shall be achieved through:

1. Establishment of a new organisational model for the territorial healthcare assistance network through the definition of a regulatory framework which identifies structural, technological and organisational standards.
2. Definition of a new institutional structure of Health-Environment-Climate prevention, following an integrated approach (“One Health”) and a holistic vision (“Planetary Health”).

Investment 1.1: Community Health Houses to improve territorial health assistance.

The objective of the measure is to establish Community Health Houses.

The investment consists in activating and aggregating primary care services as well as implementing (energy efficient) assistance delivery centres for an integrated response to care needs.

Investment 1.2: Home as the first place of care and telemedicine

The objective of the measure is to boost home care and the large-scale adoption of telemedicine solutions and supporting healthcare innovation.

The investment consists of hardware and increased service provision, the establishment of Territorial Coordination Centres (“Centrali Operative Territoriali”), financing projects for diagnostics and monitoring, creating a national platform for screening telemedicine projects, and ad-hoc research initiatives on digital health and care technologies.

Investment 1.3: Strengthening Intermediate Healthcare and its facilities (Community Hospitals)

The objective of the measure is to increase the number of intermediate healthcare facilities.

The investment consist in creating community hospitals, healthcare facilities for patients who, following an episode of minor acuity or the relapse of chronic pathologies, require low-intensity and short-term clinical interventions.

O.4. Milestones, targets, indicators, and timetable for monitoring and implementation for the loan

M6C1-11	Investment 1.3: Strengthening Intermediate Healthcare and its facilities (Community Hospitals)	Target	Community Hospitals renovated, interconnected and technologically equipped	N/A	Number	0	307	Q2	2026	Independent expert reports confirming the activation of services according to the standards defined by Annex 1 Section 11 of DM 23 May 2022 n.77 in at least 307 Community Hospitals.

P. MISSION 6 COMPONENT 2: Innovation, research and digitalisation of national healthcare service

This component of the Italian recovery and resilience plan aims at ensuring the necessary enabling conditions for greater resilience of the national healthcare service through: (i) replacement of obsolete healthcare technologies in hospitals; (ii) the development of a significant structural improvement in the safety of hospital buildings; (iii) the improvement of the health information systems and digital tools; (iv) the promotion and strengthening of the scientific research sector; (v) the enhancement of human resources.

The investments and reforms under this component shall contribute addressing the country-specific recommendations addressed to Italy in 2020 and 2019 on the need to “strengthen the resilience and capacity of the health system in the areas of health workers, critical medical products and infrastructure” (country-specific recommendation 1, 2020), to “focus investment on the green and digital transition, in particular on [...] reinforced digital infrastructure to ensure the provision of essential services” (country-specific recommendation 3, 2020), and to “focus investment-related economic policy on research and innovation, and the quality of infrastructure, considering also regional disparities” (country-specific recommendation 3, 2019).

P.1. Description of the reforms and investments for non-repayable financial support

Reform 1: Revise and update the current legal framework of the Scientific Institutes for Hospitalisation and Care (IRCCS)

The reform aims to reorganize the network of Scientific Institutes for Hospitalisation and Care (IRCCS) to (i) improve the quality of the national health system (NHS), (ii) improving the relationship between Health and Research and (iii) revisiting the legal regime of the IRCCS and the research policies within the competence of the Italian Ministry of Health.

The reform shall improve the governance of the public IRCCSs by (i) enhancing the strategic management, (ii) better defining the powers and areas of competence and (iii) comprehensively define the rules on the status of the Scientific Director of the public IRCCSs and of research staff.

Lastly, a specific sub-measure differentiating IRCCSs on the basis of their activity (single-specialist or generalist), creating an integrated network of IRCCSs and facilitating the exchange of expertise between the IRCCSs themselves and the other structures of the Italian NHS.

Investment 2.1: Strengthening and enhancement of the NHS biomedical research

The objective of the measure is to increase the financing of the biomedical research system.

The investment consists in financing of Proof of Concept (PoC) projects, as well as the funding of research initiatives in the field of rare diseases, rare cancers and other diseases with a high impact on health.

Investment 2.2: Development of technical-professional, digital and managerial skills of professionals in the healthcare system

This investment consists in increasing scholarships for the specific course in general medicine; launching a training plan on safety in terms of hospital infections for all NHS staff; activating a training path for

personnel with top roles within NHS bodies in managerial and digital skills and financing specialized medical training contracts.

P.2. Milestones, targets, indicators, and timetable for monitoring and implementation for non-repayable financial support

P.3. Description of the reforms and investments for the loan

Investment 1.1: Digital update of hospitals' technological equipment

The objective of the measure is to enhance health staff productivity, improve the quality of processes, ensuring patient safety and high-quality service delivery.

The investment consists in the modernisation of large healthcare equipment, the informatisation of the processes of hospitals with a first and second level Emergency Department ("Dipartimenti Emergenza e Accettazione", DEA), and the increase in the number of beds in intensive and semi-intensive care units in National Health Service hospitals.

Investment 1.2: Toward a safe and sustainable hospital

The objective of this measure is to increase hospital safety through the seismic upgrade interventions of hospitals and a multi-year intervention to renovate and modernise the physical and technological framework of the public health real estate.

Investment 1.3: Strengthening of the technological infrastructure and of the tools for data collection, data processing, data analysis and simulation

The objective of this measure is to improve care delivery, healthcare analytics and predictive capacity of the Italian NHS. The investment consists in empowering the infrastructure and usage of the existing Electronic Health Records (EHR) and strengthening the infrastructure and the technological and analytics instruments of the Ministry of Health.

Investment 2.2: Development of technical-professional, digital and managerial skills of professionals in the healthcare system

This investment consists in increasing scholarships for the specific course in general medicine; launching a training plan on safety in terms of hospital infections for all NHS staff; activating a training path for personnel with top roles within NHS bodies in managerial and digital skills and financing specialized medical training contracts.

	technical-professional, digital and managerial skills of professionals in the healthcare system		general medical practice are awarded.							general medicine, guaranteeing the completion of 3 three-year training cycles.
M6C2-15	Investment 2.2: Development of technical-professional, digital and managerial skills of professionals in the healthcare system	Target	Additional scholarships for specific training in general medical practice are awarded.	N/A	Number	1 800	2 700	Q2	2024	This investment shall increase scholarships for the specific course in general medicine, guaranteeing the completion of 3 three-year training cycles.

Q.MISSION 7: REPowerEU

The REPowerEU chapter aims at strengthening distribution transmission and distribution networks, including those related to gas; accelerating renewable energy production, reducing energy demand, increasing energy efficiency and creating the skills in the public and private sectors for the green transition; promoting renewable energy and hydrogen value chains through measures facilitating access to credit and tax credits.

The component addresses the country-specific recommendations addressed to Italy in 2022 and 2023. Notably, it aims to accelerate the deployment of additional renewable energy capacity by investing in major electricity interconnections projects (namely, two interconnectors connecting Sardinia and Sicily to the mainland), upgrading the national transmission grid and streamlining permitting procedures. It contributes to increasing the capacity for internal gas transmission to overcome bottlenecks, diversify energy imports and strengthen the security of supply. It promotes sustainable mobility by reducing environmentally harmful subsidies and strengthening the railway fleet. It helps reducing the reliance on fossil fuels by electrifying the consumption of households and increasing the resilience of the network. It contributes to increasing energy efficiency in the residential and corporate sectors, including through targeted incentive schemes and financial instruments. Finally, it includes reforms and investments to improve the provision and acquisition of the skills needed for the green transition – both in the private and in the public sectors.

Nine projects have a cross-border dimension. Two of them have a direct cross-border impact: 1) an investment contributing to the construction of an electric interconnection between Sardinia, Corsica and Tuscany; 2) an investment in a compressor station that shall increase gas export towards Central Europe. Other projects indirectly benefit cross-border Member states by addressing internal energy transmission and distribution bottlenecks and increasing the efficiency and resilience of the grid.

It is expected that no measure in this component does significant harm to environmental objectives within the meaning of Article 17 of Regulation (EU) 2020/852, taking into account the description of the measures and the mitigating steps set out in the recovery and resilience plan in accordance with the ‘Do no significant harm’ Technical Guidance (C(2023) 6454 final), whereas the principle of “do no significant harm” does not apply to investment 13 - Adriatic Line Phase 1 (Sulmona compressor station and Sestino-Minerbio gas pipeline) and investment 14 - Cross-border gas export infrastructure, in accordance with Article 21c(6) of Regulation (EU) 2021/241.

Q.1. Description of the reforms and investments for non-repayable financial support

Reform 1. Streamlining permitting procedures for renewable energy at central and local level

The objective of this reform is to consolidate and streamline the existing legislation and provisions regulating the permitting of renewable energy sources. The reform consists in the adoption and entry into force of a legal act (also known as *Testo Unico*) collecting, compiling, and consolidating the norms regulating the permitting of renewables, and superseding past legislation on that matter. The reform also aims to set out the legal framework for the identification of “renewable acceleration areas” and to establish a single-entry digital platform for requesting authorizations at national and sub-national level to install renewable energy sources.

Reform 2. Reduction of Environmental Harmful Subsidies

The objective of this reform is to lead to a reduction of Environmentally Harmful Subsidies, based on the 2022 Catalogue of Environmentally Harmful Subsidies published by MASE. The reform consists in the adoption of a stakeholders consultation report and of legal acts.

Reform 3. Reduction of the costs of connection to the gas network of biomethane

The reform aims to facilitate the inclusion of biomethane into the energy system and energy market and to create new sustainable biomethane production capacity in line with Directive (EU) 2018/2001 (Renewable Directive) and its delegated acts, and in particular to favour the flexibility and efficiency of the natural gas network by facilitating a conversion to biomethane. The reform consists in the entry into force of legal acts to reduce the connection costs of sustainable biomethane production plants, and encourage investments targeting the uptake of sustainable biomethane in natural gas networks.

Reform 4. Mitigation of financial risk associated with renewable PPAs (Power Purchase Agreements)

The objective of the reform is to establish a system of guarantees mitigating the financial risk associated with renewable Power Purchase Agreements with a duration of at least three years.

The reform shall:

- i) require for each operator to guarantee partial coverage of the countervalue of the Power Purchase Agreements by means of guarantee instruments provided on the electricity market;
- ii) introduce measures to mitigate the risk of default, including requirements and constraints on the bidder and regulatory sanctions in the event of the producer's default;
- iii) identify an institutional entity to take on the role of seller/buyer of last resort, who would take over from the failing counterpart and ensure the fulfilment of the obligations assumed vis-à-vis the performing counterpart.

Reform 5. Plan for new Skills – Transitions

The objective of the reform is to better align training programmes to labour market needs to combat skills mismatch, with specific attention to green and digital skills. This reform consists in the adoption and entry into force of legal acts at national level updating the New Skills Plan (“Piano Nuove Competenze – Transizioni”) and regional legal acts.

Investment 1. Scale-up measure: Smart grids

The objective of this investment is to digitalise the electricity distribution grid as a scale up of Investment 2.1 (Strengthening smart grids) in Mission 2 Component 2. The investment consists in interventions on medium and low voltage grid portions, thus electrifying the energy consumption of at least 230 000 more inhabitants than envisaged in the M2C2 measure.

Investment 2. Scale-up measure: Interventions to increase the resilience of power grid

The objective of this investment is to increase the resilience of the power grid to extreme weather events as a scale up of Investment 2.2 in Mission 2 Component 2. The investment consists in providing grants to transmission and distribution system operators for works on the electricity infrastructure corresponding to increased resilience for at least 648 km of power grid on top of what is already envisaged by the M2C2 measure.

Investment 3. Scale-up measure: Production of Hydrogen in brownfield sites (Hydrogen Valleys)

The objective of this investment is to create new hydrogen valleys, that is local production and use of renewable hydrogen in industry, SMEs, and local transport, as a scale-up of Investment 3.1 in Mission 2 Component 2. The scale-up investment consists in carrying out 2 additional projects to produce hydrogen in abandoned industrial areas compared to those envisaged by Investment 3.1 in Mission 2 Component 2.

Investment 4. Tyrrhenian link

The objective of this investment is to increase the integration of the South of Italy in the national transmission grid. This investment consists in the construction of the “East interconnection line” of the

Tyrrhenian link between Sicily and Campania, particularly the installation of the point-to-point direct current (HVDC) cables between Eboli and Caracoli.

Investment 5. SA.CO.I.3

The objective of this investment is to modernise the electricity transmission infrastructure connecting Sardinia to the rest of Italy, via Corsica, and to increase its integration into the national transmission grid. This investment consists in the construction of the shells (external infrastructure) of the conversion stations in Codrongianos and Suvereto for the “Sardinian-Corsica-Italy 3” interconnection project.

Investment 7. Smart National Transmission Grid

The objective of this investment is to digitalise the national transmission Grid and ameliorate the management and control system operated by the transmission system operator. The investment consists in the installation of secure protocol 104 and 5G equipment or ICT architecture in electrical stations, as well as of industrial IoT monitoring systems on electricity pylons.

Investment 8. Sustainable, circular and secure supply of Critical Raw Materials

The objective of this investment is to support the recovery and recycling of critical raw materials (CRM), and thereby the value chains in CRM and technologies linked to the green transition. The investment consists in analysing future CRM needs and the potential of eco-design to reduce their demand as well as in supporting the creation of a public database for the localisation of “urban mines” and waste in abandoned mines. It also consists in financing R&D projects on eco-design and recycling of waste electrical and electronic equipment as well as in equipping laboratories to create a single hub for Urban Mining and Eco-design.

Investment 10. Pilot project on skills “Crescere Green”

The objective of this investment is to foster green skills with the involvement of the private sector. The measure consists in delivering short training interventions focusing on green skills.

Investment 11. Strengthening of the regional public transport railway fleet with zero emission trains and universal service

The objective of the investment is to reduce greenhouse gases emissions of railway transport and modernise the railway fleet. This investment consists in the registration of at least 75 zero emission passengers’ trains.

Investment 18 – Scale-up measure: Private and light commercial vehicle fleet renewal program with electric vehicles

This investment aims at reducing greenhouse gases and air pollution caused by road transport in urban areas. This investment consists in a car-scrapping scheme whereby a thermal vehicle is surrendered and replaced by a newly purchased zero-emission vehicle.

Q.2. Milestones, targets, indicators, and timetable for monitoring and implementation for non-repayable financial support

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name	Qualitative indicators (for milestones)	Quantitative indicators (for targets)			Indicative timeline for completion		Description of each milestone and target
					Unit of measure	Baseline	Goal	Quarter	Year	
M7-1	Reform 1: Streamlining permitting procedures for renewable energy	Milestone	Legal framework for the identification of "renewable acceleration areas"	Provision in the law indicating the entry into force of the legal framework for the identification of renewable acceleration areas				Q4	2024	<p>Entry into force of primary legislation setting out the legal framework for the identification of "renewable acceleration areas".</p> <p>The legal framework shall:</p> <ol style="list-style-type: none"> 1) require the mapping of renewable energy potential across the country; 2) based on the mapping, establish a first set of areas, setting a minimum set for the future identification of renewable acceleration areas; 3) based on the minimum set of areas, require regions and autonomous provinces to identify renewable acceleration areas by 21 February 2026; 4) entitle the central government to exert substitutive powers in case regions or autonomous provinces fail to identify renewable acceleration areas by 21 February 2026; 5) require the identification of off-shore areas for renewables deployment in coherence with maritime spatial plans.
M7-2	Reform 1: Streamlining permitting	Milestone	Entry into force of the legal act	Provision in the law indicating the entry into force of				Q2	2025	Entry into force of a legal act (Testo Unico) collecting, compiling and consolidating the norms regulating the permitting of renewables,

For commercial vehicles (N1 and N2), the incentive shall cover up to 30% of the purchase price, capped at a maximum of EUR 20 000 per new vehicle.</p> <p>The scheme shall target only the purchase of zero-emission vehicles.</p>

Q.3. Description of the reforms and investments for the loan

Investment 13. Adriatic Line Phase 1 (Sulmona compressor station and Sestino-Minerbio gas pipeline)

The objective of this investment is to increase and diversify security of supply for gas, including liquefied natural gas. The measure consists in the construction of a compressor station in Sulmona and a gas pipeline connecting the nodes of Sestino and Minerbio, as part of the Adriatic Line.

Investment 14. Cross-border gas export infrastructure

The objective of this investment is to increase and diversify security of supply for gas, including liquefied natural gas. This investment consists in upgrading the existing gas infrastructure allowing for the export of natural gas via the Tarvisio exit point, in particular through the construction of a new electric compression unit in the Poggio Renatico compressor station.

Investment 15. Transizione 5.0

The objective of this investment is to support the transition towards energy efficient, sustainable and renewable-based production models for firms. The investment consists in granting a tax credit to firms commensurate with eligible expenses incurred between 1 January 2024 and 31 December 2025, and namely digital assets (4.0 tangible capital goods, 4.0 intangible capital goods⁹⁶), assets necessary for self-production and self-consumption from renewable sources (with the exclusion of biomass), and training staff in skills for the green transition. The investment also consists in setting-up an IT support platform and related activities for management, monitoring, and control purposes provided by GSE – Gestore Servizi Energetici.

Investment 16. Support to SMEs for self-production from renewable energy sources

This measure shall consist of a public investment in a Grant Scheme the “*Support to SMEs for self-production from renewable energy sources*” in order to incentivise private investment and improve access to finance in Italy’s self-production of energy from renewable sources (RES).

The Scheme aims to support micro, small and medium-sized enterprises (SMEs) in the implementation of investment programs aimed at the self-production of energy from renewable sources⁹⁷.

The scheme shall operate by providing grants directly to the private sector.

The Scheme shall be managed by Invitalia SpA as the implementing partner. The Scheme shall include the following product lines:

- non-repayable contributions amounting to at least 30% of the total investment - for the purchase of systems and related digital technologies, which allow the direct production of energy from renewable sources for immediate self-consumption or through accumulation/storage systems.

In order to implement the investment into the Scheme, Italy and Invitalia SpA shall sign an Implementing Agreement that shall include the following content:

1. Description of the decision-making process of the Scheme: The final investment decision of the Scheme shall be taken by an investment committee or other relevant equivalent governing body and approved by a majority of votes from members who are independent from the government.
2. Key requirements of the associated investment policy, which shall include:
 - a) The description of the type of support provided and eligible final beneficiaries.

⁹⁶ In particular, the scheme refers to annexes A and B of law 11 December 2016, n. 232.

⁹⁷ Final beneficiaries associated to specific projects shall be required to provide a justification of the selected intervention field for each project supported, together with a description of the project, for the purpose of the computation of the climate contribution. The implementing partner shall also be required to provide to the Member State a semi-annual report on the implementation of each project/activity.

- b) The requirement that all investments supported are economically viable.
- a. The requirement to comply with the ‘Do no significant harm’ (DNSH) principle as set out in the DNSH Technical Guidance (2021/C58/01). In particular, in the case of general support to corporates, the investment policy shall exclude companies with a substantial focus⁹⁸ in the following sectors: (i) fossil fuel-based energy production and related activities⁹⁹; (ii) energy-intensive and/or high CO2-emitting industries¹⁰⁰; (iii) production, rental, or sale of polluting vehicles¹⁰¹; (iv) waste collection, waste treatment and disposal¹⁰², (v) processing of nuclear fuel, production of nuclear energy. Furthermore, the investment policy shall require compliance with the relevant EU and national environmental legislation of the final beneficiaries of the Scheme.
- c) The requirement that final beneficiaries of the Scheme shall not receive support from other Union instruments to cover the same cost.
- 3. The amount covered by the Implementing Agreement, the fee structure for the Implementing Partner and the requirement to invest any unused proceeds of the scheme, including beyond 2026, for the same policy purposes.
- 4. Monitoring, audit, and control requirements, including:
 - i) The description of the implementing partner’s monitoring system to report on the investment mobilized.
 - ii) The description of the implementing partner’s procedures that shall ensure the prevention, detection and correction of fraud, corruption, and conflicts of interests.
 - iii) The obligation to verify the eligibility of every operation in accordance with the requirements laid out in the Implementing Agreement before committing to finance an operation.
 - iv) The obligation of carrying out risk-based ex-post audits in accordance with an audit plan of Invitalia SpA. These audits shall verify i) that the control systems are effective, including the detection of fraud, corruption, and conflict of interests; ii) compliance with the DNSH principle, the State Aid rules, the climate target requirements; and iii) that the requirement that final beneficiaries of the Scheme have not received support from other Union instruments to cover the same cost is respected. The audits shall also verify the legality of the transactions and that the conditions of the applicable Implementing Agreement are being respected.

⁹⁸ It is considered that a Final Beneficiary has a “substantial focus” on a sector or business activity if such sector or activity is identified as being an essential part of the business activity of the Final Beneficiary respectively in relation to the gross revenue, profit, or client base of the Final Beneficiary. The gross revenue generated from the restricted sector or activity shall, in any case, not exceed 50% of the gross revenue.

⁹⁹ Except for (a) assets and activities in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the ‘Do no significant harm’ Technical Guidance (2021/C58/01) and (b) activities and assets under point (ii) for which the use of fossil fuels is temporary and technically unavoidable for the timely transition towards a fossil fuel free operation.

¹⁰⁰ Including activities and assets under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks. Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks, an explanation of the reasons why this is not possible shall be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447.

¹⁰¹ Polluting vehicles are defined as non-zero-emission vehicles.

¹⁰² This exclusion does not apply to actions in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants’ waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

Investment 17. Financial instrument for energy renovations of public residential housing

The objective of the measure is to support renovation of public residential housing. This measure shall consist of a public investment in a Facility, the “Financial instrument to alleviate energy poverty”, in order to incentivise private investment and improve access to finance. The instrument shall target energy renovations in public residential housing achieving on average at least a 30% of primary energy demand reduction¹⁰³.

The Facility shall be managed by two Implementing Partners.

- The Gestore Servizi Energetici (GSE Spa) as technical partner responsible for the grant component;
- Cassa Depositi e Prestiti (CDP Spa) as financial partner and responsible for the (optional) loan component.

The facility shall provide financial support in the form of grants and/or loans to Energy Service Companies (ESCOs) for the energy renovation of public residential housing, achieving on average at least a 30% of primary energy demand reduction.

The Facility shall include the following product lines to support public residential housing:

- A grant component provided by the technical partner Gestore Servizi Energetici Spa covering a maximum of 65% of total costs;
- An optional loan component covering 35% of total costs. The loan component can be provided by the financial partner Cassa Depositi e Prestiti

In order to implement the investment into the Facility, Italy and the Implementing Partner(s) shall sign Implementing Agreement(s) that shall include the following content:

1. Description of the decision-making process of the Facility: The final investment decision of the Facility shall be taken by an investment committee or other relevant equivalent governing body and approved by a majority of votes from members who are independent from the government.
2. Key requirements of the associated investment policy, which shall include:
 - a. The description of the financial product(s) and eligible final beneficiaries.
 - b. The requirement that all investments supported are economically viable.
 - c. The requirement to comply with the ‘Do no significant harm’ (DNSH) principle as set out in the DNSH Technical Guidance (2021/C58/01). In particular, the investment policy shall exclude the following list of activities and assets from eligibility: (i) activities and assets related to fossil fuels, including downstream use¹⁰⁴, (ii) activities and assets under the EU Emission Trading System (ETS) achieving projected greenhouse gas emissions that are not lower than the relevant benchmarks¹⁰⁵, (iii) activities and assets related to waste landfills, incinerators¹⁰⁶ and mechanical biological treatment plants¹⁰⁷.

¹⁰³ Final beneficiaries associated to specific projects shall be required to provide a justification of the selected intervention field for each project supported, together with a description of the project, for the purpose of the computation of the climate contribution. The implementing partner shall also be required to provide to the Member State a semi-annual report on the implementation of each project/activity.

¹⁰⁴ Except for (a) assets and activities in power and/or heat generation, as well as related transmission and distribution infrastructure, using natural gas, that are compliant with the conditions set out in Annex III of the ‘Do no significant harm’ Technical Guidance (2021/C58/01) and (b) activities and assets under point (ii) for which the use of fossil fuels is temporary and technically unavoidable for the timely transition towards a fossil fuel free operation.

¹⁰⁵ Where the activity supported achieves projected greenhouse gas emissions that are not significantly lower than the relevant benchmarks, an explanation of the reasons why this is not possible shall be provided. Benchmarks established for free allocation for activities falling within the scope of the Emissions Trading System, as set out in the Commission Implementing Regulation (EU) 2021/447.

¹⁰⁶ This exclusion does not apply to actions under this measure in plants exclusively dedicated to treating non-recyclable hazardous waste, and to existing plants, where the actions under this measure are for the purpose of increasing energy

- d. The requirement that final beneficiaries of the Facility shall not receive support from other Union instruments to cover the same cost. The financial support provided via the loan component of the instrument shall not cover the same cost supported by the grant component of this instrument.
3. The amount covered by the Implementing Agreement, the fee structure for the Implementing Partner and the requirement to reinvest any reflows according to the investment policy of the Facility unless they are used to service loan repayments of the Recovery and Resilience Facility.
 4. Monitoring, audit, and control requirements, including:
 - a. The description of the implementing partner's monitoring system to report on the investment mobilized.
 - b. The description of the implementing partner's procedures that shall ensure the prevention, detection and correction of fraud, corruption, and conflicts of interests.
 - c. The obligation to verify the eligibility of every operation in accordance with the requirements laid out in the Implementing Agreement before committing to finance an operation.
 - d. The obligation of carrying out risk-based ex-post audits in accordance with an audit plan of Gestore dei Servizi Energetici (GSE), and of Cassa Depositi e Prestiti (CDP) . These audits shall verify i) that the control systems are effective, including the detection of fraud, corruption, and conflict of interests; ii) compliance with the DNSH principle, the State Aid rules, the climate target requirements; and iii) that the requirement that final beneficiaries of the Facility have not received support from other Union instruments to cover the same cost is respected. The audits shall also verify the legality of the transactions and that the conditions of the applicable Implementing Agreement are being respected.

efficiency, capturing exhaust gases for storage or use or recovering materials from incineration ashes, provided such actions under this measure do not result in an increase of the plants' waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

¹⁰⁷ This exclusion does not apply to actions under this measure in existing mechanical biological treatment plants, where the actions under this measure are for the purpose of increasing energy efficiency or retrofitting to recycling operations of separated waste to compost bio-waste and anaerobic digestion of bio-waste, provided such actions under this measure do not result in an increase of the plants' waste processing capacity or in an extension of the lifetime of the plants; for which evidence is provided at plant level.

Q.4. Milestones, targets, indicators, and timetable for monitoring and implementation for the loan

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name	Qualitative indicators (for milestones)	Quantitative indicators (for targets)			Indicative timeline for completion		Description of each milestone and target
					Unit of measure	Baseline	Goal	Quarter	Year	
M7-35	Investment 13: Adriatic Line Phase 1 (Sulmona compressor station and Sestino-Minerbio gas pipeline)	Milestone	Adoption and update of relevant environmental impact assessments (VincA)	SSCOs identified and VincA revised and adopted accordingly				Q1	2024	<p>The Italian authorities shall:</p> <ul style="list-style-type: none"> Establish the site-specific conservation objectives (SSCOs) for the Natura 2 000 sites affected by the project according to the methodology adopted by the Ministry of Environment and Energy Security in 2021 and 2023. Verify the appropriate assessments already carried out under the Habitats Directive (VINCAs) in the light of the newly established SSCO. Update (if needed) of the appropriate assessments (VINCAs) already carried out under the Habitats Directive in line with the national guidelines of 28 December 2019 and ensure their integration into the overall environmental impact assessment procedure.
M7-36	Investment 13: Adriatic Line Phase 1 (Sulmona compressor station and Sestino-Minerbio gas pipeline)	Milestone	Award of contracts	Notification of the award of contracts				Q2	2024	Notification of the award of all contracts for the works necessary for the construction of the Sulmona compressor station and Sestino-Minerbio gas pipeline.

M7-37	Investment 13: Adriatic Line Phase 1 (Sulmona compressor station and Sestino-Minerbio gas pipeline)	Milestone	Completion of works	Certificates of completion of works issued				Q2	2026	The completion certificate for the works on the Sulmona compressor station and Sestino-Minerbio gas pipeline is issued for an increase in the technical capacity of gas transport of 14 mcm/day.
M7-38	Investment 14: Cross-border gas export infrastructure	Milestone	Award of contracts	Notification of the award of contracts				Q2	2024	Notification of the award of all the contracts for the works necessary for the completion of the Poggio Renatico compressor station
M7-39	Investment 14: Cross-border gas export infrastructure	Milestone	Completion of works	Certificate of completion of works issued				Q2	2026	The completion certificate for the works on the compression unit in the Poggio Renatico compressor station is issued for an increase in technical capacity of gas export via the Tarvisio Exit Point by 8 bcm/y.
M7-40	Investment 15: Transizione 5.0	Milestone	Entry into force of the legal act establishing the criteria of eligible interventions	Provision in the law indicating the entry into force of the law				Q1	2024	The legal act shall make Transition 5.0 tax credits available to potential recipients, determining the eligibility criteria, also in terms of minimum energy savings, and the maximum expenditure cap for the measure.
M7-41	Investment 15: Transizione 5.0	Target	Granting of RRF resources	N/A	Amount of granted resources (EUR)	0	2 500 000 000	Q2	2026	Notification of the granting of all RRF resources earmarked for this investment. At least EUR 1 135 000 000 of the investment shall contribute to the climate change objectives in accordance with Annex VI to the RRF Regulation.
M7-42	Investment 15: Transizione 5.0	Target	0.16 Mtoe of energy savings in final energy consumptions in the period 2024-2026	N/A	MTOE	0	0.16	Q2	2026	The investment shall generate 0.16 MTOE of energy savings in final energy consumptions in the period 2024-2026.

M7-43	Investment 16: Support to SMEs for self-production from renewable energy sources	Milestone	Implementing Agreement	Entry into force of the Implementing Agreement				Q4	2024	Entry into force of the Implementing Agreement.
M7-44	Investment 16: Support to SMEs for self-production from renewable energy sources	Milestone	The Ministry of Enterprises and Made in Italy has completed the transfer of funds to Invitalia	Certificate of transfer				Q4	2024	Italy shall transfer EUR 155 000 000 to Invitalia for the Facility.
M7-45	Investment 16: Support to SMEs for self-production from renewable energy sources	Target	Legal agreements with final beneficiaries	N/A	Percentage(%)	0	100%	Q2	2026	Invitalia S.p.A. shall have entered into legal agreements with final beneficiaries for an amount necessary to use 100% of the RRF investment into the Scheme (taking into account management fees).
M7-46	Investment 17: Financial instrument for energy renovations of public residential housing	Milestone	Definition of the target of the terms of reference	Entry into force of the act with the definition of the terms of reference of the financial instrument				Q3	2024	Define the terms of reference of the financial instrument, which shall target energy renovations in public residential housing.
M7-47	Investment 17: Financial instrument for energy renovations of public residential housing	Milestone	Implementing Agreement	Entry into force of the Implementing Agreement				Q2	2025	Entry into force of the Implementing Agreement(s) in line with the requirements specified in the description of the measure. In particular the Implementing Agreement(s) shall include eligibility criteria concerning the minimum energy efficiency improvement that the instrument shall achieve (on average at least 30% of primary energy demand reduction). The selection criteria shall also prioritize interventions with highest returns in term of

										energy efficiency.
M7-48	Investment 17: Financial instrument for energy renovations of public residential housing	Milestone	Ministry has completed the investment	Certificate of transfer		N/A	N/A	Q2	2025	Italy shall transfer EUR 1 381 000 000 to the Implementing Partner(s) for the Facility.
M7-49	Investment 17: Financial instrument for energy renovations of public residential housing	Target	Legal agreements signed with final beneficiaries		Percentage (%)	0%	100%	Q2	2026	The Implementing Partner(s) shall have entered into legal financing agreements with Energy Service Companies (ESCOs) for an amount necessary to use 100% of the RRF investment into the Facility (taking into account management fees). The financing agreements with Energy Service Companies (ESCOs) shall specify the asset that will be subject to energy efficiency renovation.

2. ESTIMATED TOTAL COST OF THE RECOVERY AND RESILIENCE PLAN

The estimated total cost of the recovery and resilience plan of Italy is EUR 194 435 381 164.

The estimated total cost of the REPowerEU chapter is EUR 7 212 200 000. In particular, the estimated total costs of the measures referred to in Article 21c(3), point (a) of Regulation (EU) 2023/435 is EUR 420 000 000 whilst the costs of the other measures in the REPowerEU chapter is EUR 6 792 200 000.

SECTION 2: FINANCIAL SUPPORT

1. Financial contribution

The instalments referred to in Article 2(2) shall be organised in the following manner:

1.1. First Instalment (non-repayable support):

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M1C1-51	Reform 1.9: Reform of the public administration	Milestone	Entry into force of primary legislation on the governance of the Italian recovery and resilience plan
M1C1-52	Reform 1.9: Reform of the public administration	Milestone	Entry into force of primary legislation on simplification of administrative procedures for the implementation of the Italian recovery and resilience plan.
M1C1-53	Investment 1.9: Provide technical assistance and strengthen capacity building for the implementation of the Italian recovery and resilience plan	Milestone	Entry into force of primary legislation to provide technical assistance and strengthen capacity building for the implementation of the Italian recovery and resilience plan
M1C1-69	Reform 1.10: Reform of the public procurement legislative framework	Milestone	Entry into force of the Decree on simplification of the public procurement system
M1C1-1	Reform 1.1: ICT Procurement	Milestone	Entry into force of law decrees for reform 1.1 'ICT Procurement'
M1C1-2	Reform 1.3: Cloud First and Interoperability	Milestone	Entry into force of law decrees for reform 1.3 'Cloud First and Interoperability'
M1C1-29	Reform 1.4: Reform of the civil justice	Milestone	Entry into force of enabling legislation for the civil Justice reform
M1C1-30	Reform 1.5: Reform of criminal justice	Milestone	Entry into force of enabling legislation for criminal justice reform
M1C1-31	Reform 1.6: Reform of insolvency framework	Milestone	Entry into force of enabling legislation for insolvency reform framework
M1C1-32	Investment 1.8: Recruitment procedures	Milestone	Entry into force of special legislation governing National Recovery and Resilience Plan recruitment

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
	for civil, criminal and administrative courts		
M1C1-54	Investment 1.9: Provide technical assistance and strengthen capacity building for the implementation of the Italian recovery and resilience plan	Target	Completed recruitment of experts for the implementation of the Italian recovery and resilience plan
M1C1-55	Reform 1.9: Reform of the public administration	Milestone	Extending the methodology applied to the Italian recovery and resilience plan to national budget to increase absorption of investment
M1C1-68	Reform 1.9: Reform of the public administration	Milestone	Repository system for Audit and Controls: information for monitoring implementation of RRF
M1C1-71	Reform 1.10: Reform of the public procurement legislative framework	Milestone	Entry into force of all necessary legislation, regulations and implementing acts (including secondary legislation) for the public procurement system
M1C1-100	Reform 1.13: Reform of the spending review framework	Milestone	Entry into force of legislative provisions improving the effectiveness of the spending review - Reinforcement of Finance Ministry
M1C1-101	Reform 1.12: Reform of the tax administration	Milestone	Adoption of a review of possible actions to reduce tax evasion
M1C2-1	Investment 1: Transition 4.0	Milestone	Entry into force of legal acts to make Transition 4.0 tax credits available to potential beneficiaries and establishment of the Scientific Committee
M1C3-8	Investment – 4.1 Digital Tourism Hub	Milestone	Award of the contracts for the development of the Digital Tourism Portal
M2C2-7	Reform 2 New legislation to promote renewable gas production and consumption	Milestone	Entry into force of a Legislative Decree to promote the use of renewable gas for the use of biomethane in the transport, industrial and residential sectors and an Implementing Decree setting out the conditions and criteria in relation to its use and the new incentive system.
M2C2-37	Reform 5: Smarter procedures for project evaluation in the local public transport systems sector with fixed installations and in the rapid mass transport sector	Milestone	Entry into force of a Decree Law
M2C2-41	Investment 5.3: Electric buses	Milestone	Entry into force of a Ministerial Decree which identifies the amount of available resources for reaching the purpose of intervention (busses supply chain)
M2C3-1	Investment 2.1- Strengthening of the Ecobonus for energy efficiency	Milestone	Entry into force of the extension of the Superbonus
M2C4-3	Reform 4.2 “Measures to ensure full managerial capacities for Integrated water services”	Milestone	Reform of the legal framework for a better management and a sustainable use of water
M3C2-3	Reform 2.1- Implementation of a	Milestone	Entry into force of the Decree on the Single Customs Desk (Sportello Unico Doganale)

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
	Single Customs Window ("Sportello Unico Doganale")		
M4C1-1	Reform 1.5: University degree groups reform; Reform 1.6: Enabling university degrees reform; Reform 4.1: Ph.D. Programmes Reform	Milestone	Entry into force of the reforms of the tertiary education system to improve educational outcomes (primary legislation) on: a) enabling university degrees; b) university degree groups; c) reform of PhD programs
M4C1-2	Investment 1.7: Scholarships for University access	Milestone	Entry into force of ministerial decrees for reform on scholarships to enhance access to tertiary education
M5C1-1	Reform 1- ALMPs and Vocational Training	Milestone	Entry into force of the Inter-Ministerial Decree establishing a National programme for the Guaranteed Employability of Workers (GOL) and an Inter-Ministerial Decree establishing a National Plan for New Skills
M5C2-1	Reform 1- Framework law for disability	Milestone	Entry into force of the Framework Law to strengthen the autonomy of people with disabilities.
M5C2-5	Investment 1 - Supporting vulnerable people and preventing institutionalization	Milestone	Entry into force of the operational Plan
		Instalment Amount	EUR 11 494 252 874

1.2. Second Instalment (non-repayable support):

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M2C4-5	Investment 3.2: Digitization of national parks	Milestone	Entry into force of the administrative simplification and development of digital services to visitors to national parks and marine protected areas
M5C2-9	Investment 3 - Housing First and Post Stations	Milestone	Entry into force of the operational Plan regarding projects on Housing First and Post Stations, defining the requirements of projects that can be presented by local entities, and launch of call for proposal
M1C1-33	Investment 1.8: Recruitment procedures for administrative courts	Target	Start of the recruitment procedures for administrative courts
M1C1-56	Reform 1.9: Reform of the public administration	Milestone	Entry into force of the enabling legislation for the reform of public employment
M1C1-70	Reform 1.10: Reform of the public procurement legislative framework	Milestone	Entry into force of the revision of the Code of Public procurement (D.Lgs. n. 50/2016)
M1C1-103	Reform 1.12: Reform of the tax administration	Milestone	Entry into force of primary and secondary legislation and regulatory provisions and completion of administrative processes for encouraging tax compliance and improving audits and controls
M1C1-104	Reform 1.13: Reform of	Milestone	Adoption of savings targets for spending reviews for

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
	the spending review framework		the years 2023-2025
M1C3-11	Investment 1.3 – Improve energy efficiency in cinema, theatres and museums	Milestone	Entry into force of the Ministry of Culture decree for the allocation of resources: to improve energy efficiency in places of culture
M2C1-1	Reform 1.1 - National Strategy for Circular Economy	Milestone	Entry into force of the Ministerial Decree for the adoption of the National Strategy for Circular Economy
M2C1-2	Reform 1.3 - Technical support for Local Authorities	Milestone	Approval of agreement for the development of the Building capacity action plan to support local public authorities
M2C1-11	Investment 3.3: Culture and awareness on environmental topics and challenges	Milestone	Launch of web platform and contracts with authors
M2C2-18	Investment 3.5 Hydrogen Research and Development	Milestone	Award of all public R&D contracts to research projects on hydrogen
M2C2-21	Reform 4 Measures to promote hydrogen competitiveness	Milestone	Entry into force of fiscal incentives
M2C2-38	Investment 5.1: Renewables and batteries	Milestone	Entry into force of a Ministerial Decree
M2C2-42	Investment 5.4: Equity injection into the Green Transition Fund (“GTF”)	Milestone	Signature of the financial Agreement
M2C3-4	Reform 1.1: Simplification and acceleration of procedures for energy efficiency interventions	Milestone	Simplification and acceleration of procedures for energy efficiency interventions
M2C4-1	Reform 2.1. Simplification and acceleration of the procedures for implementing interventions against hydrogeological instability	Milestone	Entry into force of the simplification of the legal framework for a better management of hydrological risks
M2C4-4	Reform 4.2 “Measures to ensure full managerial capacities for Integrated water services	Milestone	Entry into force of the new legal framework of irrigation purposes
M4C1-3	Reform 2.1: Teachers’ recruitment	Milestone	Entry into force of the reform on teaching profession.
M4C1-4	Investment 3.2: School 4.0: innovative schools, wiring, new classrooms and workshops	Milestone	School 4.0 Plan to foster the digital transition of the Italian school system is adopted
M4C2-4	Reform 1.1: Implementation of R&D support measures to foster simplification and mobility	Milestone	Entry into force of Ministerial Decrees on R&D simplification and mobility linked to the ordinary financing fund.
		Instalment	EUR 11 494 252 874

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
		Amount	

1.3. Third Instalment (non-repayable support):

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M2C4-2	Reform 4.2 “Measures to ensure full managerial capacities for Integrated water services”	Milestone	Entry into force of the reform to ensure full managerial capacities for Integrated water services
M1C1-3	Investment 1.1: Digital infrastructure	Milestone	Completion of the Polo Strategico Nazionale (PSN)
M1C1-4	Investment 1.3.1: National Digital Data Platform	Milestone	National Digital Data Platform operational
M1C1-5	Investment 1.5: Cybersecurity	Milestone	Creation of the new National Cyber Security Agency
M1C1-6	Investment 1.5: Cybersecurity	Milestone	Initial deployment of the national cybersecurity services
M1C1-7	Investment 1.5: Cybersecurity	Milestone	Startup of the network of cybersecurity screening and certification laboratories
M1C1-8	Investment 1.5: Cybersecurity	Milestone	Activation of a Central Audit Unit for PSNC & NIS security measures
M1C1-9	Investment 1.5: Cybersecurity	Target	Support to the upgrade of security structures T1
M1C1-10	Reform 1.2: Transformation support	Milestone	Entry into force of the setup of Transformation Team and NewCo
M1C1-34	Investment 1.8: Recruitment procedures for the office of trial for civil and criminal Courts	Target	Start of the recruitment procedures for civil and criminal courts
M1C1-35	Reform 1.7: Reform of tax courts	Milestone	Comprehensive reform of tax courts of first and second instance
M1C1-36	Reforms 1.4, 1.5 and 1.6: Reform of civil and criminal justice and insolvency reform	Milestone	Entry into force of delegated acts for the civil and criminal justice reforms and of the insolvency reform
M1C1-57	Reform 1.9: Reform of the public administration	Milestone	Entry into force of administrative procedures for the simplification reform aimed at implementing the RRF
M1C1-102	Reform 1.13: Reform of the spending review framework	Milestone	Adoption of a report on the effectiveness of practices used by selected public administrations for formulating and implementing saving plans
M1C1-105	Reform 1.12: Reform of the tax administration	Target	Higher number of "compliance letters"
M1C1-106	Reform 1.12: Reform of the tax administration	Target	Reducing the number of false positive "compliance letters"
M1C1-107	Reform 1.12: Reform of the tax administration	Target	Increase in the tax revenue generated by "compliance letters"
M1C2-6	Reform 2: Annual Competition Laws	Milestone	Entry into force of the Annual Competition Law 2021
M1C2-7	Reform 2: Annual Competition Laws	Milestone	Entry into force of all energy-related implementing measures and secondary legislation (if necessary)
M1C2-8	Reform 2: Annual Competition Laws	Milestone	Entry into force of all implementing

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
			measures (included secondary legislation, if necessary) for the effective implementation and application of the measures stemming from the 2021 Annual Competition Law
M1C3-6	Reform – 3.1 Minimum Environmental Criteria for Cultural events	Milestone	Entry into force a decree defining social and environmental criteria in public procurement tenders concerning cultural events publicly financed
M2C1-3	Investment 2.1: Logistics plan for the agri-food, fishing and aquaculture, forestry, floriculture and plant nursery sectors	Milestone	Publication of final ranking under the Logistic incentive scheme
M2C1-4	Investment 2.2: Agri-solar Park	Target	Allocation of resources to the beneficiaries as % of the total financial resources assigned to the investment
M2C2-8	Investment 2.1 Strengthening smart grids	Milestone	Award of (all) public contracts for to increase the network capacity
M2C2-12	Investment 2.2 Interventions to increase the resilience of power grid	Milestone	Award of the projects to increase the resilience of the electricity system network
M3C2-1	Reform 1.1- Simplification of procedures for the strategic planning process	Milestone	Entry into force of legislative modifications related to the simplification of the procedures for the strategic planning process
M3C2-2	Reform 1.2- Competitive award of concessions in Italian ports	Milestone	Entry into force of the Regulation on port concessions
M3C2-4	Reform 1.3- Simplification of authorisation procedures for cold ironing plants	Milestone	Entry into force of the simplification of authorisation procedures for cold ironing plants
M4C1-5	Reform 1.3: Reorganisation of the school system; Reform 1.2: Reform of the tertiary vocational training system (ITS); Reform 1.1: Reform of Technical and Professional Institutes; Reform 1.4: Reform of the “Orientation” system	Milestones	Entry into force of the reforms of the primary and secondary education system to improve educational outcomes
M4C1-6	Reform 2.2: Tertiary advanced school and continuous training for school managers, teachers, administrative and technical staff	Milestone	Entry into force of legislation aimed at building a quality training system for school.
M4C2-1	Investment 1.2: Funding projects presented by young researchers	Target	Number of students awarded of a research grant
M5C1-2	Reform 1 - ALMPs and Vocational Training	Milestone	Entry into force at the Regional level of all plans for the Public Employment Services (PES)
M5C1-6	Investment 1 - Strengthening Public Employment Services (PES)	Target	Public Employment Services (PES) are implementing the activities envisaged in the Strengthening Plan over the three years period 2021-2023
M5C1-8	Reform 2 - Undeclared Work	Milestone	Entry into force of a National Plan and implementation Road Map to fight undeclared work across all

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
			economic sectors.
M5C1-12	Investment 2 - Gender equality certification system	Milestone	Entry into force of gender equality certification system and accompanying incentive mechanisms for companies
M5C2-7	Investment 2 - Autonomy patterns for people with disabilities	Target	Social districts have delivered at least one project in relation to the renovation of home spaces and/or provision of ICT devices to disabled people, accompanied by training on digital skills
M5C3-1	Investment 1.1.1: Inner Areas- Enhancement of community social services and infrastructures	Milestone	Award of the tender for the interventions to improve social services and infrastructures in Inner Areas and for the support to pharmacies in municipalities of less than 3 000 inhabitants
M6C2-1	Reform 1: Revise and update the current legal framework of the Scientific Institutes for Hospitalisation and Care (IRCCS) and research policies of the Ministry of Health to strengthen the link between research, innovation and healthcare	Milestone	Entry into force of the legislative decree envisaging the reorganisation of the regulations governing the Scientific institutes for hospitalisation and care (IRCSS)
		Instalment Amount	EUR 11 494 252 874

1.4. Fourth Instalment (non-repayable support):

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M1C1-11	Investment 1.6.6: Digitization of the Finance Police	Target	Finance Police - Purchase of professional data science services T1
M1C1-72	Reform 1.11: Reduction of late payments by public administrations and health authorities	Milestone	Measures to reduce late payments from the public administration to businesses are approved
M1C1-73	Reform 1.10: Reform of the public procurement legislative framework	Milestone	Entry into force of the reform of the Public Procurement Code
M2C2-14	Investment 3.3 Hydrogen testing for road transport	Milestone	Award of (all) public contracts for the development of re-charging stations based on hydrogen
M2C2-16	Investment 3.4 Hydrogen testing for railway mobility	Milestone	Allocation of resources for hydrogen testing for railway mobility
M2C2-20	Reform 3 Administrative simplification and reduction of regulatory barriers to hydrogen deployment	Milestone	Entry into force of the necessary legislative actions
M5C2-3	Reform 2 - Reform for non-self-sufficient elderly persons	Milestone	Entry into force of a Framework Law which strengthens the actions in favour of non self-sufficiency elderly people

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M1C1-37	Reforms 1.4 and 1.5: Reform of civil and criminal justice	Milestone	Entry into force of the civil and criminal justice reform
M1C1-58	Reform 1.9: Reform of the public administration	Milestone	Entry into force of legal acts for the reform of public employment
M1C1-74	Reform 1.10: Reform of the public procurement legislative framework	Milestone	Entry into force of all necessary implementing measures and secondary legislation for the reform on simplification of the public procurement code
M1C1-109	Reform 1.12: Reform of the tax administration	Target	Sending first pre-populated VAT tax returns
M2C2-27	Investment 4.3 Installation of charging infrastructures	Milestone	Award of all public contracts for the installation of charging infrastructures M1
M2C2-33	Investment 4.4.2: Strengthening of the regional public transport railway fleet with zero emission trains and universal service	Milestone	Award of all public contracts for the strengthening of regional public transport railway fleet with zero emission trains and universal service
M2C3-2	Investment 2.1- Strengthening of the Ecobonus for energy efficiency	Target	Building renovation Superbonus T1
M4C1-9	Investment 1.1: Plan for nurseries and preschools and early childhood education and care services	Milestone	Award of contracts for building, renovating and ensuring the safety of nurseries, preschools and early childhood education and care services
M5C3-8	Investment 1.3: Structured socio-educational interventions to combat educational poverty in the South supporting the Third Sector	Target	Educational support to minors (first batch)
		Instalment Amount	EUR 2 315 646 882

1.5. Fifth Instalment (non-repayable support):

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M1C2-4	Reform 1: Reform of the Industrial Property System	Milestone	Entry into force of a Legislative Decree aimed at reforming the Italian industrial property code and the relevant implementing acts
M1C3-4	Investment - 1.3 Improve energy efficiency in cinema, theatres and museums	Target	Interventions on State museums and cultural sites, theatrical halls and cinemas concluded (first batch)
M1C1-12	Investment 1.3.2: Single Digital Gateway	Target	Single Digital Gateway
M1C1-13	Investment 1.4.6: Mobility as a Service for Italy	Milestone	Mobility as a Service solutions M1
M1C1-38	Reform 1.8: Digitalisation of Justice	Milestone	Digitalisation of the justice system
M1C1-59	Reform 1.9: Reform of the public administration	Milestone	Entry into force of strategic human resource management in the Public

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
			Administration
M1C1-73quater	Reform 1.10: Reform of the public procurement legislative framework	Milestone	Entry into force of guidelines on below-EU threshold procurement
M1C1-75	Reform 1.10: Reform of the public procurement legislative framework	Milestone	Full operation of the National eProcurement System
M1C1-84	Reform 1.10: Reform of the public procurement legislative framework	Target	Average time between the publication and the contract award
M1C1-86	Reform 1.10: Reform of the public procurement legislative framework	Target	Civil servants trained through the Public Buyers Professionalization Strategy
M1C1-87	Reform 1.10: Reform of the public procurement legislative framework	Target	Contracting authorities using dynamic purchasing systems

M1C1-79	Reform 1.11: Reduction of late payments by public administrations and health authorities	Target	Average number of days for public health authorities to pay businesses is reduced
M1C1-25	Investment 1.6.6: Digitization of the Finance Police	Milestone	Evolve the information systems in use for fighting economic crime
M1C1-62	Reform 1.9: Reform of the public administration	Milestone	Increase absorption of investment
M1C1-115	Reform 1.13: Reform of the spending review framework	Milestone	Completion of the yearly spending review for 2024, with reference to the saving target set in 2022 and 2023 for 2024
M1C2-3	Investment 1: Transition 4.0	Target	Transition 4.0 tax credits granted to firms based on tax returns presented in 2021-2023
M4C1-16	Investment 3.1: New skills and new languages	Milestone	Adoption of grant award decision(s) for the activation of STEM projects
M4C1-17	Investment 3.1: New skills and new languages	Milestone	New Skills
M4C2-1 bis	Investment 1.2: Funding projects presented by young researchers	Milestone	Publication of the decree(s) awarding the funding to young researchers
M6C2-2	Investment 2.1: Strengthening and enhancement of the NHS biomedical research	Target	Research projects funded on PoC (Proof of Concept) and rare cancers and diseases
M6C2-3	Investment 2.1: Strengthening and enhancement of the NHS biomedical research	Target	Research projects funded on diseases with a high impact on health
M7-2	Reform 1: Streamlining permitting procedures for renewable energy	Milestone	Entry into force of the legal act (Testo Unico)
M7-25	Investment 8: Sustainable, circular and secure supply of Critical Raw Materials	Milestone	Publication of the report on the future needs for CRM and the potential of eco-design
M1C2-14bis	Reform 3: Rationalization and simplification of incentives for firms.	Milestone	Publication of the report evaluation all incentives for firms
M5C1-15	Investment 3 - Strengthening the dual system	Target	Certificates issued through the dual education system
M2C1-12	Investment 3.3: Culture and awareness on environmental topics and challenges	Target	Podcasts on environmental transition

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M4C1-19	Investment 3.2: School 4.0: innovative schools, wiring, new classrooms and workshops	Milestone	Adoption of grant award decision(s) for the purchase of digital devices and/or the creation of digital laboratories
M1C1-98bis	Reform 1.10: Reform of the public procurement legislative framework	Target	Civil servants trained through the Public Buyers Professionalization Strategy
		Instalment Amount	EUR 3 541 589 877

1.9. Ninth Instalment (non-repayable support):

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M4C1-7	Investment 1.4: Extraordinary intervention aimed at the reduction of territorial gaps in I and II cycles of secondary school and at tackling school drop-out	Target	Students or young people who have participated mentoring activities or training courses
M4C1-14 bis	Reform 2.1: Teachers' recruitment	Target	Teachers recruited with the reformed recruitment system
M7-6	Reform 3: Reduction of the costs of connection to the gas network of biomethane	Milestone	Entry into force of legislation to reduce the costs of connection to the gas network of biomethane production plants
M7-10	Reform 5: Plan for new Skills - Transitions	Milestone	Entry into force of legal act(s) for regions and autonomous province(s)
M1C1-24	Investment 1.7.1: Digital Civil Service	Target	Volunteers are trained
M1C1-96	Reform 1.10: Reform of the public procurement legislative framework	Target	Average time between the submission of tenders and the contract award
M1C1-116	Reform 1.12: Reform of the tax administration	Target	Reduction of tax evasion as defined by the indicator "propensity to evade"
M1C2-5	Investment 6: Investment in the Industrial Property System	Target	Provision of final activities report for at least 254 projects related to Industrial Property and research
M1C2-13	Reform 2: Annual Competition Laws	Milestone	Entry into force of the Annual Competition Law 2025
M1C2-14	Reform 2: Annual Competition Laws	Target	Millions of 2G smart meters deployed.
M1C3-2	Investment - 1.1 Digital Strategy and Platforms for Cultural Heritage	Target	Published digital and media resources
M1C3-5	Investment – 1.3 Improve energy efficiency in cinema, theatres and museums	Target	Interventions on State museums and cultural sites, theatrical halls and cinemas are concluded (second batch)
M2C3-3	Investment 2.1- Strengthening of the Ecobonus for energy efficiency	Target	Building renovation Superbonus T2
M4C1-13	Investment 2.1: Integrated digital	Target	Training of school managers,

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
	teaching and training on the digital transformation for school staff ;		teachers and administrative staff
M4C2-2bis	Investment 2.2 bis: Innovation Agreements	Target	Innovation Agreements completed
M5C1-3	Reform 1 - ALMPs and Vocational Training	Target	People benefitting from the Guaranteed Employability of Workers (GOL) Programme
M5C1-4	Reform 1 - ALMPs and Vocational Training	Target	People participated in training programmes
M5C1-7	Investment 1 - Strengthening Public Employment Services (PES)	Target	Public Employment Services (PES) have finalised the activities envisaged in the Strengthening Plan
M5C1-10	Reform 2 - Undeclared Work	Target	Increased number of labour inspections and membership of the agricultural network
M5C3-9	Investment 1.3: Structured socio-educational interventions to combat educational poverty in the South supporting the Third Sector	Target	Educational support to minors (second batch)
M7-3	Reform 1: Streamlining permitting procedures for renewable energy	Milestone	Establishment of the single-entry digital platform for authorizations related to renewables
M7-5	Reform 2: Reduction of Environmental Harmful Subsidies	Milestone	Entry into force of primary and secondary legislation.
M7-26	Investment 8: Sustainable, circular and secure supply of Critical Raw Materials	Target	Geographical Information system (GIS) on extractive waste for the sustainable, circular and secure supply of critical raw materials
M1C1-38bis	Reform 1.8: Digitalisation of Justice	Milestone	Digitalisation of the justice system
M1C1-72quinquies	Reform 1.11: Reduction of late payments by public administrations and health authorities	Milestone	Webpage providing information and data on payments by the public administration
M1C1-72sixies	Reform 1.11: Reduction of late payments by public administrations and health authorities	Milestone	Adoption of the final audit report of the Audit Plan
M1C1-27	Investment 1.3.1: National Digital Data Platform	Target	APIs in National Digital Data Platform T2
M1C1-97ter	Reform 1.10 : Reform of the public procurement legislative framework	Milestone	Measures to improve execution speed
M4C2-4bis	Reform 1.2: Three-year plan for the financing of research activities	Milestone	Primary legislation for the adoption of the three-year plan for the financing of research activities
M7-30	Investment 10: Pilot project on skills “Crescere Green”	Target	Training modules carried out
M1C1-144	Investment 1.4.2 - Citizen inclusion - Accessibility improvement of digital public services/interventions implemented	Target	Increased accessibility of digital public services
M2C2-36	Investment 4.4.3: Renewal fleet for the National fire brigade command	Target	Number of clean vehicles for the renewal fleet for the National fire brigade command
M2C4-32	Investment 4.2. Reduction of losses in	Target	Interventions in water distribution

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
	water distribution networks, including digitization and monitoring of networks		networks, including digitization and monitoring of networks T2
M1C1-153	Investment 1.6.2 - Digitization of the Ministry of Justice	Target	Digitized judicial files T2
		Instalment Amount	EUR 7 670 089 282

1.10. Tenth Instalment (non-repayable support):

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M1C1-88	Reform 1.11: Reduction of late payments by public administrations and health authorities	Target	Average number of days for the central public authorities to pay businesses is reduced
M1C1-89	Reform 1.11: Reduction of late payments by public administrations and health authorities	Target	Average number of days for the regional public authorities to pay businesses is reduced
M1C1-90	Reform 1.11: Reduction of late payments by public administrations and health authorities	Target	Average number of days for the local public authorities to pay businesses is reduced
M1C1-91	Reform 1.11: Reduction of late payments by public administrations and health authorities	Target	Average number of days for public health authorities to pay businesses is reduced
M1C1-117	Reform 1.15: Reform of public accounting rules	Target	Public entities trained for the transition to the new accrual accounting system
M1C1-119	Reform 1.14: Reform of the subnational fiscal framework	Milestone	Definition of the parameters for the regional fiscal federalism
M1C1-120	Reform 1.14: Reform of the subnational fiscal framework	Milestone	Entry into force of the legal act defining fiscal federalism for provinces and metropolitan cities
M3C2-6	Investment 2.2: Digitalization of air traffic management	Milestone	Digitalisation of air traffic management: entry into operation of new tools
M5C1-11	Reform 2 - Undeclared Work	Target	Carry out actions to fight undeclared work
M3C2-12	Investment 2.3: Cold ironing	Target	Completion of works and acceptance of connection cost estimates by the developer for cold ironing infrastructures
M1C1-26	Investment 1.1: Digital infrastructure	Target	Migration to the Polo Strategico Nazionale or to a secure, certified public cloud environment
M1C1-28	Investment 1.7.2: Network of digital facilitation services	Target	Number of citizens participating in digital education and/or facilitation initiatives provided by digital facilitation centres
M1C1-45	Reform 1.4: Reform of civil justice	Target	Reduction in the length of civil proceedings

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M1C1-46	Reform 1.5: Reform of criminal justice	Target	Reduction in the length of criminal proceedings
M1C1-47	Reform 1.4: Reform of civil justice	Target	Reduction of backlog cases for the Civil Ordinary Courts (first instance)
M1C1-48	Reform 1.4: Reform of civil justice	Target	Reduction of backlog cases for the Civil Court of Appeal (second instance)
M1C1-49	Investment 1.8: Recruitment procedures for administrative courts	Target	Reduction of backlog cases for Administrative Regional Courts (first instance)
M1C1-50	Investment 1.8: Recruitment procedures for administrative courts	Target	Reduction of backlog cases for the Council of State
M1C1-59ter	Reform 1.9: Reform of the public administration	Milestone	Implementation of strategic human resource management in the Public Administration
M1C1-63	Reform 1.9: Reform of the public administration	Milestone	Publication of a repository of all simplified and/or digitalised procedures
M1C1-66	Investment 1.9: Provide technical assistance and strengthen capacity building for the implementation of the Italian recovery and resilience plan	Target	Education and training
M1C1-118	Reform 1.15: Reform of public accounting rules	Milestone	Entry into force of the legislative at on the accrual accounting reform for at least 90% of whole public sector, net of State-owned companied
M1C1-122	Reform 1.13: Reform of the spending review framework	Milestone	Completion of the yearly spending review for 2025, with reference to the saving target set in 2022, 2023 and 2024 for 2025.
M1C2-13bis	Reform 2: Annual Competition Laws	Milestone	Entry into force of legislation (including secondary legislation and implementing acts regarding the Annual Competition Law for 2025) on Regional Railways and Technology Transfer
M1C3-3	Investment - 1.2 Removal of physical and cognitive barriers in museums, libraries and archives to enable wider access to and participation in culture	Target	Interventions for the removal of physical and cognitive barriers in museums, monuments, archeological areas and parks, archives and libraries
M2C1-8	Investment 2.3: Innovation and mechanization in the agricultural and food sectors	Target	Support to investment in innovation in the circular economy and bio-economy
M2C1-9	Investment 2.2: Agri-solar Park	Target	Agri-voltaic power generation
M2C2-23	Investment 4.1 Investment in soft mobility (National Plan of Cycle Path)	Target	Cycling lanes T2
M3C2-5bis	Investment 2.1- Digitalisation of the logistic chain	Target	Digitalisation of the logistic chain
M4C1-20	Investment 1.5: Development of the tertiary vocational training system (ITS)	Target	Number of students enrolled in vocational training system (ITS)
M4C1-22	Investment 1.3: School Sports Infrastructure Enhancement Plan	Target	Construction or renovation of sport facilities and gyms for school use

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M4C1-23	Investment 3.4: Teaching and advanced university skills	Milestone	Actions to qualify and innovate secondary schools and university programmes, including PhDs
M4C1-24	Investment 1.6: Active orientation in school-university transition.	Target	Attendance certificates that have been issued for school-university transition courses
M5C1-7bis	Investment 1 - Strengthening Public Employment Services (PES)	Target	Public Employment Services (PES) have finalised the renovation activities
M5C1-14	Investment 2 - Gender equality certification system	Target	Companies have obtained the gender equality certification
M5C1-16	Investment 4 - Universal Civil Service	Target	People have participated in the universal civil service projects launched in the four-year period 2021-2024 and obtained the relevant certification
M5C3-4	Investment 2: Territorial proximity health facilities	Milestone	Support to rural pharmacies in municipalities, hamlets or settlements of less than 5 000 inhabitants (second batch)
M7-11	Investment 1: Scale-up measure: Smart grids	Target	Smart grids-electrification of energy consumption
M7-12	Investment 2: Scale-up measure: Interventions to increase the resilience of power grid	Target	Increase the resilience of the electricity system network
M7-13	Investment 3: Scale-up measure: Production of Hydrogen in brownfield sites (Hydrogen Valleys)	Target	Project carried out
M7-15	Investment 4: Tyrrhenian link	Milestone	Cable laid down
M7-17	Investment 5: SA.CO.I.3	Milestone	Completion of shells of conversion stations in Sardinia (Codrongianos) and Tuscany (Suvereto)
M7-22	Investment 7: Smart National Transmission Grid	Milestone	Installation of 5G equipment, ICT architecture, secure protocol 104 in electric stations and industrial IoT in electricity pylons
M7-27	Investment 8: Sustainable, circular and secure supply of Critical Raw Materials	Milestone	R&D projects and equipment of laboratories on Urban mining and eco-design
M7-31	Investment 11: Strengthening of the regional public transport railway fleet with zero emission trains and universal service	Target	Number of trains registered
M2C2-30	Investment 4.5 - Private and light commercial vehicle fleet renewal program with electric vehicles	Target	Number of vehicles purchased
M1C2-14ter	Reform 3: rationalization and simplification of incentives for firms.	Milestone	Entry into force of legal acts for the rationalization of firm incentives
M4C1-14ter	Reform 2.1: Teachers' recruitment	Milestone	Candidates having successfully passed the public competition to become teachers following the reformed recruitment system
M1C1-121bis	Reform 1.12: Reform of the tax administration	Milestone	Entry into force of primary and secondary legislation for

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
			improving tax collection
M2C2-29	Investment 4.3 Installation of charging infrastructures	Target	Number of fast re-charging stations
M4C1-15bis	Investment 1.7: Scholarships for University access	Target	Scholarships for university access awarded
M5C1-4bis	Reform 1- ALMPs and Vocational Training	Target	People participating in training programmes
M1C1-147	Investment 1.2 - Cloud enablement for local PA	Target	Cloud enablement for local Public Administration T2
M1C1-148	Investment 1.4.1 - Citizen experience - Improvement of the quality and the usability of digital public services	Target	Increase in the quality and the usability of digital public services T2
M2C2-10	Investment 2.1 Strengthening smart grids	Milestone	Smart grids- Increased network capacity and electrification of energy consumption
M2C2-13	Investment 2.2 Interventions to increase the resilience of power grid	Target	Increase the resilience of the electricity system network
M2C2-35	Investment 4.4.1: Strengthening of the regional public transport bus fleet with zero-emission buses	Target	Number of zero- emission buses registered T2
M2C2-35 ter	Investment 4.4.1: Strengthening of the regional public transport bus fleet with clean fuels vehicles	Target	Number of charging stations for zero-and low emissions low-floor buses
M6C2-16	Investment 2.2: Development of technical-professional, digital and managerial skills of professionals in the healthcare system	Target	Training on managerial and digital skills for healthcare staff
M6C2-17	Investment 2.2: Development of technical-professional, digital and managerial skills of professionals in the healthcare system	Target	Award of medical specialist training contracts
M1C1-149	Investment 1.4.3 - Adoption scale up of PagoPA platform services and the “IO” app	Target	Adoption scale up of PagoPA platform services T2
M1C1-150	Investment 1.4.3 - Adoption scale up of PagoPA platform services and the “IO” app	Target	Adoption scale up of “IO” app T2
M1C1-152	Investment 1.6.1 - Digitization of the Ministry of the Interior	Target	Ministry of Interior - Re-engineered and digitized processes T2
M1C1-154	Investment 1.6.2 - Digitization of the Ministry of Justice	Target	Justice Data Lake knowledge systems T2
M7-50	Investment 18 - Scale-up measure: Private and light commercial vehicle fleet renewal program with electric vehicles	Target	Number of vehicles purchased
		Instalment Amount	EUR 12 799 902 997

2. Loan support

The instalments referred to in Article 3(2) shall be organised in the following manner:

2.1.First Instalment (loan support):

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M4C2-10	Investment 2.1: IPCEI	Milestone	Launch of the call for expression of interest for the identification of the national projects, including projects on IPCEI microelectronic
M1C2-26	Investment 5.1: Refinancing and remodelling of Fund 394/81 managed by SIMEST	Milestone	Entry into force of the re-financing of Fund 394/81 and adoption of the investment policy
M2C1-14	Investment 1.1 - Implementation of new waste management plants and modernization of existing plants; Investment 1.2 - Circular economy “flagship” projects	Milestone	Entry into force of the Ministerial Decree.
M2C4-8	Investment 1.1. Implementation of an advanced and integrated monitoring and forecasting system	Milestone	Operational Plan for an advanced and integrated monitoring and forecast system to identify hydrological risks
M5C1-17	Investment 5 - Creation of women's enterprises	Milestone	The Fund to support women's entrepreneurship is adopted
M1C2-27	Investment 5.1: Refinancing and remodelling of Fund 394/81 managed by SIMEST	Target	SMEs that received support from Fund 394/81
M1C3-22	Investment 4.2 Funds for the competitiveness of tourism enterprise	Milestone	Investment policy for the: the European Investment Bank Thematic Fund;
M1C3-23	Investment 4.2: Funds for the competitiveness of tourism enterprises	Milestone	Investment policy for the National Tourism Fund,
M1C3-24	Investment 4.2 Funds for the competitiveness of tourism enterprises	Milestone	Investment policy for the: SME Guarantee Fund,
M1C3-25	Investment 4.2: Funds for the competitiveness of tourism enterprises	Milestone	Investment policy for the Fondo Rotativo
M1C3-26	Investment 4.2: Funds for the competitiveness of tourism enterprises	Milestone	Entry into force of the implementing decree for the Tax credit for the redevelopment of accommodation facilities.
M2C4-7	Reform 3.1: Adoption of national programs on air pollution control	Milestone	Entry into force of a national air pollution control programme
M2C4-12	Investment 2.1.b. Measures for flood and hydrogeological risk reduction	Milestone	Entry into force of the revised legal framework for interventions against flood and hydrogeological risks
M2C4-18	Investment. 3.1: Protection and enhancement of urban and peri-urban forests	Milestone	Entry into force of the revised legal changes for the protection and valorisation of urban and peri-urban green areas
M3C1-1	Reform 1.1 - Acceleration of the	Milestone	Entry into force of a legislative

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
	approval process of the Contract between the MIT and RFI		amendment on the approval process of the Contratti di Programma (CdP)
M3C1-2	Reform 1.2 - Acceleration of the authorization process of projects	Milestone	Entry into force of a regulatory change that reduces the authorisation time of projects from 11 to six months
M3C1-21	Reform 2.1 - Implementation of the recent “Decree Simplification” (converted into Law n.120 dated 11 September 2020) by issuing a decree concerning the adoption of “Guidelines for the classification and management of risks, the evaluation of security and the monitoring of existing bridges”	Milestone	Entry into force of “Guidelines for the classification and management of risks, the evaluation of security and the monitoring of existing bridges”

M5C2-19	Investment 6 - Innovation Programme for Housing Quality	Milestone	Regions and Autonomous Provinces (including municipalities and/or metropolitan cities located in those territories) signed the agreements to redevelop and increase social housing
M1C2-16	Investment 3: Fast internet connections (Ultra-Broadband and 5G)	Milestone	Award of all public contracts for faster connection projects
M1C3-12	Investment 2.1 – Attractiveness of small historic town	Milestone	Entry into force of the Ministry of Culture decree for the allocation of resources to municipalities for the attractiveness of Small Historic Towns
M1C3-13	Investment 2.2 – Protection and enhancement of rural architecture and landscape	Milestone	Entry into force of the Ministry of Culture decree for the allocation of resources: for the protection and enhancement of rural architecture and landscape
M1C3-14	Investment 2.3 – Programmes to enhance the identity of places, parks and historic gardens	Milestone	Entry into force of the Ministry of Culture decree for the allocation of resources: for projects to enhance the identity of places, parks and historic gardens
M1C3-15	Investment 2.4 – Seismic safety of place of places of worship, restoration of FEC heritage and shelters for art works	Milestone	Entry into force of the Ministry of Culture decree for the allocation of resources: for seismic safety in place of worship and FEC (Fondo Edifici di Culto) heritage restoration
M1C3-35	– Investment - 4.3 Caput Mundi-Next Generation EU for touristic great events	Milestone	Signing of each Agreement for six Projects between a Ministry of Tourism and beneficiaries/implementing bodies
M2C1-13	Reform 1.2 - National Program for Waste Management	Milestone	Entry into force the Ministerial Decree for the National Program for Waste Management
M2C2-52	Investment 5.2 Hydrogen	Milestone	Production of electrolyzers

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M4C2-11	Investment 2.1: IPCEI	Milestone	Entry into force of national legal act allocating the necessary funding to provide support to project participants.
M4C2-17	Investment 3.1: Fund for construction of an integrated system of research and innovation infrastructures; Investment	Milestone	Award of contracts for the projects concerning: a) integrated system of research and innovation infrastructures
M4C2-18	Investment 1.5: Establishing and strengthening of "innovation ecosystems for sustainability", building "territorial leaders of R&D"	Milestone	Award of contracts for projects concerning innovation ecosystems;
M4C2-19	Investment 1.4: Strengthening research structures and supporting the creation of "national R&D leaders" on some Key Enabling Technologies	Milestone	Award of contracts for projects concerning national R&D leaders on key enabling technologies
M4C2-20	Investment 3.2: Equity injection into the Digital Transition Fund ("DTF")	Milestone	The agreement between IT government and the implementing partner Cassa Depositi e Prestiti (CDP) establishing the financial instrument signed
M6C1-1	Reform 1: Definition of a new organisational model for Territorial healthcare assistance network	Milestone	Entry into force of the secondary legislation (Ministerial Decree) envisaging the reform of the organisation of healthcare.
M6C1-2	Investment 1.1: Community Health Houses to improve territorial health assistance	Milestone	Approval of an Institutional Development Contract
M6C1-4	Investment 1.2: Home as the first place of care and telemedicine	Milestone	Approval of the Guidelines containing the digital model for the implementation of Home Care
M6C1-5	Investment 1.2: Home as the first place of care and telemedicine	Milestone	Institutional Development Contract approved by Ministry of Health and regions
M6C1-10	Investment 1.3: Strengthening Intermediate Healthcare and its facilities (Community Hospitals)	Milestone	Approval of an Institutional Development Contract (Contratto Istituzionale di Sviluppo)
M6C2-5	Investment 1.1: Digital update of hospitals' technological equipment	Milestone	Approval of the Institutional Development Contract
		Instalment Amount	EUR 12 643 678 161

2.3. Third Instalment (loan support):

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M2C1-18	Investment 3.1: Green islands	Milestone	Entry into force of the Directorial decree
M2C1-20	Investment 3.2: Green Communities	Milestone	Award of (all) public contracts for the selection of Green Communities

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M5C2-17	Investment 5 - Urban Integrated Plans - EIB Fund-Of-Fund	Milestone	The Fund's investment strategy is approved by the Ministry of Finance (MEF)
M1C1-123	Investment 1.6.3 - Digitization of National Social Security Institute (INPS) and National Institute for Insurance against Accidents at work (INAIL)	Target	INPS - "One click by design" services/contents T1
M1C1-124	Investment 1.6.3 - Digitization of National Social Security Institute (INPS) and National Institute for Insurance against Accidents at work (INAIL)	Target	INPS - Employees with improved Information and Communication Technologies (ICT) skills T1
M1C3-30	Investment 4.2: Funds for the competitiveness of tourism enterprises	Target	European Investment Bank Thematic Funds: Disbursement to the Fund of total of EUR 350 000 000.
M1C3-31	Investment 4.2: Funds for the competitiveness of tourism enterprises	Target	National Tourism Fund: Disbursement to the Fund of total of EUR 150 000 000 for equity support.
M2C3-9	Investment 3.1: Promotion of efficient district heating	Milestone	Contracts to improve the heating networks are awarded by the Ministry of Ecological Transition following a public tendering procedure
M2C4-19	Investment. 3.1: Protection and enhancement of urban and peri-urban forests	Target	Plant trees for the protection and valorisation of urban and peri-urban green areas T1
M2C4-24	Investment 3.4. Remediation of "orphan-sites soil"	Milestone	Legal framework for the remediation of orphan sites
M3C1-3	Investment 1.1 - High-speed railway connections to the South for passengers and freight	Milestone	Award of the contract (s) to build high-speed railway in the lines Napoli-Bari, and Palermo-Catania
M3C1-12	Investment 1.4 - Introducing the European Rail Transport Management System (ERTMS)	Milestone	Award of the contracts for the European Rail Transport Management System
M3C2-8	Investment 1.1: Green ports: renewable energy and energy efficiency interventions at ports	Target	Green ports: assignment of works
M4C1-29	Reform 1.7: Reform of student housing regulation and investment in student housing	Milestone	Entry into force of the reform on student housing legislation.
M5C2-13	Investment 5 - Urban Integrated Plans - general projects	Milestone	Entry into force of the investment Plan for urban regeneration projects in metropolitan areas
M6C2-7	Investment 1.1: Digital update of hospitals' technological equipment	Milestone	Award of all public contracts
		Instalment Amount	EUR 9 825 328 389

2.4.Fourth Instalment (loan support):

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M1C1-125	Investment 1.2 - Cloud enablement for local PA	Milestone	Award of (all) public calls for Cloud enablement for local Public Administration tenders
M1C2-22	Investment 4: Satellite Technology and Space economy	Milestone	Award of all public contracts for satellite technology and space projects
M2C2-48	Investment 3.1 Production of Hydrogen in brownfield sites (Hydrogen Valleys)	Milestone	Award of all public contract for the projects the production of hydrogen in abandoned industrial areas centres
M2C2-50	Investment 3.2 Hydrogen Use in hard-to-abate industry	Milestone	Agreement to promote the transition from methane to green hydrogen
M5C2-21	Investment 7 - The Sport and Social Inclusion project	Milestone	Award of all public contracts for projects on sport and social inclusion following a public call for proposal
M1C3-20	Investment - 3.2 Development of the film industry (Cinecittà project)	Milestone	Signature of the contracts between the implementing entity Cinecittà SPA and the companies in relation to the construction of nine studios
M2C4-21	Investment 3.3 Re-naturification of Po area	Milestone	Revision of the legal framework for interventions for the re-naturification of the Po area
M4C1-28	Reform 1.7: Reform of student housing regulation and investment in student housing	Milestone	Awards of initial contracts for the creation of additional sleeping accommodation units (beds)
M4C2-12	Investment 2.1: IPCEI	Milestone	The list of participants to IPCEI projects is finalised by 30/06/2023
M4C2-16	Investment 3.1 Research and innovation infrastructures	Target	Number of infrastructures funded
M5C1-18	Investment 5 - Creation of women's enterprises	Target	Financial support to enterprises has been committed
M6C2-14	Investment 2.2: Development of technical-professional, digital and managerial skills of professionals in the healthcare system	Target	Scholarships for specific training in general medical practice are awarded.
		Instalment Amount	EUR 16 611 453 220

2.5.Fifth Instalment (loan support):

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M2C3-5	Investment 1.1: Construction of new schools through building replacement	Milestone	Award of all public contracts for the construction of new schools through building replacement to upgrade energy in school buildings, following a public tendering

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
			procedure
M2C4-28	Investment 4.1. Investments in primary water infrastructures for the security of water supply	Milestone	Award of funding to all projects (for investments in primary water infrastructure and for the security of water supply
M2C4-30	Investment 4.2. Reduction of losses in water distribution networks, including digitization and monitoring of networks	Milestone	Award of funding to all projects for interventions in water distribution networks, including digitization and monitoring of networks
M1C1-14	Investment 1.6.5: Digitization of the Council of State	Target	Council of State - Court documents available for analysis in data warehouse T1
M1C1-16	Investment 1.6.5: Digitization of the Council of State	Target	Council of State - Court documents available for analysis in data warehouse T2
M1C1-126	Investment 1.4.3 - Adoption scale up of PagoPA platform services and the “IO” app	Target	Adoption scale up of PagoPA platform services T1
M1C1-127	Investment 1.4.3 - Adoption scale up of PagoPA platform services and the “IO” app	Target	Adoption scale up of “IO” app T1
M1C1-128	Investment 1.4.5 - Digitization of public notices	Target	Adoption scale up of digital public notices T1
M1C1-129	Investment 1.6.1 - Digitization of the Ministry of the Interior	Target	Ministry of the Interior - Fully re-engineered and digitized processes T1
M1C1-130	Investment 1.6.2 - Digitization of the Ministry of Justice	Target	Digitized judicial files T1
M1C1-131	Investment 1.6.2 - Digitization of the Ministry of Justice	Milestone	Justice Data Lake knowledge systems T1
M1C1-132	Investment 1.6.3 - Digitization of National Social Security Institute (INPS) and National Institute for Insurance against Accidents at work (INAIL)	Target	INPS - “One click by design” services/contents T2
M1C1-133	Investment 1.6.3 - Digitization of National Social Security Institute (INPS) and National Institute for Insurance against Accidents at work (INAIL)	Target	INPS - Employees with improved Information and Communication Technologies (ICT) skills T2
M1C1-134	Investment 1.6.3 - Digitization of National Social Security Institute (INPS) and National Institute for Insurance against Accidents at work (INAIL)	Target	INAIL - Fully re-engineered and digitized processes/services T1
M1C1-135	Investment 1.6.4 - Digitization of the Ministry of Defence	Target	Ministry of Defence - Digitalisation of procedures T1
M1C1-136	Investment 1.6.4 - Digitization of the Ministry of Defence	Target	Ministry of Defence - Digitalisation of certificates T1
M1C1-137	Investment 1.6.4 - Digitization of the Ministry of Defence	Milestone	Ministry of Defence - Commissioning of institutional web portals and intranet portals
M1C1-138	Investment 1.6.4 - Digitization of the Ministry of Defence	Target	Ministry of Defence - Migration of non-mission critical applications into Solution for Complete Information Protection by Infrastructure Openness (S.C.I.P.I.O.) T1
M1C2-29	Investment 5.2: Competitiveness and resilience of supply chains	Target	Development Contracts approved
M2C1-15bis	Reform 1.2 National Program for Waste Management:	Target	Reduction of irregular landfills (T2)

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
	Investment 1.1 - Implementation of new waste management plants and modernization of existing plants		
M2C1-15ter	Reform 1.2 National Program for Waste Management: Investment 1.1 - Implementation of new waste management plants and modernization of existing plants	Target	Regional differences in separate collection
M2C1-15 quater	Investment 1.1 - Implementation of new waste management plants and modernization of existing plants	Milestone	Entry into force of Bio-waste separate collection obligation
M2C2-24	Investment 4.2 Development of Rapid Mass Transport systems	Milestone	Award of all public contracts for the build-up of metros, tramways, trolleybus and cableway metropolitan areas
M2C2-32	Investment 4.4.1: Strengthening of the regional public transport bus fleet with zero-emission buses	Milestone	Award of all public contracts for the strengthening of the regional public transport bus fleet with zero-emission low-floor buses
M2C3-7	Investment 1.2- Construction of buildings, requalification and strengthening of real estate assets of the administration of justice	Milestone	Award of all public contracts to construct new buildings, requalify and strengthen real estate assets of the administration of justice are signed by the contracting authority following a public tendering procedure
M2C4-33	Investment 4.3 Investments in the resilience of the irrigation agrosystem for better management of water resources	Milestone	Award of funding to all projects for the resilience of the irrigation agrosystem for the better management of water resources
M2C4-36	Investment 4.4 Investments in sewerage and purification	Milestone	Award of all public contracts for sewerage and purification
M3C1-4	Investment 1.1 - High-speed railway connections to the South for passengers and freight	Milestone	Award of the contract to build high-speed railway in the lines Salerno Reggio Calabria
M3C1-17	Investment 1.7 - Upgrading, electrification and resilience of railways in the South	Target	150 km of works completed related to the upgrading, electrification and resilience of railways in the South, ready for the authorisation and operational phases.
M4C2-5	Investment 1.1: Research Projects of Significant National Interest (PRIN)	Target	Number of research projects awarded
M6C1-8	Investment 1.2: Home as the first place of care and telemedicine	Target	At least one telemedicine project assigned to each region (considering both projects that will be implemented in the individual region and those that may be developed as part of consortia among regions)
		Instalment Amount	EUR 9 030 593 086

2.6.Sixth Instalment (loan support):

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M3C1-10	Investment 1.3 - Diagonal connections	Milestone	Award of the contract (s) to build the connections in the lines Orte-Falconara and Taranto - Metaponto-Potenza-Battipaglia
M7-35	Investment 13: Adriatic Line Phase 1 (Sulmona compressor station and Sestino-Minerbio gas pipeline)	Milestone	Adoption and update of relevant environmental impact assessments (VIncA)
M7-40	Investment 15: Transizione 5.0	Milestone	Entry into force of the legal act establishing the criteria of eligible interventions
M2C1-15	Reform 1.2 National Program for Waste Management	Target	Reduction of irregular landfills (T1)
M2C1-16bis	Reform 1.2 National Program for Waste Management	Target	Irregular landfills
M2C1-22	Investment 3.4: Fondo Contratti di Filiera (FCF) to support supply-chains contracts for the agri-food, fishing and aquaculture, forestry, floriculture and plant nursery sectors	Milestone	Implementing Agreement
M2C2-31	Investment 4.4.3: Renewal fleet for the National fire brigade command	Milestone	Award of all public contracts for the renewal fleet for the National fire brigade command
M2C4-6	Investment 3.2: Digitization of national parks	Target	Administrative simplification and development of digital services to visitors to national parks and marine protected areas
M3C2-10	Reform 2.2: Establishment of a National Digital Logistics Platform, in order to introduce the digitalization of freight and/or passenger services	Milestone	National Digital Logistics Platform
M6C2-15	Investment 2.2: Development of technical-professional, digital and managerial skills of professionals in the healthcare system	Target	Additional scholarships for specific training in general medical practice are awarded.
M7-36	Investment 13: Adriatic Line Phase 1 (Sulmona compressor station and Sestino-Minerbio gas pipeline)	Milestone	Award of contracts
M7-38	Investment 14: Cross-border gas export infrastructure	Milestone	Award of contracts
		Instalment Amount	EUR 7 908 481 227

2.7.Seventh Instalment (loan support):

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M1C1-139	Investment 1.2 - Cloud enablement for	Target	Cloud enablement for local Public

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
	local PA		Administration T1
M2C2-25	Investment 4.2 Development of Rapid Mass Transport systems	Milestone	Award of all public contracts for the purchase of zero-emission rolling stock and interventions for the upgrade of the infrastructure of rapid mass transport systems
M2C4-11	Investment 2.1.a. Measures for flood and hydrogeological risk reduction – Interventions in Emilia Romagna, Toscana and Marche	Milestone	Identification of the interventions by ordinance(s) of the Commissioner of Emergency
M7-46	Investment 17: Financial instrument for energy renovations of public residential housing	Milestone	Definition of the target of the terms of reference
M1C1-140	Investment 1.4.1 - Citizen experience - Improvement of the quality and the usability of digital public services	Target	Improvement of the quality and the usability of digital public services T1
M1C1-141	Investment 1.6.4 - Digitization of the Ministry of Defence	Target	Digitalisation of procedures of the Ministry of Defence T2
M1C1-142	Investment 1.6.4 - Digitization of the Ministry of Defence	Target	Digitalisation of certificates of the Ministry of Defence T2
M1C1-143	Investment 1.6.4 - Digitization of the Ministry of Defence	Target	Ministry of Defence - Migration of mission critical and non-mission critical applications into Solution for Complete Information Protection by Infrastructure Openness (S.C.I.P.I.O.) T2
M1C2-19	Investment 3: Fast internet connections (Ultra-Broadband and 5G)	Target	Islands provided with ultra-broadband connectivity
M1C3-27	Investment- 4.3 Caput Mundi-Next Generation EU for touristic great events	Target	Number of cultural and touristic sites whose requalification reached, on average, 50% of Stato Avanzamento Lavori (SAL)(first batch)
M2C1-16ter	Investment 1.1 - Implementation of new waste management plants and modernization of existing plants	Target	Regional differences in separate collection rates
M2C1-25	Investment 3.4: Fondo Contratti di Filiera (FCF) to support supply-chains contracts for the agri-food, fishing and aquaculture, forestry, floriculture and plant nursery sectors	Milestone	Ministry has transferred the overall amount of resources
M2C2-9	Investment 2.1 Strengthening smart grids	Target	Smart grids- Increase network capacity for the distribution of renewable energies
M2C2-34	Investment 4.4.1: Strengthening of the regional public transport bus fleet with zero-emission buses	Target	Number of zero-emission low-floor buses registered T1
M2C2-34bis	Investment 4.4.2: Strengthening of the regional public transport railway fleet with zero emission trains and universal service	Target	Number of Zero Emission trains
M2C2-38bis	Investment 5.1: Support to the production system for the Ecological Transition, Net Zero Technologies, and competitiveness and resilience of strategic supply chains	Milestone	Implementing Agreement
M2C2-39	Investment 5.1. Support to the production system for the Ecological Transition, Net Zero Technologies, and competitiveness	Milestone	The Ministry of Enterprises and Made in Italy has completed the transfer of funds to Invitalia S.p.A

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
	and resilience of strategic supply		
M2C2-42bis	Investment 5.4 – Equity injection into the Green Transition Fund (“GTF”)	Milestone	Equity injection into the Green Transition Fund
M2C2-44	Investment 1.1 Development of agri-voltaic systems	Milestone	Award of all public contracts for the installation of photovoltaic solar panels in agri-voltaic systems
M2C4-22	Investment 3.3 Re-naturification of Po area	Target	Reduction of riverbed artificiality for the re-naturification of the Po area T1
M2C4-31	Investment 4.2. Reduction of losses in water distribution networks, including digitization and monitoring of networks	Target	Interventions in water distribution networks, including digitization and monitoring of networks T1
M2C4-34	Investment 4.3 Investments in the resilience of the irrigation agrosystem for better management of water resources	Target	Interventions for the resilience of the irrigation agrosystem for the better management of water resources T1
M2C4-35	Investment 4.3 Investments in the resilience of the irrigation agrosystem for better management of water resources	Target	Interventions for the resilience of the irrigation agrosystem for the better management of water resources T1
M3C1-15	Investment 1.5-Strengthening metropolitan nodes and key national links	Target	700 km of upgraded line sections built on metropolitan nodes and key national links
M3C1-19	Investment 1.8 - Upgrading railway stations (RFI management; in South)	Target	Upgraded and accessible railway stations
M4C2-21bis	Investment 3.2 – Equity injection into the Digital Transition Fund (“DTF”)	Milestone	Equity injection into the Digital Transition Fund
M5C3-12	Investment 1.4: Infrastructural investments for the Special Economic Zone	Target	Start of works for infrastructural interventions projects in the Special Economic Zones
M6C1-7	Investment 1.2: Home as the first place of care and telemedicine	Target	Coordination Centres fully operational (second batch)
M7-43	Investment 16: Support to SMEs for self-production from renewable energy sources	Milestone	Implementing Agreement
M7-44	Investment 16: Support to SMEs for self-production from renewable energy sources	Milestone	The Ministry of Enterprises and Made in Italy has completed the transfer of funds to Invitalia
M2C4-20	Investment. 3.1: Protection and enhancement of urban and peri-urban forests	Target	Plant trees for the protection and valorisation of urban and peri-urban green areas T2
		Instalment Amount	EUR 15 715 972 025

2.8.Eighth Instalment (loan support):

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M7-47	Investment 17: Financial instrument for energy renovations of public residential housing	Milestone	Implementing Agreement
M7-48	Investment 17: Financial instrument for energy renovations of public residential housing	Milestone	Ministry has completed the investment
M1C1-146	Investment 1.4.4 - Adoption scale up of the National Digital Identity platforms (SPID, CIE) and the national registry (ANPR)	Target	National Digital Identity platform (CIE)
M1C3-16	Investment – 2.1 Attractiveness of Small Historic Towns	Milestone	Adoption of Decree(s) listing firms supported in Small Historic Towns
M2C4-9	Investment 1.1. Implementation of an advanced and integrated monitoring and forecasting system	Milestone	The monitoring and forecast system is accessible
M2C4-26	Investment 3.5. Restoration and protection of the seabed and marine habitats	Target	Restoration and protection of seabed and marine habitats
M4C2-6	Investment 1.1: Research Projects of Significant National Interest (PRIN)	Milestone	Publication of the decree(s) awarding the projects
M4C2-7	Investment 1.1: Research Projects of Significant National Interest (PRIN)	Target	Number of fixed-term researchers hired
M4C2-8	Investment 1.3: Partnerships extended to universities, research centers, companies and funding of basic research projects	Target	Number of research partnerships signed
M4C2-22	Investment 2.1: IPCEI	Target	Number of projects supported
M6C1-6	Investment 1.2: Home as the first place of care and telemedicine	Target	Home care treatment
		Instalment Amount	EUR 11 184 566 013

2.9.Ninth Instalment (loan support):

Sequential Number	Related Measure (Reform or Investment)	Milestone / Target	Name
M1C1-145	Investment 1.4.4 -Adoption scale up of the National Digital Identity platform (SPID, CIE) and the national registry (ANPR)	Target	National Digital Identity platform (CIE) and the national registry (ANPR)
M1C3-28	Investment 4.2: Funds for the competitiveness of tourism enterprises	Target	Number of tourism enterprises supported by the grant and/or the tax credit for infrastructures and/or services;
M1C3-32	Investment 4.2: Funds for the competitiveness of tourism enterprises	Target	Number of enterprises to be supported through the SME's

M3C1-28	Investment 1.10 - Strengthening metropolitan nodes, interregional and regional railway lines	Target	3 309 km of upgraded line sections built
M2C4-40	Investment 4.5 – Grant scheme for investments on water infrastructures	Target	Invitalia S.p.A. shall have entered into legal grant agreements with final beneficiaries for an amount necessary to use 100% of the RRF investment into the Scheme (taking into account management fees). At least 40% of this financing shall contribute to climate objectives using the methodology in Annex VI of the RRF Regulation. Italy shall transfer EUR 1 200 000 000 to Invitalia S.p.A. for the Facility.
M1C2-34	Investment 9 – Transition 4.0 – scale-up	Target	Transition 4.0 tax credits granted to firms based on documents presented in 2021-2026
M2C1-27	Investment 4: Agri-Solar Park Facility	Milestone	Legal agreements signed with final beneficiaries and investment completion
M2C4-39	Investment 4.5 – Grant scheme for investment on water infrastructure	Milestone	Entry into force of the Implementing Agreement
		Instalment Amount	EUR 19 919 595 964

SECTION 3: ADDITIONAL ARRANGEMENTS

1. Arrangements for monitoring and implementation of the recovery and resilience plan

The monitoring and implementation of the recovery and resilience plan of Italy shall take place in accordance with the following arrangements.

As provided under Decree-Law No. 77 of 31 May 2021 as amended by Decree-Law No. 13 of 24 February 2023, a number of coordinating structures are created for the monitoring and implementation of the plan. These include in particular: (i) a high-level steering committee (“cabina di regia”) established at the Presidency of the Council of Ministers, with the main task to steer and coordinate the implementation of the plan; (ii) a mission structure established at the Presidency of the Council of Ministers, at least for the duration of the plan, empowered to act as a central coordination structure for the implementation and monitoring of the plan; (iii) a technical structure at the Ministry of Economy and Finance, performing the operational monitoring of the implementation of plan, the control of the regularity of procedures and expenses and the reporting, and the technical and operational support to the implementation phase. The mission structure at the Presidency of the Council of Ministers acts as a single point of contact at national level for the European Commission. The Ministry of Economy and Finance ensures the evaluation of the results of the plan. Social partners and other stakeholders participate to dedicated meetings of “cabina di regia” to ensure their involvement in the implementation of the plan. Moreover, coordination structures are identified at the level of each central administration responsible for measures included in the plan, tasked with the management, monitoring, reporting and control on the relevant interventions, including in relation to the supervision of implementation and progress towards the achievement of milestones and targets. Finally, enforcement mechanisms in case of implementation issues, including through the activation of substitution powers vis-à-vis the administrations responsible for the measures of the plan, are envisaged with the aim to guarantee a timely and effective delivery of projects and ex-ante mechanisms for the resolution of conflicts are put in place.

In order to strengthen administrative capacity for the monitoring and implementation, the recruitment of temporary personnel is envisaged, including in relation to central administrations responsible for plan’s interventions and the Ministry of Economy and Finance (including concerning the central coordinating structure and the State Accounting Department), as provided under Decree Law of 9 June 2021, n. 80, as well as in relation to administrations of the South of Italy, which are expected to reinforce human capital involved in the planning and spending of EU funds, as provided in particular under Law n. 178 of 2020. In addition, resources are allocated to the mission structure established at the Presidency of the Council of Ministers to ensure its effective functioning, as provided under Decree-Law No. 13 of 24 February 2023. Finally, technical and operational support to central and local administrations is envisaged in the implementation of projects, including through the use of public capital companies, a pool of experts for technical assistance, and the possibility to resort to external expertise. These actions shall be accompanied by the implementation of measures to cut red tape and simplify administrative procedures, as provided for under Decree Law No. 77 of 31 May 2021 and Decree-Law No. 13 of 24 February 2023.

The arrangements also provide for the use of an integrated IT system (“ReGiS”). The existing audit service Inspectorate General for Financial Relations with the European Union (IGRUE), within the Ministry of Economy and Finance, is tasked with the coordination of the audit systems and conducting the controls with the support of the State Territorial Accounts Office (RTS). Enhanced arrangements with Guardia di Finanza and relevant independent authorities such as the national anti-corruption agency ANAC shall remain in place, thus reinforcing the role that the Italian legal system already attributes to these authorities in relation to the protection of public finances, including those from the EU.

2. Arrangements for providing full access by the Commission to the underlying data

In order to provide full access to the Commission to the underlying relevant data, Italy shall have in place the following arrangements.

The Ministry of Economy and Finance acts as a technical structure for monitoring, including on progress on milestones and targets, and, where appropriate, implementing control and audit activities, and for providing reporting and requests for payments. It coordinates the reporting of milestones and targets, relevant indicators, but also qualitative financial information and other data, such as on final recipients. The data encoding is taking place at the level of the central administrations responsible for the plan's measures, which shall report the required data to the Ministry of Economy and Finance. In accordance with Article 24(2) of Regulation (EU) 2021/241, upon completion of the relevant agreed milestones and targets in Section 2.1 of this Annex, Italy shall submit to the Commission a duly justified request for payment of the financial contribution and, where relevant, of the loan. Italy shall ensure that, upon request, the Commission has full access to the underlying relevant data that supports the due justification of the request for payment, both for the assessment of the request for payment in accordance with Article 24(3) of Regulation (EU) 2021/241 and for audit and control purposes.
